Federal Order Tightens Up Money For Loans, Business

Reserve Buildup Ordered

WASHINGTON (UPI)—Money for business and personal loans is expected to get somewhat tighter as a result of the Federal Reserve Board's order to banks to hold a greater percentage of their deposits in reserve.

The board, in an effort to check inflation and discourage the flow of dollars from the country, told its 2,000 member banks yesterday to increase by one-half of one per cent the funds they keep on reserve to back up checking and savings account deposits in excess of $5 million.

NO CRISIS

The move will have the effect of taking out of circulation by the middle of January about $550 million that ordinarily would have been available for loans and investments.

The action was not expected to create any immediate money crisis or lead to a new push for higher interest rates. But observers said it would tend to make bankers more cautious about investments, particularly abroad.

Lloyd E. Clarke, president of the National Association of Home Builders, said the housing industry is apprehensive that a tight money situation could develop in 1968.

He urged the government to "identify national housing goals" and to make sure enough money is available in the longterm mortgage market for home building needs.

'MODEST STEP'

The American Bankers Association termed the order "a modest step toward reducing the rate of credit expansion" in line with its recent recommendations.

The step marked the second time in little more than a month that the Federal Reserve Board has acted to put a damper on bank lending.

After Britain devalued the pound, the board raised the discount rate —the interest rate that Federal Reserve Banks charge commercial banks — from 4 per cent to 4.5 per cent.

Following this lead, the nation's major banks quickly boosted the prime lending rate from 5.5 per cent to 6 per cent.

Hijackers Take $301,000, Escape In Broad Daylight

YOUNGSTOWN, Ohio (UPI)—The FBI joined a three-state search today for bandits who hijacked an armored truck in daylight and escaped with $301,000. Despite the precision and timing of the theft, the thieves overlooked nearly $40,000 in a rear compartment.

While federal agents and police hunted a 1959 automobile believed used in the getaway, authorities appealed to the public for help in solving the daring theft.

An FBI spokesman said the federal agents were assisting police in suburban Boardman Township, where the theft occurred yesterday, because it was believed the bandits probably fled across state lines.

Authorities asked area radio and television stations and Youngstown's only daily newspaper, The Vindicator, to appeal to anyone who may have seen the robbery to step forward.

Donald Hawkins, police chief of Boardman Township, said he thought the theft was an "inside job." He said the car was "the strongest lead we have."

The car was seen following the stolen Kane Secret Service, Inc., truck into Mill Creek Park, about a mile and a half from the Almart Department Store where it had been parked when the thieves made off with it.

The truck's two guards were inside the store at the time. When they noticed their vehicle was gone, they had to borrow a dime to call police.

The truck was found abandoned in the park 30 minutes after the theft.

Hawkins said the thieves carried off a big sack containing $265,000 being transferred from the Boardman branch of the Mahoning National Bank to the bank's headquarters in downtown Youngstown. The rest of the loot was in small bags.

Hawkins said the bandits used cardboard boxes to transfer the loot to the car but missed $39,416 in the rear of the truck.

"We think three people were involved because of the short time it took to move the money from the truck to the car," Hawkins said.

The theft was similar to a $600,000 robbery of an armed car April 1 at Quincy, Mass., a Boston suburb, where bandits used a key to open the front door of the truck while the driver and guard were in a bank making a cash pickup.

LBJ Works On Budget In Texas

COMBINED AP & UPI

SAN ANTONIO, Tex. — President Johnson announced today that King Olav V of Norway has accepted his invitation to make a state visit to Washington April 24-25.

The 64-year-old monarch also will visit other cities in the United States afterwards, the Texas White House said. Details were not announced.

Both President and Mrs. Johnson met the Norwegian king in 1963 when Johnson made a visit to that country as vice president.

The President expects to stay in Texas two or three weeks. He continued working with his staff today on budget and legislative matters, his press secretary, George Christian, reported.

WELFARE CITED

The Texas White House issued a report made to the President today by Secretary of Health, Education and Welfare John Gardner saying:

"Every $1,000 spent by federal and state agencies on vocational rehabilitation of disabled people is resulting in an increase of over $35,000 in the lifetime earnings of rehabilitated persons."

The President also is watching developments in Thailand, Laos and Cambodia where increased Communist military activity has been reported.

WATCHING ASIA

Christian said that Johnson was keeping an eye on reports of Viet Cong and North Vietnamese movements near the Thai-Laotian border.

But he referred newsmen to the state department for further comment. So far the United States is adopting a wait-and-see attitude, according to authoritative sources in Washington.

Christian also declined comment on whether the chief executive is considering a policy decision on "hot pursuit" to permit American forces in Vietnam to chase the enemy into neighboring Cambodia. "I don't get into these matters at briefings," he said.

Three New Hospitals To Aid Viet Civilians

SAIGON (AP) — The United States is preparing three hospitals with a total of 300 beds and staffing them with American military doctors and nurses to help care for the thousands of civilian victims of the Vietnam war, high U.S. officials disclosed today.

Civilian casualties are mounting—one American expert estimates them at 100,000 this year —and Vietnamese hospitals are unable to care for many of them.

The U.S. officials said American military hospitals since last March have been authorized to accept as many wounded civilians as they have room for, and about 300 a month have been treated. Some civilians had been treated even before that, they added.

A 300-bed civilian hospital at Tuy Hoa, entirely staffed by U.S. military doctors, nurses and orderlies, will open in a few days, the officials said.

A second hospital, with 200 beds, is expected to be completed at Chu Lai before the end of January. A third hospital, at Can Tho in the Mekong Delta, is expected to open in late spring with 500 beds for U.S. soldiers and 300 for civilians.

The first two hospitals are being converted from existing U.S. military facilities, while the Can Tho facility is a new structure.

Vietnamese government figures show an average of 4,000 civilians killed and wounded were reported each month during the past year, or at least 48,000 civilian casualties during the year.

U.S. Recruits Support On Cambodia Bar

WASHINGTON (AP) — The United States is seeking the help of many other countries — reportedly including Russia and other Communist states — in its diplomatic drive to deny sanctuary in Cambodia for Communist forces which operate in Vietnam.

State Department officials disclosed today this is being done by circulating to other governments the note which the United States sent earlier this month to Cambodia together with a document of specific evidence bearing on Communist troop operations across the Vietnamese-Cambodian border.

The U.S. move came after the Cambodian government of Prince Norodom Sihanouk had rejected a new U.S. approach on the issue, which is regarded here as extremely serious because it involves a risk of widening the war in Southeast Asia if a diplomatic solution cannot be found.

Sihanouk published his message rejecting a U.S. proposal for giving an international control commission the necessary support to patrol the borders.

Marine Airlift Descends On Red Fort; Bitter Fight

SAIGON (UPI)—A battalion of 800 or more U.S. Marines making a helicopter assault landed today in the midst of a Viet Cong stronghold near Da Nang, touching off a bitter and costly day-long battle. U.S. paratroops made an almost identical assault yesterday 200 miles farther south.

Today's assault into a nest of Viet Cong fortifications in an old cemetery was part of the renewed ground fighting that has flared since the end Monday of the Christmas truce. The Communist have lost 378 known dead and the Americans 34 dead and 121 wounded. South Vietnamese losses were "light."

The U.S. military command announced belatedly today that seven Americans were killed and 25 injured Tuesday when a CH47 Chinook helicopter with 32 persons aboard crashed and burned on the South Vietnam central coast near Phu Cat. Cause of the crash was not disclosed.

In Saigon, U.S. authorities disclosed 166 Americans were killed and 1,397 wounded in combat during the week ending last Saturday. In the previous week, 187 Americans died in action.

The toll brought total U.S. combat casualty figures for the war to 115,983—including 15,812 killed, 99,305 wounded and 866 missing.

Other allied forces reported 20 killed and 34 wounded during the week.

The officials said U.S. and allied forces reported killing 826 Communists last week, compared with 1,174 for the week before. The total, however, did not include Communists killed by South Vietnamese forces.

The Marine landing came at An Hoa, 25 miles southwest of Da Nang, an area where the Viet Cong have long troubled American and South Vietnamese forces. It was carried out in support of a government drive in the same area.

UPI correspondent Tom Corpora reported that 15 Marines were killed in the first hours of battle, and five wounded. Communist losses were not immediately known in the battle which was still going on at nightfall.

When the Leathernecks tried to land aboard their CH46 helicopters, Viet Cong troops struck with a barrage of rifle fire then lashed out with automatic weapons, M79 gre-

Bridge Board Asked To Employ A Lobbyist

A committee of the Golden Gate Bridge and Highway District voted today to hire a Sacramento lobbyist at $16,000 a year.

The legislation committee, headed by Lowell Edington, approved hiring Gordon Garland over the objection of Director John E. Dearman. He called the act "a misuse of public funds."

Dearman said that funds would be better spent if they were used to send directors to Sacramento to appear before various committees.

Marin Director Thomas D. Hardcastle said he felt the same way when he first joined the board.

"Then I had the opportunity to travel to Sacramento and learn how the cookie crumbles," said Hardcastle. "Ever since then I have voted for the legislative representative."

The hiring will go to the full board of directors tomorrow for approval.

Mercury Hits Record High For December

Old Man Sunshine is in record-breaking form in Marin.

For the second day in a row yesterday, mercury in the city rose to a semi-tropical 78 degrees, making it the warmest December day in the 20 years the U.S. Weather Bureau has been keeping San Rafael temperature charts.

Where Have All The Hippies Flown?

SAN FRANCISCO (UPI)—Will 1967 go down as "the year of the hippies" or as "one of the early hippie years"?

It's hard to say. Hippies burst upon the national scene early in 1967 but by the end of the year seemed to be fading.

The question is were they fading away or simply fading into the landscape?

On Jan. 14 a happening called the Human Be-In startled San Francisco by attracting 15,000 people to Golden Gate Park.

In following months tens of thousands of hippies and would-be hippies, plus even more tourists, invaded the city's Haight-Ashbury district, national mecca of the Flower Children.

But by Oct. 6, some disillusioned youths staged a mock "Death of the Hippie" funeral, complete with ceremonies "to drive out the evil."

They said they didn't like the image created by the name, hippie, and they didn't like the violence that had become a way of life on Haight Street.

But the hippies weren't dead yet. They had only moved away in large numbers from the Haight-Ashbury and from some lesser favorite spots in other cities, including New York.

A few went to areas of natural beauty in New Mexico and along California's coast. Some simply shifted to different parts of their own city. Still others took their message back to college.

No way has been found to estimate how many of the nation's youth has gone hippie and remained so. Or how many are still intrigued by the image. Actually, nobody has ever really defined the world except to particular dress, oriented toward drugs and having unpopular opinions about work, love and the Vietnam war.

But beaded, bearded men in outlandish costumes now are common in every section of San Francisco, and make their appearance pretty nearly everywhere in the country. So do the sloppy, straggly-haired girls.

Increases in sales of cigarette papers (also used for marijuana), skyrocketing drug arrests, circulation of hippie newspapers, continued existence of "crash pads" (communal dwellings) and stores selling hippie paraphernalia are statistical indicators that the hippies are still with us, even if no one knows for how long.

The current number of hippies who could reasonably be called hippie in San Francisco is something like 20,000—or more. Other thousands exist in nearby Berkeley on the edges of the University of California. New York police say only there are "hundreds" of hippies in that city's East Village, considered the "capital" in the East.

Meanwhile, Haight Street, the first hippie capital, is being

Reagan's '68 Goal: Tax Reform

By JERRY RANKIN

SACRAMENTO (AP) — Gov. Ronald Reagan lists tax reform as his main 1968 goal, but the Legislature's Democratic leader replies this is impossible unless Reagan gives in and accepts a personal income tax withholding plan.

In a year-end interview with Capitol newsmen, the Republican governor made clear he still wholeheartedly opposes the payroll withholding plan for state personal income taxes. However, for the first time he indicated he might be persuaded — with difficulty — to change his mind on the controversial subject.

UNRUH FIRM

In turn, Assembly Speaker Jesse M. Unruh, D-Inglewood, made clear he will insist on including withholding in any tax reform proposal — and he could block any plan without it.

Reagan's remarks were made at a news conference Dec. 19, but the governor's press staff embargoed their release until today. Unruh's comments were in a news release replying to Reagan.

In addition to talking about withholding, Reagan made these other points in the interview:

He is flattered by growing support for him as the 1968 Republican presidential monimee, but he does not intend to become a candidate.

He is determined not to raise taxes next year, and does not regard any additional revenue from reform of the taxing structure as a tax increase. Reagan added that he would veto any tax hike bill.

BUDGET FORECAST

His budget will be higher than this year's, because of normal growth, but he will economize just as hard as ever.

He thinks the people support most of his actions, and that the Legislature will enact more of his "Creative Society" program than it did this year.

From remarks by Unruh and Reagan, the tax withholding idea emerged as a major area of conflict next year, and a possible key to tax reform — which most legislators long have declared is overdue.

Reagan called a tax revision "Probably the most significant step we will take . . ."

Reagan was asked if his previous statement that his feet are set in concrete against withholding still holds, and answered "Yes, they are, because so far no one has shown me anything that makes my past position on withholding invalid."

DOUBTS LOSSES

He added that he doubts statements by withholding proponents that a substantial amount is lost to the state by those who work here for a year or so then leave without paying state income taxes. But then he continued:

"If (it) should develop, which I am positive it won't, that there is a great amount of money . . . that the other taxpayers were picking up because someone, in great numbers of people, were cheating and there was only one way to cover that loophole — withholding — I'm quite sure that any . . . reasonable mind would have to review his position."

In reply, Unruh declared that withholding is a must and "no tax reform program deserves the name if it perpetuates this system under which the taxpayer must subsidize the tax evader."

WITHHOLD ISSUE

The Democratic leader said he believes "the Legislature will not enact a tax reform program that ignores the results of years of legislative study of this problem. Our fiscal experts . . . have told us repeatedly that California loses upwards of $180 mililon a year" by not having withholding.

If Reagan refused to accept withholding, Unruh could in turn block the governor's tax reform plans and cause a big election-year dispute by persuading Democrats to withhold support from the legislation. That would block it because the lower house is 42-38 Democratic and 41 votes are needed to pass a bill in the 80-seat chamber.

Unruh also made clear that 1968 will witness even more partisan battle than 1967. "The new administration is new no longer. It must now assume full responsibility for its actions and policies," he declared.

The speaker said he would "vigoriously oppose" any move by Reagan to divert $155 million in property tax relief the $1 billion 1967 tax raise bill set aside for disposal in 1968.

Asked about this at his news conference, Reagan said he has "no intention" at this time of asking lawmakers to let him use the money to balance the budget instead of cutting taxes. He added, "I'm not going to make any promises to what might happen as we finally are confronted with the budget . . ."

OTHER ISSUES

The freshman governor said he expected partisanship "to grow more. I think that now that with an election year coming up, there is going to be more partisanship. In fact, I'm very concerned with the coming legislative session . . ."

He said he didn't think legislators really believe he wants to run for president. "They know better, but it is pretty handy to say, politically."

Reagan said again "I'm not a candidate." He agreed, though that his growing popularity in public opinion polls and among the conservative wing of the GOP has "been gratifying, there is no question about that . . . It . . . makes you feel very good, but it hasn't changed my mind any."

The governor was asked about his campaign theme of morality in government, and replied:

"There is a feeling on the part of the people that we are drifting away from basic concepts of morality and I think that the people of this country by and large want a return to this idea . . . We see so much in the streets, and I would think that there is a kind of an umbrella issue for the coming national campaign that has to do with this whole area of moral standards."

LBJ Signs Anti-Crime, Health Bills

SAN ANTONIO, Tex. (AP) — President Johnson signed crime control and health bills he hopes will bring the nation's capital closer to becoming a model city and moved ahead today with 1969 budget conferences.

He acted just before a midnight deadline last to approve a controversial bill that will give District of Columbia police more power to fight crime in Washington.

The chief executive coupled the signing with a statement from his Texas White House calling on Congress to look to the problem of crime in all cities.

Johnson said he hopes Congress on its return Jan. 15 will give "the most urgent attention" to his proposed safe streets and crime control act "to help local communities meet their local responsibilities in fighting the causes of crime," and he also plumped for passage of "strict gun control legislation to keep firearms out of the wrong hands."

With "special pride," the President also put his signature to a measure extending medicare and medicaid benefits to 180,000 poor and elderly citizens of the District of Columbia. Heretofore, the nation's capital was not included under these Social Security health programs.

Johnson was taking on a pile-up of pending bills with slow precision — his tally now five out of more than 40 measures awaiting the Presidential signature.

Doctors Continue Navajo Medication

WINDOW ROCK, Ariz. (UPI) — Doctors at Indian medical centers of the giant Navajo reservation today continued to treat hundreds of persons for respiratory illnesses suffered during a pre-Christmas blizzard.

Dr. George E. Bock, head of the Public Health Service on the reservation, said more than 900 Indians had been treated on an outpatient basis at the six Indian hospitals and clinics in Arizona and New Mexico.

Fire Journal Honors Marin Department For Rescue Unit

The Marin County Fire Department won "department of the month" recognition in the December issue of Pacific Coast Fire Journal, which covers five western states.

"We're quite proud of the achievement and the boys really deserve the recognition," said Fire Chief Louis J. Bloom.

The two-page story includes a picture of Marin's Rescue Squad No. 1, which specializes in rescue operations along the rugged coastline from Muir Beach to McClure's Beach. Pictured with the rescue truck are Capt. John M. Damazio, Wesley A. Campigli, Marty Medin, and Howard M. Lee.

The rescue squad, organized in February, 1964, operates out of Point Reyes Station. The rescue truck, built and equipped by the Marin County firemen, has special gear for rescue and recovery up steep cliffs.

Damazio and his crew received special awards last September for bravery and outstanding work at the California State Firemen's Association conference in Riverside. They descended a 400-foot cliff and rescued an unconscious 15-year-old boy from the incoming tide at McClure's Beach.

Swallows Substitute Eves for The South

HAMAMATSU, Japan (UPI) —Junji Kawai, a lakeside resident of this Shizuoka Prefecture city, always has winter guests.

Since 1930, hundreds of swallows, apparently too lazy to fly south, have made themselves at home under the eaves of Kawai's thatched roof.

Fire Journal Honors Marin Department For Rescue Unit

The Marin County Fire Department won "department of the month" recognition in the December issue of Pacific Coast Fire Journal, which covers five western states.

"We're quite proud of the achievement and the boys really deserve the recognition," said Fire Chief Louis J. Bloom.

The two-page story includes a picture of Marin's Rescue Squad No. 1, which specializes in rescue operations along the rugged coastline from Muir Beach to McClure's Beach. Pictured with the rescue truck are Capt. John M. Damazio, Wesley A. Campigli, Marty Medin, and Howard M. Lee.

The rescue squad, organized in February, 1964, operates out of Point Reyes Station. The rescue truck, built and equipped by the Marin County firemen, has special gear for rescue and recovery up steep cliffs.

Damazio and his crew received special awards last September for bravery and outstanding work at the California State Firemen's Association conference in Riverside. They descended a 400-foot cliff and rescued an unconscious 15-year-old boy from the incoming tide at McClure's Beach.

Turn Down Radios

SAN FRANCISCO (UPI)—The National Auotmobile Club cautions motorists to turn down the dial on their car radios. A blaring radio can be distracting enough to cause an accident, the club says.

Teen Dance To Aid Novato Bonds Drive

A second dance for Novato teen-agers sponsored by his group is scheduled for 8:30 p.m. today in the old gym of Novato High School, said Carl Jensen, youth committee chairman of Novatans for Better Streets and Parks.

Proceeds will go to the campaign fund of Novatans for Better Streets and Parks, a citizens committee supporting the $8 million parks and street bond election Jan. 23.

A Tiny Tot Area In Park Under Study

The Corte Madera Park and Recreation Commission last night considered a proposal to develop a tiny tot area in the northwest corner of Town Park.

It also authorized Arthur N. Morrison, public works director, to consult the architectural firm of Royston, Hanamoto, Mayes and Beck of San Francisco, on possible reappraisal of the park playground area.

The consultation costs are not to exceed $200, the commission said. The firm is the original Town Park architect.

The commission also heard Robert Bundy, joint recreation director for Corte Madera and Larkspur, suggest that each commissioner send two teenagers to a youth forum to set up a pilot study for winter recreational needs for teens.

Larkspur has expressed approval of the forum, commissioners said. No action was taken by the commission, however.

The commission also heard a report from Jack Sutherland, commissioner and teen center committee chairman, that a search is still underway for a building to house the proposed teen center. Rev. Henry I. Fox, a commissioner, announced his resignation, effective Jan. 30, to move to Chico.

YULE GLOVES HID SURPRISE EXTRA GIFT

Mrs. Linda Hevern of Tamalpais Valley was highly pleased with the white kid gloves her mother gave her for Christmas — but she was astonished at the wedding ring.

The ring was inside the ring finger of the left glove.

Mrs. Hevern's mother, Mrs. Helen Pedrazzini of Novato, said she purchased the gloves at Macy's in San Rafael about a month before Christmas. She didn't know there was a ring inside until Mrs. Hevern tried them on Christmas Day.

Mrs. Pedrazzini, a registered nurse, said the ring is "a lovely 14-carat yellow gold wedding ring" with initials inside. Whoever lost it, she said, may claim it by calling at the office of Doctors McGee, Strathairn and Simmons at 712 D Street, San Rafael, where Mrs. Pedrazzini works, any day between 10 a.m. and 6 p.m.

HIPPIES

Continued from page 1

abandoned to a considerable extent, although "The Street" seems to remain the point to which the hippie always means to return, sometime.

Undoubtedly, police pressure, along with the tourist influx, made the Haight-Ashbury a less pleasant place for the hippie. Officers withheld some business licenses, nightly raided abodes where drugs were used, and moved in squads down Haight grabbing youngsters who might be runaways. The pattern has been much the same in other cities.

Maybe Allen Cohen, editor of the Haight-Ashbury hippie newspaper, The Oracle, has the answer to what's been happening to the happenings. At least he does console himself by saying: "The spirit is now everywhere. It's taking different forms and shapes."

Which may be as good an answer as any, for 1968.

MARIN FIRE CALLS

YESTERDAY:

2:40 p.m., San Rafael — Fire in garbage truck at 1112 Second Street; apparently caused by sparks from welding getting into garbage; no damage.

3:50 p.m., Corte Madera — Broken gasoline line caused motor fire in car owned by David C. Jacobsen of 303 Prince Royal Drive, Corte Madera; occurred on Paradise Drive; damage undetermined.

4:24 p.m., Terra Linda — Report of smoke on Butternut Drive, unfounded.

5:10 p.m., Corte Madera — Motor fire in car owned by Mrs. W. H. Zellers of 175 Shevelin Road, Novato; occurred at Corte Madera Shopping Center; damage and cause undetermined.

6:59 p.m., Novato — Grease on kitchen stove ignited, doing $1,500 damage to kitchen cabinets and kitchen; smoke damage throughout the house of Ellis Conklin at 401 Stone Drive.

TODAY:

1:12 a.m., Alto — Fire damaged bed and bedding at the Gaut residence, 261 Karen Way; cause unknown.

7:06 a.m., Tiburon — Tiburon firemen assisted fire brigade at the U.S. Bureau of Mines, in the former Naval Net Depot, to extinguish a fire in the machine shop, which destroyed a tool room and a lunch room. Damage estimated at $5,000. Cause of fire undetermined.

WAR

Continued from page 1

nade launchers and scattered rounds of 60 millimeter mortar fire.

The Leathernecks dived for cover and quickly found themselves pinned down behind a rice paddy dike between two tree lines. Corpora said the Communists were shooting from "spider holes" in a graveyard—"they'd pop up, fire a few rounds, then pop back down again."

There was no let-up in the air war, either. B52 bombers pounded the Demilitarized Zone late yesterday and again early today. Spokesmen said their targets included "numerous artillery positions" and troop concentrations menacing U.S. Marine outposts along South Vietnam's northern borders.

U.S. fighter-bombers ran into more monsoon weather over North Vietnam yesterday, but flew 106 missions despite ceilings which dropped as low as 3,000 feet.

Dog Fanciers Help Burned Out Kennel

"I would rather have lost all of my own dogs than one boarder," Mrs. Viola Thillen of the Picnic Valley Kennels said tearfully today.

Her kennels were destroyed by fire yesterday morning, killing 34 dogs. Of these, 10 were her own and 24 were others being boarded, she said.

So far, about eight of the owners of the dogs she was boarding have come to see her at the kennels at 672 Atherton Avenue.

"They have all been very nice about it," she said.

At the same time, Mrs. Thillen revealed plans by dog breeders in the area to replace ones killed. George Young of Young's kennels of Santa Rosa has been asking dog breeders to donate puppies, she said.

Mrs. Thillen said she heard an explosion at 7:50 a.m. and rushed outside.

"The building was a mass of flame, but I tried to get the doors open. I did get two little Welsh Corgis out, and that was all."

A second explosion, probably from the water heater, drove her from the building, she said.

Although she lost all of her champion pugs, Mrs. Thillen said she still has most of the pugs boarded there. The owners have yet to come for them, she said.

"Most of them had gone on vacation until after New Years, and do not know about it," she said.

She plans an addition to pens which received little fire damage to replace the burned ones, Mrs. Thillen said.

Hippie Still Faces Charges

Marin Municipal Court Judge Alvin H. Goldstein yesterday dismissed a charge of disturbing the peace against Samuel Royal, 25, of Sausalito, but the hippie who claims to be a disciple of Jesus Christ was not yet out of trouble.

Sheriff's deputies are holding him for Los Angeles County authorities, who claim he sold marijuana and violated probation there.

He was arrested Dec. 3 and accused of disturbing the peace of Sausalito policemen who were in the process of arresting a man wrapped in an American flag. Police said he kept poking his guitar in the officers' faces.

Luxury Train Derails, But Only 12 Hurt

CARBONDALE, Ill. (UPI)—The Illinois Central Railroad's Panama Limited, rolling toward New Orleans at 40 miles per hour, derailed last night in the wilds of the Shawnee National Forest.

Twelve of an estimated 150 passengers, including I.C. President William B. Johnson, were injured, according to state police. Only one of them, train flagman O.E. Crane, 48, Centralia, was hospitalized.

A railroad spokesman said the train apparently hit a broken rail on a curve about six miles south of here. Eight of the 14 cars derailed, gouging up 500-600 feet of track, and causing heavy damage, he said.

The spokesman said a lounge car, a diner, five sleepers and a personnel car for train employes, jumped the track and left a stretch of rails "chewed up like toothpicks." All but one car overturned in soft, snow-splotched earth along the right-of-way.

State Police reports said 11 persons suffered cuts and bruises. Crane suffered back injuries.

The derail site was about 325 miles south of Chicago, where the train began its run, and just inside the border of the hilly and heavily wooded national forest.

The injured were brought back into town on a northbound train that came along shortly after the derailment. And it wasn't long before the Panama Limited, with its three diesels and surviving cars, continued on its way — through Cairo, Ill., Fulton, Ky., Memphis, Tenn., on to its destination —with as many passengers as it could carry.

that all forms of mass transportation can be considered by the district.

The committee also authorized the finance chairman William D. Hadler to consult with the state finance director over a $5 million debt which the district still owes the state.

This amount is for money borrowed from the state for the Waldo Grade widening and is scheduled to be repaid by 1971. Hadler will ask the finance director to see if this loan can be repaid earlier at a discount.

Sausalitan's Purse Snatched

Two Negro men snatched a purse containing $44 last night from Dorothy Ann Foss in Sausalito, she told police.

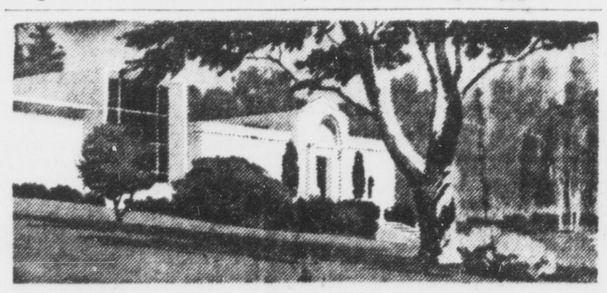
Miss Foss, 22, of Gate 6 Road, was walking north in the 2900 block of Bridgeway at 6:30 p.m. when the two men approached and one asked for a cigarette, she said. After she gave him a cigarette, the man grabbed her purse and the two ran across Bridgeway and onto the Richardson Bay schoolgrounds.

The purse, empty, was found later on the north side of the school building.

A Fine Of $124 On Public Drunkenness

James E. Neighbor, 61, of Walnut Creek, was fined $124 in Northwest Marin Justice Court today for being drunk in a public place and having an open container of vodka in his car.

Neighbor pleaded guilty. The California Highway Patrol stopped him a mile north of Tomales on Shoreline Highway Dec. 18.



MOUNT TAMALPAIS CEMETERY

Quiet Beauty

for families of every faith

Ninety years ago, Marin pioneers set aside this lovely site as a final resting place for all faiths.

Since then, Mount Tamalpais has developed facilities to meet each family's preference. Here are lovely gardens, the Angeles Garden or Memory Chapel mausoleums for above-ground burial, Marin's modern new crematorium, and the Chapel of Light Columbarium.

If you haven't visited Mount Tamalpais, you are invited to see the beauty of its typically Marin setting. Our staff will be glad to answer your questions.

McCarthy Wins Support From Kennedy's Group

Support for Sen. Eugene McCarthy of Wisconsin in the 1968 California primary for the Democratic presidential nomination was pledged yesterday in Sacramento by the steering committee of the Northern California Citizens for Kennedy.

William Taylor of San Anselmo, chairman of the committee, said his group feels McCarthy's entry in the primary aids the drive to nominate Sen. Robert F. Kennedy.

"McCarthy is a creative challenger to Johnson's renomination," Taylor said. He added that representatives of draft-Kennedy groups in various Northern California cities attended the meeting yesterday, including four Marinites.

The next meeting of the Marin Chapter will be at Taylor's office at 500 Red Hill Avenue, San Anselmo, at 7:30 p.m. Wednesday.

requires that member banks in major cities increase the amount they keep on reserve to back up deposits in excess of $5 million from 16.5 to 17 per cent, effective Jan. 11. This would shrink the lending pool by $360 million.

On Jan. 18, banks in smaller cities must increase their reserves from 12 per cent to 12.5 per cent for deposits exceeding $5 million. This would take an additional $190 million out of circulation.

Looting Reported At Terra Linda High's Audio Room

Thieves in San Rafael have taken microphones from a school and stereophonic equipment from a car, police reported today.

Ronald E. Wilson, custodian at Terra Linda High School, reported to police the school's audio room was broken into and two microphones stolen.

Also reported was the smashing of five windows in the art room from the inside. Police said other equipment might also be missing.

The theft of a $125 stereophonic player and $40 worth of tapes from a car parked in a driveway at 710 C Street Tuesday was reported by Norman A. Bakulick of 18 Hillcrest Road, Mill Valley.

A chain securing a vending machine and three dispensers to a wall at Collette's Coin Wash, 347 Third Street was ripped away and the equipment stolen, said police. This theft occurred early yesterday.

Innocent Plea To Marijuana Possession

Alex James Palmiter, 25, of Daly City, pleaded innocent in Marin Municipal Court yesterday to a charge of possessing marijuana when arrested by Novato police early yesterday. Preliminary hearing was scheduled for Tuesday.

Police said Palmiter was driving 80 miles an hour on Highway 37 when stopped. They searched the car after smelling a strong odor of marijuana.

OBITUARIES

Mary S. Shafter Dies At 88

Funeral will be tomorrow for Mary S. Shafter, last direct descendent of an early Marin family that once bred trotting and race horses on some of the 80,000 acres of land it owned in the northwest part of the county.

Miss Shafter died Monday at the age of 88 at her home in Berkeley after a long illness.

Miss Shafter is the last member of the family that once owned acreage stretching from Point Tomales to Bolinas. James McMillan Shafter, her grandfather, one-time state senator and district court judge, built Shafter Manor in Olema in 1869. Miss Shafter sold the 10-bedroom house on its remaining 10 acres about five years ago.

The 80,000 acres were owned by her grandfather and his brother, Oscar Shafter, once chief of the California Supreme Court and a regent of the University of California. Her father, Payne Shafter, employed grooms, jockeys and trainers, as his father had done, to train and race horses on 2,000 acres of the estate remaining at that time.

Miss Shafter lived at Shafter Manor, known as "the home place," as a girl. For the past 25 years, she lived in Berkeley.

She was a self-employed drama and dance teacher and formerly was an assistant instructor at the University of California, Berkeley, teaching folk dancing and physical culture. She also wrote books on folk dances.

The funeral will be at 2 p.m., tomorrow at McNary Chapel at 3030 Telegrapn Avenue, Berkeley. Inurnment will be at Mountain View Cemetery, Oakland.

FRANCIS BISSON

Dr. Francis Bisson, an 80-year-old Oakland dentist, died yesterday from injuries suffered in an auto accident Friday. His daughter, Mrs. Beverly Jerome, is a Tiburon resident.

Dr. Bisson was injured near Monterey while on his way to a pre-Christmas party with friends.

Dr. Bisson died at Peralta Hospital, in Oakland.

In addition to his daughter in Tiburon he is survived by another daughter, Mary Trussell of Brentwood, in Contra Costa County, and by two brothers, Dr. Daniel Bisson of Bremerton, Wash., and Newell Bisson of Tacoma. There also are several grandchildren.

Services will be held at 10 a.m. Saturday at Truman's Funeral Chapel in Oakland. Burial will be in Mountain View Cemetery, Oakland.

MARTIN FLAVIN

CARMEL (UPI) — Pulitzer Prize novelist and playwright Martin Flavin died in a Carmel hospital yesterday of complications resulting from a fall last month in his home. He was 82.

Flavin won the Harper Prize competition and the Pulitzer Prize for his 1943 novel "Journey in the Dark." Other books he wrote included "Mr. Littlejohn," "Corporal Cat" and "Cameron Hill."

Among his better-known plays were "The Criminal Code," and "Ag of Consent."

MARGARETA WAGSTAFFE

Margareta Bergin Wagstaffe of Menlo Park, mother of Sister Mary Joseph of the Dominican Convent in San Rafael, died yesterday in a Redwood City hospital after a long illness.

She is also survived by her husband, Harold A. Wagstaffe; two sons, Gerald Wagstaffe and William Wagstaffe, both of Menlo Park, and 10 grandchildren.

Requiem mass will be at 9 a.m. tomorrow in St. Raymond's Church in Menlo Park. Rosary will be recited at 8 p.m. today in the Johnston Colonial Mortuary, Menlo Park.

JOHN JACOBS

Requiem Mass for John F. Jacobs, 74, of 8 Orchard Way, Novato, a retired electrician who died Saturday, was held yesterday at Our Lady of Loreto Church in Novato.

He was born in Nova Scotia and came to this country 43 years ago. He worked as an electrician in Hartford, Conn., until he retired and moved to Cotati. He lived there until three years ago, when his wife, Susan, died. He then made his home with his daughter, Mrs. Allison R. Reid, in Novato.

He also is survived by two sisters, Mrs. Sarah M. Jacobs of Daytona Beach, Fla., and Mrs. Nellie Martin of West Rocksbury, Mass., and one grandchild.

Interment was in Mount Olivet Cemetery in San Rafael.

ALBIN J. POLLOCK

Private funeral with military honors will be held tomorrow in Napa for Albin J. Pollock, 92, father of Patrick W. Pollock of San Anselmo, a member of the Marin County Board of Education.

Pollock, who died Saturday at the Veterans Home of California in Napa, was one of the last surviving members of Teddy Roosevelt's Rough Riders, and had participated in the famed charge up San Juan Hill.

Pollock, a retired hotel operator who lived in San Francisco until about a year ago, is also survived by his wife, Louise, of San Francisco.

HARRY J. SMILEY

Funeral for Sp/4 Harry J. Smiley of Novato, who died Friday in San Francisco, will be at 10 a.m. tomorrow at Keaton's Chapel of Marin, Novato.

Friends may call at the chapel from 7 to 9 p.m. today. Interment will be in Mount Tamalpais Cemetery, San Rafael.

A Tiny Tot Area In Park Under Study

The Corte Madera Park and Recreation Commission last night considered a proposal to develop a tiny tot area in the northwest corner of Town Park.

It also authorized Arthur N. Morrison, public works director, to consult the architectural firm of Royston, Hanamoto, Mayes and Beck of San Francisco, on possible reappraisal of the park playground area.

The consultation costs are not to exceed $200, the commission said. The firm is the original Town Park architect.

The commission also heard Robert Bundy, joint recreation director for Corte Madera and Larkspur, suggest that each commissioner send two teenagers to a youth forum to set up a pilot study for winter recreational needs for teens.

Larkspur has expressed approval of the forum, commissioners said. No action was taken by the commission, however.

The commission also heard a report from Jack Sutherland, commissioner and teen center committee chairman, that a search is still underway for a building to house the proposed teen center. Rev. Henry I. Fox, a commissioner, announced his resignation, effective Jan. 30, to move to Chico.

YULE GLOVES HID SURPRISE EXTRA GIFT

Mrs. Linda Hevern of Tamalpais Valley was highly pleased with the white kid gloves her mother gave her for Christmas — but she was astonished at the wedding ring.

The ring was inside the ring finger of the left glove.

Mrs. Hevern's mother, Mrs. Helen Pedrazzini of Novato, said she purchased the gloves at Macy's in San Rafael about a month before Christmas. She didn't know there was a ring inside until Mrs. Hevern tried them on Christmas Day.

Mrs. Pedrazzini, a registered nurse, said the ring is "a lovely 14-carat yellow gold wedding ring" with initials inside. Whoever lost it, she said, may claim it by calling at the office of Doctors McGee, Strathairn and Simmons at 712 D Street, San Rafael, where Mrs. Pedrazzini works, any day between 10 a.m. and 6 p.m.

HIPPIES

Continued from page 1

abandoned to a considerable extent, although "The Street" seems to remain the point to which the hippie always means to return, sometime.

Undoubtedly, police pressure, along with the tourist influx, made the Haight-Ashbury a less pleasant place for the hippie. Officers withheld some business licenses, nightly raided abodes where drugs were used, and moved in squads down Haight grabbing youngsters who might be runaways. The pattern has been much the same in other cities.

Maybe Allen Cohen, editor of the Haight-Ashbury hippie newspaper, The Oracle, has the answer to what's been happening to the happenings. At least he does console himself by saying: "The spirit is now everywhere. It's taking different forms and shapes."

Which may be as good an answer as any, for 1968.

MARIN FIRE CALLS

YESTERDAY:

2:40 p.m., San Rafael — Fire in garbage truck at 1112 Second Street; apparently caused by sparks from welding getting into garbage; no damage.

3:50 p.m., Corte Madera — Broken gasoline line caused motor fire in car owned by David C. Jacobsen of 303 Prince Royal Drive, Corte Madera; occurred on Paradise Drive; damage undetermined.

4:24 p.m., Terra Linda — Report of smoke on Butternut Drive, unfounded.

5:10 p.m., Corte Madera — Motor fire in car owned by Mrs. W. H. Zellers of 175 Shevelin Road, Novato; occurred at Corte Madera Shopping Center; damage and cause undetermined.

6:59 p.m., Novato — Grease on kitchen stove ignited, doing $1,500 damage to kitchen cabinets and kitchen; smoke damage throughout the house of Ellis Conklin at 401 Stone Drive.

TODAY:

1:12 a.m., Alto — Fire damaged bed and bedding at the Gaut residence, 261 Karen Way; cause unknown.

7:06 a.m., Tiburon — Tiburon firemen assisted fire brigade at the U.S. Bureau of Mines, in the former Naval Net Depot, to extinguish a fire in the machine shop, which destroyed a tool room and a lunch room. Damage estimated at $5,000. Cause of fire undetermined.

WAR

Continued from page 1

nade launchers and scattered rounds of 60 millimeter mortar fire.

The Leathernecks dived for cover and quickly found themselves pinned down behind a rice paddy dike between two tree lines. Corpora said the Communists were shooting from "spider holes" in a graveyard—"they'd pop up, fire a few rounds, then pop back down again."

There was no let-up in the air war, either. B52 bombers pounded the Demilitarized Zone late yesterday and again early today. Spokesmen said their targets included "numerous artillery positions" and troop concentrations menacing U.S. Marine outposts along South Vietnam's northern borders.

U.S. fighter-bombers ran into more monsoon weather over North Vietnam yesterday, but flew 106 missions despite ceilings which dropped as low as 3,000 feet.

Dog Fanciers Help Burned Out Kennel

"I would rather have lost all of my own dogs than one boarder," Mrs. Viola Thillen of the Picnic Valley Kennels said tearfully today.

Her kennels were destroyed by fire yesterday morning, killing 34 dogs. Of these, 10 were her own and 24 were others being boarded, she said.

So far, about eight of the owners of the dogs she was boarding have come to see her at the kennels at 672 Atherton Avenue.

"They have all been very nice about it," she said.

At the same time, Mrs. Thillen revealed plans by dog breeders in the area to replace ones killed. George Young of Young's kennels of Santa Rosa has been asking dog breeders to donate puppies, she said.

Mrs. Thillen said she heard an explosion at 7:50 a.m. and rushed outside.

"The building was a mass of flame, but I tried to get the doors open. I did get two little Welsh Corgis out, and that was all."

A second explosion, probably from the water heater, drove her from the building, she said.

Although she lost all of her champion pugs, Mrs. Thillen said she still has most of the pugs boarded there. The owners have yet to come for them, she said.

"Most of them had gone on vacation until after New Years, and do not know about it," she said.

She plans an addition to pens which received little fire damage to replace the burned ones, Mrs. Thillen said.

Hippie Still Faces Charges

Marin Municipal Court Judge Alvin H. Goldstein yesterday dismissed a charge of disturbing the peace against Samuel Royal, 25, of Sausalito, but the hippie who claims to be a disciple of Jesus Christ was not yet out of trouble.

Sheriff's deputies are holding him for Los Angeles County authorities, who claim he sold marijuana and violated probation there.

He was arrested Dec. 3 and accused of disturbing the peace of Sausalito policemen who were in the process of arresting a man wrapped in an American flag. Police said he kept poking his guitar in the officers' faces.

Luxury Train Derails, But Only 12 Hurt

CARBONDALE, Ill. (UPI)—The Illinois Central Railroad's Panama Limited, rolling toward New Orleans at 40 miles per hour, derailed last night in the wilds of the Shawnee National Forest.

Twelve of an estimated 150 passengers, including I.C. President William B. Johnson, were injured, according to state police. Only one of them, train flagman O.E. Crane, 48, Centralia, was hospitalized.

A railroad spokesman said the train apparently hit a broken rail on a curve about six miles south of here. Eight of the 14 cars derailed, gouging up 500-600 feet of track, and causing heavy damage, he said.

The spokesman said a lounge car, a diner, five sleepers and a personnel car for train employes, jumped the track and left a stretch of rails "chewed up like toothpicks." All but one car overturned in soft, snow-splotched earth along the right-of-way.

State Police reports said 11 persons suffered cuts and bruises. Crane suffered back injuries.

The derail site was about 325 miles south of Chicago, where the train began its run, and just inside the border of the hilly and heavily wooded national forest.

The injured were brought back into town on a northbound train that came along shortly after the derailment. And it wasn't long before the Panama Limited, with its three diesels and surviving cars, continued on its way — through Cairo, Ill., Fulton, Ky., Memphis, Tenn., on to its destination —with as many passengers as it could carry.

that all forms of mass transportation can be considered by the district.

The committee also authorized the finance chairman William D. Hadler to consult with the state finance director over a $5 million debt which the district still owes the state.

This amount is for money borrowed from the state for the Waldo Grade widening and is scheduled to be repaid by 1971. Hadler will ask the finance director to see if this loan can be repaid earlier at a discount.

Sausalitan's Purse Snatched

Two Negro men snatched a purse containing $44 last night from Dorothy Ann Foss in Sausalito, she told police.

Miss Foss, 22, of Gate 6 Road, was walking north in the 2900 block of Bridgeway at 6:30 p.m. when the two men approached and one asked for a cigarette, she said. After she gave him a cigarette, the man grabbed her purse and the two ran across Bridgeway and onto the Richardson Bay schoolgrounds.

The purse, empty, was found later on the north side of the school building.

A Fine Of $124 On Public Drunkenness

James E. Neighbor, 61, of Walnut Creek, was fined $124 in Northwest Marin Justice Court today for being drunk in a public place and having an open container of vodka in his car.

Neighbor pleaded guilty. The California Highway Patrol stopped him a mile north of Tomales on Shoreline Highway Dec. 18.

McCarthy Wins Support From Kennedy's Group

Support for Sen. Eugene McCarthy of Wisconsin in the 1968 California primary for the Democratic presidential nomination was pledged yesterday in Sacramento by the steering committee of the Northern California Citizens for Kennedy.

William Taylor of San Anselmo, chairman of the committee, said his group feels McCarthy's entry in the primary aids the drive to nominate Sen. Robert F. Kennedy.

"McCarthy is a creative challenger to Johnson's renomination," Taylor said. He added that representatives of draft-Kennedy groups in various Northern California cities attended the meeting yesterday, including four Marinites.

The next meeting of the Marin Chapter will be at Taylor's office at 500 Red Hill Avenue, San Anselmo, at 7:30 p.m. Wednesday.

requires that member banks in major cities increase the amount they keep on reserve to back up deposits in excess of $5 million from 16.5 to 17 per cent, effective Jan. 11. This would shrink the lending pool by $360 million.

On Jan. 18, banks in smaller cities must increase their reserves from 12 per cent to 12.5 per cent for deposits exceeding $5 million. This would take an additional $190 million out of circulation.

Looting Reported At Terra Linda High's Audio Room

Thieves in San Rafael have taken microphones from a school and stereophonic equipment from a car, police reported today.

Ronald E. Wilson, custodian at Terra Linda High School, reported to police the school's audio room was broken into and two microphones stolen.

Also reported was the smashing of five windows in the art room from the inside. Police said other equipment might also be missing.

The theft of a $125 stereophonic player and $40 worth of tapes from a car parked in a driveway at 710 C Street Tuesday was reported by Norman A. Bakulick of 18 Hillcrest Road, Mill Valley.

A chain securing a vending machine and three dispensers to a wall at Collette's Coin Wash, 347 Third Street was ripped away and the equipment stolen, said police. This theft occurred early yesterday.

Innocent Plea To Marijuana Possession

Alex James Palmiter, 25, of Daly City, pleaded innocent in Marin Municipal Court yesterday to a charge of possessing marijuana when arrested by Novato police early yesterday. Preliminary hearing was scheduled for Tuesday.

Police said Palmiter was driving 80 miles an hour on Highway 37 when stopped. They searched the car after smelling a strong odor of marijuana.

OBITUARIES

Mary S. Shafter Dies At 88

Funeral will be tomorrow for Mary S. Shafter, last direct descendent of an early Marin family that once bred trotting and race horses on some of the 80,000 acres of land it owned in the northwest part of the county.

Miss Shafter died Monday at the age of 88 at her home in Berkeley after a long illness.

Miss Shafter is the last member of the family that once owned acreage stretching from Point Tomales to Bolinas. James McMillan Shafter, her grandfather, one-time state senator and district court judge, built Shafter Manor in Olema in 1869. Miss Shafter sold the 10-bedroom house on its remaining 10 acres about five years ago.

The 80,000 acres were owned by her grandfather and his brother, Oscar Shafter, once chief of the California Supreme Court and a regent of the University of California. Her father, Payne Shafter, employed grooms, jockeys and trainers, as his father had done, to train and race horses on 2,000 acres of the estate remaining at that time.

Miss Shafter lived at Shafter Manor, known as "the home place," as a girl. For the past 25 years, she lived in Berkeley.

She was a self-employed drama and dance teacher and formerly was an assistant instructor at the University of California, Berkeley, teaching folk dancing and physical culture. She also wrote books on folk dances.

The funeral will be at 2 p.m., tomorrow at McNary Chapel at 3030 Telegraph Avenue, Berkeley. Inurnment will be at Mountain View Cemetery, Oakland.

FRANCIS BISSON

Dr. Francis Bisson, an 80-year-old Oakland dentist, died yesterday from injuries suffered in an auto accident Friday. His daughter, Mrs. Beverly Jerome, is a Tiburon resident.

Dr. Bisson was injured near Monterey while on his way to a pre-Christmas party with friends.

Dr. Bisson died at Peralta Hospital, in Oakland.

In addition to his daughter in Tiburon he is survived by another daughter, Mary Trussell of Brentwood, in Contra Costa County, and by two brothers, Dr. Daniel Bisson of Bremerton, Wash., and Newell Bisson of Tacoma. There also are several grandchildren.

Services will be held at 10 a.m. Saturday at Truman's Funeral Chapel in Oakland. Burial will be in Mountain View Cemetery, Oakland.

MARTIN FLAVIN

CARMEL (UPI) — Pulitzer Prize novelist and playwright Martin Flavin died in a Carmel hospital yesterday of complications resulting from a fall last month in his home. He was 82.

Flavin won the Harper Prize competition and the Pulitzer Prize for his 1943 novel "Journey in the Dark." Other books he wrote included "Mr. Littlejohn," "Corporal Cat" and "Cameron Hill."

Among his better-known plays were "The Criminal Code," and "Age of Consent."

MARGARETA WAGSTAFFE

Margareta Bergin Wagstaffe of Menlo Park, mother of Sister Mary Joseph of the Dominican Convent in San Rafael, died yesterday in a Redwood City hospital after a long illness.

She is also survived by her husband, Harold A. Wagstaffe; two sons, Gerald Wagstaffe and William Wagstaffe, both of Menlo Park, and 10 grandchildren.

Requiem mass will be at 9 a.m. tomorrow in St. Raymond's Church in Menlo Park. Rosary will be recited at 8 p.m. today in the Johnston Colonial Mortuary, Menlo Park.

JOHN JACOBS

Requiem Mass for John F. Jacobs, 74, of 8 Orchard Way, Novato, a retired electrician who died Saturday, was held yesterday at Our Lady of Loretto Church in Novato.

He was born in Nova Scotia and came to this country 43 years ago. He worked as an electrician in Hartford, Conn., until he retired and moved to Cotati. He lived there until three years ago, when his wife, Susan, died. He then made his home with his daughter, Mrs. Allison R. Reid, in Novato.

He also is survived by two sisters, Mrs. Sarah M. Jacobs of Daytona Beach, Fla., and Mrs. Nellie Martin of West Rocksbury, Mass., and one grandchild.

Interment was in Mount Olivet Cemetery in San Rafael.

ALBIN J. POLLOCK

Private funeral with military honors will be held tomorrow in Napa for Albin J. Pollock, 92, father of Patrick W. Pollock of San Anselmo, a member of the Marin County Board of Education.

Pollock, who died Saturday at the Veterans Home of California in Napa, was one of the last surviving members of Teddy Roosevelt's Rough Riders, and had participated in the famed charge up San Juan Hill.

Pollock, a retired hotel operator who lived in San Francisco until about a year ago, is also survived by his wife, Louise, of San Francisco.

HARRY J. SMILEY

Funeral for Sp/4 Harry J. Smiley of Novato, who died Friday in San Francisco, will be at 10 a.m. tomorrow at Keaton's Chapel of Marin, Novato.

Friends may call at the chapel from 7 to 9 p.m. today. Interment will be in Mount Tamalpais Cemetery, San Rafael.

ARMY CITATION — Col. Joseph W. Sullivan of 101 Nova Albion Way, Terra Linda, has received Legion of Merit award from the Sixth Army. He retired this month. He was cited for exceptionally meritorious service as Sixth Army assistant judge advocate.

Romney Gives Suharto Viet War Estimate

JAKARTA, Indonesia (UPI)--Gov. George Romney of Michigan held an hour-long conference with acting President Suharto today on the Vietnam war and how it affects Indonesia.

Neither man disclosed details, but Romney said he believed Suharto had "a sound, basic approach" to Indonesia's political and economic problems.

Informed sources said Suharto was interested in receiving Romney's impressions about Vietnam on the basis of his trip there earlier this week.

These sources said Suharto fears expansion of the Vietnam fighting could draw Indonesian into all-out war in Southeast Asia. Suharto was said to want an end to the war so that American money now used to support the fighting could be sent to Indonesia in the form of foreign aid.

Romney said on arrival that he wanted to review the events that transpired over the past two years to transform Indonesia from a Communist-leaning country to a nation that just two months ago suspended all relations with Communist China.

He avoided answering questions on conclusions drawn during his three-day visit to South Vietnam.

"I am here to talk about Indonesia," he said.

Romney left the United States early this month for a round-the-world "fact finding" trip that included several European nations, Israel and Jordan. He was scheduled to visit Singapore next, then travel to India.

Fire Hits Oakland Army Printing Plant

OAKLAND (AP) — A two-alarm fire, apparently started by a gas heater, caused an estimated $35,000 damage to a printing plant at the Oakland Army Base today.

A passing policeman turned in the first alarm at 5:30 a.m. Within an hour, 60 firemen and 12 pieces of equipment brought the blaze in the wooden building under control.

Grounded Sub Over A Bomb

PEARL HARBOR, Hawaii (UPI) -- The Navy has disclosed that the nuclear submarine Guardfish was over a World War II training bomb while it was stuck on a reef at Pearl Harbor on Christmas Day.

Navy divers moved the bomb before two Navy salvage tugs pulled the submarine off the reef Tuesday. Only after the divers pulled it out of the sub's path off the reef was it determined that the bomb was harmless.

The Navy said yesterday that a board of inquiry may take a week to determine why the vessel ran onto the reef at the harbor entrance. Nobody was hurt and the vessel was not seriously damaged.

Russ Charge U.S. Buzzing Of Warship

MOSCOW (AP)—A U.S. Navy two-engine tracker plane buzzed a Soviet navy ship in the Mediterranean and dropped exploding devices that sounded "like bombs" and bathed the vessel in blinding light, the Soviet defense ministry newspaper Red Star, reported today.

Because the captain of the supply ship could not immediately tell if it was a "prank" or a real attack, the newspaper said, he would have been within his rights to open fire on the American plane.

But apparently, the captain took no action and the plane flew off.

The accusation was one of several such charges made in a recital of alleged harassments of Soviet ships in the Mediterranean by the U.S. 6th Fleet.

The Soviet fleet in the Mediterranean now numbers about 30 ships compared to 55 ships for the United States.

Revolver Stolen

A .38 caliber revolver was stolen from a dresser drawer at his home, Eldon G. Cooley of 27 West Blithdale Avenue, Mill Valley, told police yesterday. The gun was valued at $65. Cooley could not give the time of the theft.

Well Is Held Link To Many Denver Quakes

DENVER, Colo. (AP) — Renewed interest is being focused on a deep well drilled at the Rocky Mountain Arsenal and any possible connection with a five-year series of earthquakes in the Denver area.

The U.S. Army Corps of Engineers has announced a study is being made to determine if waste fluids standing in the deep—and now unused—well should be pumped out.

HEAVY QUAKE

Denver had its heaviest earthquake last August, registering 5.5 on one Richter Scale and causing considerable property damage. Another jolt last month was nearly as severe. No injuries have resulted.

A Denver geologist, David M. Evans, has contended for more than two years that pumping of waste fluids into the 12,000-foot well at the arsenal northeast of Denver triggered the earth shocks. Before that, quakes had been unknown in Colorado. Some scientists agree with Evans, but others are skeptical.

But this much is known:

The well was completed in March 1962 and wastes from the manufacture of chemical weapons at the arsenal were pumped under high pressure into the well for disposal underground. Just a little more than one month later, the first quake ever measured on instruments in Denver occurred.

1,500 TEMBLORS

Since that April day more than 1,500 temblors have been recorded here, although most of these went unnoticed by the average citizen.

Evans, who is director of the Potential Gas Agency for the Mineral Resources Institute at the Colorado School of Mines, said the well was drilled into a stratum of extremely hard granitic rock.

"As fluids were flushed down the well from the arsenal pressure built up in the rocks below," he said. "The forced-in liquids lubricated the rocks and caused them to shift and slide. As a result, we have earthquakes."

Freed Soldiers May Re-Enlist

WASHINGTON (AP) — Two of the three Army sergeants freed in November after lengthy imprisonment by the Communists in Vietnam have shown interest in signing up for new hitches, the Army says.

An Army spokesman said Wednesday M. Sgt. Edward R. Johnson of Seaside, Calif., and M. Sgt. Daniel L. Pitzer of Spring Lake, N.C., expressed interest in re-enlistment soon after their return to this country but have not made formal decisions.

In the meantime they are regaining lost weight and otherwise striving to reach full physical recovery—a necessity if they decide on re-enlistment.

The Army spokesman said the other returnee, S. Sgt. James E. Jackson of Talcott, W. Va., may leave the service to study medicine.

Romney Gives Suharto Viet War Estimate

JAKARTA, Indonesia (UPI)—Gov. George Romney of Michigan held an hour-long conference with acting President Suharto today on the Vietnam war and how it affects Indonesia.

Neither man disclosed details, but Romney said he believed Suharto had "a sound, basic approach" to Indonesia's political and economic problems.

Informed sources said Suharto was interested in receiving Romney's impressions about Vietnam on the basis of his trip there earlier this week.

These sources said Suharto fears expansion of the Vietnam fighting could draw Indonesian into all-out war in Southeast Asia. Suharto was said to want an end to the war so that American money now used to support the fighting could be sent to Indonesia in the form of foreign aid.

Romney said on arrival that he wanted to review the events that transpired over the past two years to transform Indonesia from a Communist-leaning country to a nation that just two months ago suspended all relations with Communist China.

He avoided answering questions on conclusions drawn during his three-day visit to South Vietnam.

"I am here to talk about Indonesia," he said.

Swedes Set To Host Four Deserters

STOCKHOLM (UPI) — Four young American sailors who deserted their ship in a Japanese port will arrive here from Moscow tomorrow morning, a spokesman for the Swedish Committee for Vietnam said today.

The sailors are Richard Baily, 19, of Jacksonville, Fla.; John Barilla, 20, of Catonsville, Md.; Michael Lindner, 19, of Mount Pocono, Pa., and Craig Anderson, 20, of San Jose, Calif.

A spokesman for the Swedish committee said the Americans would arrive at Arlanda International Airport aboard a commercial airliner.

They will seek political asylum and have requested help from the committee, the spokesman said.

A press conference is scheduled at the airport shortly after the arrival of the four Americans, the pacifist group said.

The sailors jumped ship in Japan and fled to Russia where they showed up in a television program last month and denounced the Vietnam war and urged American soldiers fighting in Vietnam to desert.

Two weeks ago they asked for Finnish transit visas but the Finnish Embassy refused to grant them any as they had no U.S. passports and no visas to a third country.

The sailors will stay in Stockholm with members of the committee, the spokesman said.

A spokesman for the Swedish Foreign Office said that "we know nothing about this."

Fortune Found In Dirty Pants

PHILADELPHIA (AP) — Mrs. Veronica Pomponi, a clerk in a dry cleaning shop, routinely checks pockets of all clothes. She was going through a pair of pants yesterday and pulled out a handful of $100, $50 and $10 bills.

Every time her hand came out more money was in it.

"We began counting it and got up to $3,000 . . . there was plenty more . . . at least $4,000," shop owner Harry Weiner said.

Mrs. Pomponi said she ran after the woman who had brought in the trousers and located her in a nearby supermarket.

"She didn't say a word," said Mrs. Pomponi. "Just took the money and walked off."

The sailors are Richard Baily, 19, of Jacksonville, Fla.; John Barilla, 20, of Catonsville, Md.; Michael Lindner, 19, of Mount Pocono, Pa., and Craig Anderson, 20, of San Jose, Calif.

A spokesman for the Swedish committee said the Americans would arrive at Arlanda International Airport aboard a commercial airliner.

They will seek political asylum and have requested help from the committee, the spokesman said.

A press conference is scheduled at the airport shortly after the arrival of the four Americans, the pacifist group said.

The sailors jumped ship in Japan and fled to Russia where they showed up in a television program last month and denounced the Vietnam war and urged American soldiers fighting in Vietnam to desert.

Two weeks ago they asked for Finnish transit visas but the Finnish Embassy refused to grant them any as they had no U.S. passports and no visas to a third country.

The sailors will stay in Stockholm with members of the committee, the spokesman said.

A spokesman for the Swedish Foreign Office said that "we know nothing about this."

Fortune Found In Dirty Pants

PHILADELPHIA (AP) — Mrs. Veronica Pomponi, a clerk in a dry cleaning shop, routinely checks pockets of all clothes. She was going through a pair of pants yesterday and pulled out a handful of $100, $50 and $10 bills.

Every time her hand came out more money was in it.

"We began counting it and got up to $3,000 . . . there was plenty more . . . at least $4,000," shop owner Harry Weiner said.

Mrs. Pomponi said she ran after the woman who had brought in the trousers and located her in a nearby supermarket.

"She didn't say a word," said Mrs. Pomponi. "Just took the money and walked off."

'Something Big' Due In Deaths Of Secretaries

HOLLYWOOD, Fla. (UPI) — Detective Lt. Fred Rohloff said today he would seek indictments against "at least six persons" for slaying of two pretty young secretaries whose weighted bodies were dumped into Whiskey Creek.

"This is big," Rohloff said, "and people are going to be surprised at just how big. We're going down the home stretch in our investigation."

Rohloff, who has directed the investigation into the Dec. 8 slaying of Terry Kent Frank, 23, and Annelie Maria Mohn, 21, said he wass aiming for a mid-January presentation of the Broward County Grand Jury.

Rohloff also said he was "aware of the activities" of Spiro William Halikas, 69, arrested in New York yesterday on charges of attempting to sell more than $5,000 worth of stolen securities.

The FBI said the securities Halikas attempted to sell were part of $500,000 worth of securities stolen from the Los Angeles brokerage firm of Hunter, Jackson and Gray Nov. 16.

The two slain secretaries, whose battered bodies had been weighted down with concrete blocks and dumped into remote Whiskey Creek near here, worked for the California brokerage firm until Nov. 15, when they reportedly left for Florida.

The FBI said both women, known associates of several underworld figures, were suspects in the California securities theft.

'Wheat-Free' Bread Held Not So Free

SAN FRANCISCO (UPI)— Only four of 19 brands of "wheat-free" bread sold in health food stores in the Bay Area were found to be free of wheat, the current issue of California Medicine reports.

The other 15 brands contained from 3 to 72 per cent wheat flour—to which some people are allergic.

The testing was done by Dr. Arthur Lietze, an immunochemist at Samuel Merritt Hospital, Oakland.

Dr. Lietze and two physicians participating in the study concluded:

"These studies emphasize the necessity not only of accurate labeling but also of listing every ingredient in commercial bakery and other food products.

"To be certain that such products contain no wheat, patients should make them at home according to prescribed wheat-free recipes or should buy them from bakers who are making them by such recipes and who are supervised by a physician."

Pentagon Claims Viet Marijuana Users Puffed Up

WASHINGTON (AP) — The problem of marijuana smoking by U.S. troops in Vietnam is being puffed up to many times its true size, the Pentagon says.

The Department of Defense released yesterday data on pot-smoking that it had furnished quietly a month ago to concerned congressmen. In the first nine months of 1967, it was reported, there were investigations of 832 cases of alleged drug use, sale or possession involving servicemen.

Army personnel figured in 750 of these but this breaks down to only 2.6 cases for every thousand soldiers, the Pentagon said.

The figures were released on the heels of a Washington magazine article by John Steinbeck IV claiming 75 per cent of the young soldiers in Vietnam are pot smokers.

Peace-Freedom Party Held Doves' Salvation

By FRANK FARRARA

The Peace and Freedom Party is the only choice for those who want a presidential candidate against the Vietnam war, according to Robert Scheer, editor of Ramparts magazine.

"It's not freedom, not Democracy if you can't vote against war," Scheer said before about 100 persons at Olney Hall on the College of Marin campus last night.

A CHOICE?

About 35 per cent of Americans are for withdrawal from the war, he contended. "If President Johnson and Richard Nixon are the choice given to them, they really do not have a choice."

Scheer labeled the 1968 presidential election as "critical," and warned that if President Johnson were re-elected there would be "no limits" on the conduct of the war.

He said he was "frightened" that something might be done before next November "to solidify the nation behind Johnson." Possibly there could be "an Inchon-type landing in North Vietnam" or involvement to such a degree that there would be a declaration of war, he said.

Scheer contended that the Vietnam war isn't "an accident, a policy mistake or the result of a misunderstanding," but a "logical development of U.S. foreign policy."

BLASTS POLICY

Scheer described it as a foreign policy to maintain U.S. economic, political and military domination.

He said the Vietnam war was a "war of example" to show revolutionaries in other underdeveloped countries "they can't pursue a course that disturbs the U.S."

Revolutionaries elsewere are "intimidated by the spectacle of American arms" in Vietnam to the point where they are afraid to take the initiative, he said.

"We have to accept revolutions in the world," Scheer asserted. People revolt when it's their only alternative to hunger, corruption, external control or colonialism, he said.

The U.S. has used the concept of "wars of national liberation" as a threat, but "the only threat is the threat of ideas taking hold," he said. "This is political warfare."

SECURITY IDEA

The time has come, Scheer said, to realize that "maybe all Americans don't have the same interests. Maybe the Pentagon's idea of security is not the same as that of the average voter."

What's in the interest of Standard Oil Co. of New Jersey isn't necessarily in his interest, Scheer noted.

He urged the Peace and Freedom Party to develop its program, raise issues and "confront the larger society."

For a "minimal political program," he suggested U.S. withdrawal from Vietnam, support of the Black Liberation movement, and conversion of war economy in the U.S.

Scheer stressed that he "favored America not in the role of military policeman."

SHARP QUIZZING

There was sharp questioning from some members of the audience after it was reported the Peace and Freedom Party has a "loose coalition" with the Black Panther group.

Dr. Warren Levinson of the Marin County branch of the party said Black Panther party members were helping the Peace and Freedom Party get the 67,000 voter registrations necessary to gain a place on the California ballot.

Levinson reported that the party has about 48,000 registrations including 1,000 in Marin, and faced a Jan. 2 deadline. The state Supreme Court yesterday rejected the party's suit to extend the deadline to Jan. 19 and lower the registrattion requirement from "one per cent to one fifteenth of one per cent," he said.

Scheer said it would be a shame if former Alabama Gov. George Wallace, representing the right wing, made the ballot, and the Peace and Freedom Party, representing the ultra liberal wing, didn't.

He contended that "Wallace got more money, television time and muscle" than the Peace and Freedom Party. Critical of press coverage of the Peace and Freedom Party, he said, the party "can't get any publicity" about its stand.

URGENCY PLEA

The party has to impart a "sense of urgency," and develop a program that people will respond to, he advised.

Levinson reported that the Marin chapter of the party will have a county-wide convention Feb. 12 to discuss policy and plan for a statewide convention Feb. 22.

Scheer's talk was sponsored by the Marin chapter as part of its registration drive. When Scheer asked how many in the audience had registered, most raised their hands.

Banks Sign Receives Conditional Permit

The San Anselmo Design Review Committee last night conditionally permitted Crocker-Citizens National Bank to place a projecting sign on a building at 120 Sir Francis Drake Boulevard.

The approval is subject to approval of the sign color at the committee's Jan. 10 meeting at 8 p.m. at City Hall.

Commie Guns Force Quick Takeoff For Hope's Plane

CU CHI, Vietnam (UPI)—A transport plane carrying comedian Bob Hope and his entertainment troupe made an extra swift takeoff at Cu Chi today moments after Communist small arms fire echoed across the end of the runway, a spokesman for Hope reported.

There were no indications the Hope plane itself was shot at.

The Hope team had just finished entertaining 10,000 American soldiers at this base 20 miles northwest of Saigon and was en route to South Vietnam's coast to complete the holiday season tour of Vietnam.

A spokesman said a Caribou transport pilot radioed that the Viet Cong were shooting across the end of the runway. The C130 transport carrying Hope "made a very swift, spiral takeoff," the spokesman said.

"They ought to be careful," Hope said. "Someone could get hurt."

"They tell me this sort of shooting is kind of routine in Vietnam, but it sure as hell isn't usual for the Hope group," the spokesman said.

Hope had entertained men of the U.S. 25th Infantry Division, whose base camp is at Cu Chi, and other elements of the U.S. military command in Vietnam.

Church Kitchen Looted In Novato

Burglars have broken into the Novato Presbyterian Church at 710 Wilson Avenue and stolen $50 from the kitchen, police reported.

Entry, during Tuesday night, was gained by snapping a front door lock.

Also Tuesday night, police said, thieves took $44 in tools from a shed of E. C. Anderson Inc. of San Francisco at the Sinaloa Junior High School site, and tools worth $90 were stolen from a trailer of the Ongaro Plumbing Co. of San Anselmo.

Travis Air Force Base Ends Its Busiest Year

TRAVIS AIR FORCE BASE, Calif. (AP)—The headquarters base of one of the longest air supply routes in the history of warfare is closing the year after writing a new book of performance records.

Every day in the year, around the clock, Travis Air Force Base in Solano County receives and dispatches aircraft serving the U.S. armed forces nearly 8,000 miles away in Vietnam and far-flung Pacific outposts.

Air Force and civilian charter aircraft take off and land about 3,500 times a month at the 5,000-acre base 60 miles northeast of San Francisco on the edge of the Sacramento Valley.

By next Sunday, New Year's Eve, Travis planes will have carried more than 1.1 million passengers and 205,000 tons of cargo in 1967 — a 30 per cent increase in air freight, and a 10 per cent hike in passengers over the previous year.

Through the portals of Travis pass high priority cargo such as explosives, gun barrels and other weapons; troops, military dependents, foreign and domestic civilian personnel, digitaries. And the war wounded, and the war dead.

Chances are that the soldier in Vietnam dreams about Travis, the first place on the American mainland he'll see enroute home. It's the last place for many soldiers who check into the Oakland Army Terminal.

Travis spokesmen always boggle a bit when describing the amounts of cargo and passengers that move through the base. Breaking records is routine. This year, the C141 Lockheed Starlifter Golden Bear attained the world's highest utilization record for a military transport jet. For two months in a row, the four-jet giant flew 16.3 hours a day.

One of the proudest services Travis performs involves the base's aeromedical detachment, part of the 375th Aeromedical Airlift Wing, Scott Air Force Base, Ill.

"The aeromed program is so highly organized that no matter where a military patient might be in the country, he is only a few hours away from the finest medical facilities in the world," a spokesman said.

The Travis Medical Receiving Center serves the entire Middle East, Far East and western United States, providing in-transit treatment for war and other Defense Department patients. President Johnson visited this hospital recently on his way to Australia, greeting some of the 12,000 wounded men who arrived at Travis on the way to hospitals near their homes.

If swift medical service produces pride in Travis officers, the Mortuary Service there evokes sadness. They don't like to talk about it. Yet, the metal containers do arrive there from the Southeast Asian battlegrounds, and the embalming and shipment home must be seen to, and a man assigned as escort.

Ship Is Auctioned For Tenth Of Debt

PORTLAND, Ore. (UPI)—The Greek ship "Mitropolis," debt-ridden to the tune of $500,000, was sold at public auction here for $56,400.

The 4,500-ton ship had been anchored at Claskanie, Wash., since Nov. 1966, when a dispute arose at to who would pay for some repairs.

Travis Air Force Base Ends Its Busiest Year

TRAVIS AIR FORCE BASE, Calif. (AP)—The headquarters base of one of the longest air supply routes in the history of warfare is closing the year after writing a new book of performance records.

Every day in the year, around the clock, Travis Air Force Base in Solano County receives and dispatches aircraft serving the U.S. armed forces nearly 8,000 miles away in Vietnam and far-flung Pacific outposts.

Air Force and civilian charter aircraft take off and land about 3,500 times a month at the 5,000-acre base 60 miles northeast of San Francisco on the edge of the Sacramento Valley.

By next Sunday, New Year's Eve, Travis planes will have carried more than 1.1 million passengers and 205,000 tons of cargo in 1967 — a 30 per cent increase in air freight, and a 10 per cent hike in passengers over the previous year.

Through the portals of Travis pass high priority cargo such as explosives, gun barrels and other weapons; troops, military dependents, foreign and domestic civilian personnel, digitaries. And the war wounded, and the war dead.

Chances are that the soldier in Vietnam dreams about Travis, the first place on the American mainland he'll see enroute home. It's the last place for many soldiers who check into the Oakland Army Terminal.

Travis spokesmen always boggle a bit when describing the amounts of cargo and passengers that move through the base. Breaking records is routine. This year, the C141 Lockheed Starlifter Golden Bear attained the world's highest utilization record for a military transport jet. For two months in a row, the four-jet giant flew 16.3 hours a day.

One of the proudest services Travis performs involves the base's aeromedical detachment, part of the 375th Aeromedical Airlift Wing, Scott Air Force Base, Ill.

"The aeromed program is so highly organized that no matter where a military patient might be in the country, he is only a few hours away from the finest medical facilities in the world," a spokesman said.

The Travis Medical Receiving Center serves the entire Middle East, Far East and western United States, providing in-transit treatment for war and other Defense Department patients. President Johnson visited this hospital recently on his way to Australia, greeting some of the 12,000 wounded men who arrived at Travis on the way to hospitals near their homes.

If swift medical service produces pride in Travis officers, the Mortuary Service there evokes sadness. They don't like to talk about it. Yet, the metal containers do arrive there from the Southeast Asian battlegrounds, and the embalming and shipment home must be seen to, and a man assigned as escort.

Ship Is Auctioned For Tenth Of Debt

PORTLAND, Ore. (UPI)—The Greek ship "Mitropolis," debt-ridden to the tune of $500,000, was sold at public auction here for $56,400.

The 4,500-ton ship had been anchored at Claskanie, Wash., since Nov. 1966, when a dispute arose at to who would pay for some repairs.

Family Tree Full Of Family Of Trees

COLUMBUS, Ohio (UPI)—When the family reunited on Christmas Day, you could hardly see the forest for the Trees.

Spending the holiday at the home of Mr. and Mrs. Jack E. Trees on Satin Wood Drive in suburban Forrest Park were the Trees' sons, Jack Pine and Douglas Fir, and their daughter, Merry Christmas Trees. Also present were Jack's wife, nee Maxine Grovers, and Mrs. Douglas, the former Jane Wood.

Marin's Host Of Talented Dancers

By MAYBELLE SPECKMANN

Marin is represented by three talented young ballerinas in the current San Francisco Ballet production of the "Nutcracker" in addition to Conrad Ludlow, the Mill Valley man who is now principal dancer with the New York City Ballet.

As guest artist Conrad is dancing the leading role of the Cavalier, and Lynda Meyer of Corte Madera is his partner as the Sugar Plum Fairy.

Twenty-year-old Lynda, the daughter of Mr. and Mrs. Henry Meyer of Corte Madera, started her training in Texas at the age of four and was graduated from high school in San Carlos. She entered the San Francisco Ballet School on a scholarship at 15 and became a regular member of the company six months later.

ABOUT a year and a half ago she danced the role of Beauty in the film of the "Beauty and The Beast" ballet which was shown in Monaco's centennial celebration. At this time she was a special guest of Prince Rainier and Princess Grace. She was also a featured dancer on the Bell Telephone Company program earlier this year on the arts in the Bay Area.

The other young ballerinas appearing in the "Nutcracker" are 12-year-old Brigit Mullins and Mary de Vries, both students at the Edna Maguire School in Mill Valley and at the San Francisco Ballet School.

Brigit, the daughter of Mr. and Mrs. Robert Mullins of Mill Valley, is Clara, the little girl who has the dream about the Nutcracker after the Christmas party, a role she danced last year also.

Mary, the daughter of Dr. and Mrs. Pieter de Vries of Mill Valley, is the drummer in the Toy Soldiers Dance this year and last year was Freddie, Clara's mean little brother.

"Nutcracker" is being presented in matinees at the San Francisco Opera House through Sunday with an evening performance Saturday.

IN A PICTURE taken for last year's San Francisco Ballet production of the "Nutcracker" Brigit Mullins, left, is shown in one of the leading roles as Clara, which she is also dancing this year. Mary de Vries was Freddie, her mean little brother. Both girls live in Mill Valley.

Marin Women

Diane Collings Is Engaged To Lt. Boyd William Cahill

The engagement of Linda Diane Collings to Boyd William Cahill is being announced by her parents, Maj. and Mrs. Oscar E. Collings of Fairchild Air Force Base in Washington. Lt. Cahill is the son of Mr. and Mrs. Edwin Bowles Cahill of Greenbrae.

A dinner party honoring the couple will be given tonight by Boyd's aunt and uncle, Mr. and Mrs. John Schuyler Sweet of Kentfield, for family and friends.

Boyd's sisters are Mrs. Philip Ames of San Mateo and Sandra and Deborah Cahill of Greenbrae. He is a graduate of Redwood High School and the University of Santa Clara, where he joined Delta Sigma. A member of the San Francisco Bachelors, he is a pilot for the U.S. Navy. Diane is a senior at Spokane College in Washington.

The Spice Of India's Life

A fashion tour of India is full of variety.

What surprises most visitors to the sub-continent is that the graceful sari is not the only garment worn by the women of the country. Saris are the most popular, however.

Other outfits that add spice to India's fashion life, are salvar (trousers) and kamiz (shirts) which are worn in the Punjab. The women of Rajasthan prefer bright swirling skirts and blouses in orange and red, with gold and silver bangles on their arms and wrists; necklaces; rings on their fingers and toes.

Saris in Maharashtra, a state in west India, are frequently draped to look like beautiful, well-tailored lounging pajamas. In the south, the women will wear touches of silver and gold on their saris during the day and for the evening; glitter is strictly for after-five up north.

LYNDA MEYER of Corte Madera is dancing the role of the Sugar Plum Fairy in this year's San Francisco Ballet production of the "Nutcracker."

Jan Leibert Becomes Bride In A Candlelight Ceremony

Jan Elizabeth Leibert became the bride of Harvey Thomas Fenton in a candlelight ceremony last night in the Sleepy Hollow Presbyterian Church.

The bride is the daughter of Mr. and Mrs. Edmund T. Leibert of San Anselmo.

For her wedding the bride wore her mother's wedding gown. It was fashioned of ivory brocade with a chapel train.

Preceding the bride to the altar in gowns of California rose brocade were Lynne Beghetti of Corte Madera as maid of honor and Pattie Fenton of San Rafael, the bridegroom's sister, as bridesmaid.

Ivan E. Brown of Wentworth, S. D., served the bridegroom as best man and ushering were Edmund Tobin Leibert Jr. of San Anselmo, the bride's brother, and Jerry Thompson of Santa Venetia.

A reception followed the ceremony at the Van Winkle Drive home of the bride's parents.

Jan was graduated from Sir Francis Drake High School and the College of Marin. She is the granddaughter of Mrs. Roy A. Brown of San Rafael and the late Mr. Brown, and the late Mr. and Mrs. John G. Leibert of Black Point.

The bridegroom, son of Mr. and Mrs. Harry A. Fenton of San Rafael, was graduated from Sunset High School in Beaverton, Ore. He is employed with the Otis Elevator Co.

After a wedding trip to Portland, Ore., the couple will reside in San Rafael.

Marin's Host Of Talented Dancers

By MAYBELLE SPECKMANN

Marin is represented by three talented young ballerinas in the current San Francisco Ballet production of the "Nutcracker" in addition to Conrad Ludlow, the Mill Valley man who is now principal dancer with the New York City Ballet.

As guest artist Conrad is dancing the leading role of the Cavalier, and Lynda Meyer of Corte Madera is his partner as the Sugar Plum Fairy.

Twenty-year-old Lynda, the daughter of Mr. and Mrs. Henry Meyer of Corte Madera, started her training in Texas at the age of four and was graduated from high school in San Carlos. She entered the San Francisco Ballet School on a scholarship at 15 and became a regular member of the company six months later.

ABOUT a year and a half ago she danced the role of Beauty in the film of the "Beauty and The Beast" ballet which was shown in Monaco's centennial celebration. At this time she was a special guest of Prince Rainier and Princess Grace. She was also a featured dancer on the Bell Telephone Company program earlier this year on the arts in the Bay Area.

The other young ballerinas appearing in the "Nutcracker" are 12-year-old Brigit Mullins and Mary de Vries, both students at the Edna Maguire School in Mill Valley and at the San Francisco Ballet School.

Brigit, the daughter of Mr. and Mrs. Robert Mullins of Mill Valley, is Clara, the little girl who has the dream about the Nutcracker after the Christmas party, a role she danced last year also.

Mary, the daughter of Dr. and Mrs. Pieter de Vries of Mill Valley, is the drummer in the Toy Soldiers Dance this year and last year was Freddie, Clara's mean little brother.

"Nutcracker" is being presented in matinees at the San Francisco Opera House through Sunday with an evening performance Saturday.

Diane Collings Is Engaged To Lt. Boyd William Cahill

The engagement of Linda Diane Collings to Boyd William Cahill is being announced by her parents, Maj. and Mrs. Oscar E. Collings of Fairchild Air Force Base in Washington. Lt. Cahill is the son of Mr. and Mrs. Edwin Bowles Cahill of Greenbrae.

A dinner party honoring the couple will be given tonight by Boyd's aunt and uncle, Mr. and Mrs. John Schuyler Sweet of Kentfield, for family and friends.

Boyd's sisters are Mrs. Philip Ames of San Mateo and Sandra and Deborah Cahill of Greenbrae. He is a graduate of Redwood High School and the University of Santa Clara, where he joined Delta Sigma. A member of the San Francisco Bachelors, he is a pilot for the U.S. Navy. Diane is a senior at Spokane College in Washington.

The Spice Of India's Life

A fashion tour of India is full of variety.

What surprises most visitors to the sub-continent is that the graceful sari is not the only garment worn by the women of the country. Saris are the most popular, however.

Other outfits that add spice to India's fashion life, are salvar (trousers) and kamiz (shirts) which are worn in the Punjab. The women of Rajasthan prefer bright swirling skirts and blouses in orange and red, with gold and silver bangles on their arms and wrists; necklaces; rings on their fingers and toes.

Saris in Maharashtra, a state in west India, are frequently draped to look like beautiful, well-tailored lounging pajamas. In the south, the women will wear touches of silver and gold on their saris during the day and for the evening; glitter is strictly for after-five up north.

LYNDA MEYER of Corte Madera is dancing the role of the Sugar Plum Fairy in this year's San Francisco Ballet production of the "Nutcracker."

Traditional New Year's Eve Parties Planned Over Marin

By MOLLY MARIN

The calendar for the new year is already getting filled. San Francisco Yacht Club in Belvedere, closed for minor renovations to the clubhouse in the waning days of December, will reopen in time for the traditional New Year's Eve party with O. R. Holm, chairman. Members who have made reservations include Drs. and Mesdames Raymund Millzner, Paul De Silva, Maurice Smith and Lawrence Custer; Messrs. and Mesdames Derk Te Roller, Patrick Kirrane, William Votaw, Robert Davies, Jeff Capell, Sam Mann, Charles Fleischman, William Fisher, Donald McLean, Paul Duggan, Colin Mason, Chris Gasparich, Leigh Abell, Frank Duhme, Leonard James, Roy Ashley, Richard Bradley, James Daley and C. M. Peterson.

MEMBERS of the Meadow Club will hold its traditional New Year's Eve black tie champagne dinner dance. Chairmen are Messrs. and Mesdames Leroy Page and Henry Skinner both of Ross. Mr. Page is president of the club this year. Three Tiburon couples who will be attending the Meadow Club's party are the Kenneth Merklins, Harold Hartsoughs and Norman Johnsons.

MANY MARIN Country Club members will be attending the New Year's Eve dinner dance at the club in Novato on Sunday. The evening's festivities will begin with cocktails at 8 p.m. Members making reservations are Messrs. and Mesdames Emil Renati, Lloyd Amos, George Dennis, Harry Flachs, Jerome Gates, Charles Hancock, Albert Morris, O. D. Oliphant, Richard Schlobohm, Robert Vannucci and Dr. and Mrs. Frederick Newirth. The Harry Lockes have invited Mr. and Mrs. Maurice Sammon and Mr. and Mrs. Leon Attabit of San Francisco to be their guests at the club. Coming from Domingo Canyon will be Messrs. and Mesdames Donald Bartolo and Conrad Watson and Dr. and Mrs. Joseph Basso.

CORINTHIAN Yacht Club will also have a dinner dance to welcome the new year. Vice Commodore Milton L. Stan-

Jan Leibert Becomes Bride In A Candlelight Ceremony

Jan Elizabeth Leibert became the bride of Harvey Thomas Fenton in a candlelight ceremony last night in the Sleepy Hollow Presbyterian Church.

The bride is the daughter of Mr. and Mrs. Edmund T. Leibert of San Anselmo.

For her wedding the bride wore her mother's wedding gown. It was fashioned of ivory brocade with a chapel train.

Preceding the bride to the altar in gowns of California rose brocade were Lynne Beghetti of Corte Madera as maid of honor and Pattie Fenton of San Rafael, the bridegroom's sister, as bridesmaid.

Ivan E. Brown of Wentworth, S. D., served the bridegroom as best man and ushering were Edmund Tobin Leibert Jr. of San Anselmo, the bride's brother, and Jerry Thompson of Santa Venetia.

A reception followed the ceremony at the Van Winkle Drive home of the bride's parents.

Jan was graduated from Sir Francis Drake High School and the College of Marin. She is the granddaughter of Mrs. Roy A. Brown of San Rafael and the late Mr. Brown, and the late Mr. and Mrs. John G. Leibert of Black Point.

The bridegroom, son of Mr. and Mrs. Harry A. Fenton of San Rafael, was graduated from Sunset High School in Beaverton, Ore. He is employed with the Otis Elevator Co.

After a wedding trip to Portland, Ore., the couple will reside in San Rafael.

HELEN HELP US!

By HELEN BOTTEL

Old-Fashioned Romantic Phrase Gets A New Meaning From Writer

DEAR HELEN:

I have been going with a boy for two years. Everything was okay until he popped the question. I told him I didn't believe a girl should until she was married. Did I say the right thing? — T. D.

DEAR T:

Yes, you said the right thing. (In my day "pop the question" meant nothing but "Let's get married." My, how times change!) — H.

DEAR HELEN:

I am in college, a male, intelligent, from a good family and not bad looking. I realize that with some effort I could take advantage of the fairer sex, as many of my classmates brag they do. However, I never get farther than casual dates.

Should I remain apathetic about the problem, or make an effort to experiment? — CONFUSED

DEAR CON:

Stop worrying and keep in mind the fellows who brag loudest have least to brag about. A recent four-year study at Stanford University indicates you have lots of company. Researchers found that about one-third of the men and a quarter of the women date little or not at all, even in their senior year.

They also discovered, through in-depth interviews with 3,000 students (over a four-year period) that sexual promiscuity in college is not widespread. "Intimacy, when it occurs," they report, "takes place in the context of a relationship that is serious rather than casual."

You aren't apathetic, just selective, and too busy for meaningless experiments. — H.

DEAR HELEN:

You said that among unmarried women, men always should take precedence. I disagree. You see, Helen, we are three girls living in an apartment together and working in the same office. Only one of us has a boyfriend.

This creates a serious problem because he feels he has the authority to come here and tell all of us how to run our lives. Two of us criticize him to the third — his girlfriend. We also point out his good qualities, which are few.

His girl often agrees with our criticisms, but she still dates him constantly. She won't go out with us because she feels she must stay home and await his call or an unexpected visit. We think she is throwing herself away on him.

We pay a nice sum of money for our privacy and we feel this socalled man is ruining it, what with late calls and drop-ins.

Don't you agree this girl is behaving in a childish manner? — MORE MATURE

DEAR M. M.:

This girl is behaving like someone in love. Perhaps you should start looking for another roomie. — H.

DEAR HELEN:

I hope you'll print this because it pertains to all boy-crazy girls. I thought this boy liked me, so I would go out of my way to see him. I even called him up once in a while.

Well, he shied away and now we're "just friends."

I would like to say this: 1. Don't assume. Just because a boy starts talking to you doesn't mean he's yours. 2. Don't be possessive. Act normal and let him do the chasing. — LEARNED TOO LATE

Cheryl Hoots Will Marry Carroll Cook II In June

The Richard Howard Hoots of San Francisco are announcing the engagement of their daughter, Cheryl Catherine, to Carroll Cook II of Sacramento. The bride-elect's parents were former residents of San Rafael.

Cheryl was graduated from Mira Loma High School and attends American River College in Sacramento. She is the sister of Mesdames Lee Adams of Sacramento, Ken Leusing of Texas and Deborah Hoots of Sacramento. She is the granddaughter of Mrs. Howard Hoots of San Rafael and Thomas Keleher of San Francisco.

The future bridegroom is the son of Mr. and Mrs. Carroll B. Cook Jr. of Sacramento. Robert Cook of Sacramento is his brother. He was graduated from American River College and attends Chico State College.

A June wedding is planned.

CHERYL HOOTS

Tam Centre Club Will Hear Songs

Songs from the American Theatre will be sung by Mrs. Valerie McMullen of San Rafael at the Tamalpais Centre Woman's Club in Kentfield on January 5. She will be accompanied by Kathy von Seggern. Mrs. McMullen has done professional work in musical comedy and summer stock.

Mrs. A. M. Komora will preside at the 11 a.m., board meeting, and the 1 p.m. business meeting.

Following the 2 p.m. musical program, tea will be served. Mrs. C. Gerald Fiscus, chairman, will be assisted by Mesdames E. Dewart Lewis, Fred Richelieu, Russell Scott and Miss Ray Olinger. Mrs. Marguerite Bates and Mrs. Barclay Renshaw will pour.

Rustic Look Coming

If you think 1967 zipped by too fast, hold on. At the Boys' and Young Men's Apparel Manufacturers Association they're already up to fall of 1968! Here's what they say about the 1968 fashion colors: Earthy browns, burnished golds, mountain greens, woodland russets. The reasons for these colors: Boys and young men will wear the country look next fall. They'll wear it in the city, for sports, at school, for leisure. And, oh yes. Presumably in the country, too.

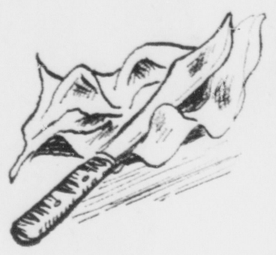
Rise In Food Prices To Go To Middlemen, Not Farmers



WASHINGTON (UPI)—Housewives can expect a two to three per cent rise in supermarket food prices in 1968. The cost of eating out probably will show a similar increase.

The chief culprit: higher processing and marketing costs.

Some farm costs may go up as a result of production cutbacks. But the farmer's share of the consumer food dollar actually may decline as marketing charges jump faster than farm prices.

TOTAL FOOD spending will rise, of course. But income is growing too and the average consumer probably will spend about the same percentage of his income for food in 1968 as he did this year.

Retail food prices edged up one per cent this year, mostly because of higher restaurant checks. That was in sharp contrast with 1966 when food prices went up a whopping five per cent, prompting some housewives to boycott their local supermarkets.

Consumers spent about $96.5 billion for food in 1967, an increase of nearly four per cent over 1966. Consumer income was up about seven per cent, however. This means that about 17.7 per cent of the American's average budget went for food compared with 18.3 per cent the year before.

AGRICULTURE officials said the percentage should remain at about this level in 1968 despite the expected climb in retail food prices.

On the basis of current production estimates, housewives can expect to pay more next year for meat, eggs and fruit. Prices are likely to be lower for fats and oils—and for potatoes at least during the early part of the year.

ALTHOUGH conceding that higher farm prices may play some part in rising grocery price tags, agriculture officials said the chief cause is spiraling labor and other costs in the food processing and marketing fields. Increasing consumer demand is another factor.

These officials also contend the farmer is entitled to more money for his crops and livestock, particularly in view of the fact that farm prices have declined in 12 of the last 15 months while food prices continued to rise.

Based on current production outlooks and the trend of wholesale and retail prices, here's how the food price situation looks for 1968:

MEAT AND POULTRY: Beef prices should show the most significant gain because producers are not expected to increase their herds substantially. Pork prices should show a slight rise. Poultry prices probably will not change much, but egg prices should be up. One thing which could depress meat prices would be for producers to expand their flocks excessively because of current low feed prices. Both government and farm leaders are urging farmers not to go overboard on production and thereby force down prices.

FRUITS: Both citrus and non-citrus fruit prices should be higher. Non-citrus supplies are much smaller than a year ago due to this year's reduced crop. Higher prices are likely for such items as canned peaches, pears and fruit cocktail as well as for fresh fruit.

CEREAL AND BAKERY PRODUCTS: Although grain prices will remain relatively low well into 1968, some prices may firm up later. Officials explained that prices on these products are affected much more by processing and marketing costs than by the price of grain.

VEGETABLES: Prices are expected to remain at about current levels as production of most vegetables remains fairly steady. A big potato crop, however, should mean lower potato prices during the first half of the year.

DAIRY PRODUCTS: Relatively little change is expected although government actions to reduce dairy surpluses and boost dairy farmers' incomes could lead to some retail price boosts.

OTHER FOODS: Retail prices for fats and oils, such as margarine, shortening, salad dressing and peanut butter, will decline because of big supplies. Little change is expected for either coffee or sugar. Some soft drinks and instant coffee prices may increase because of higher processing costs.

Cataracts Villain May Be Drugs

Common sleeping tablets apparently can cause cataracts in the eyes of children when taken by their mothers during pregnancy.

Two Sydney, Australia, doctors have formed this hypothesis to account for formerly inexplicable cataracts in children.

Dr. R. E. Hertzberg and Dr. J. D. Harley, began their investigations in 1964 on 59 children who had cataracts which were inexplicable. The investigation showed the cataracts could be due to genetic factors, nutrition, infections, and exposure to drugs.

Dr. Hertzberg said that in some cases cataracts could have been avoided by a more judicious use of drugs during pregnancy, for example, in the case of barbiturates or sleeping tablets.

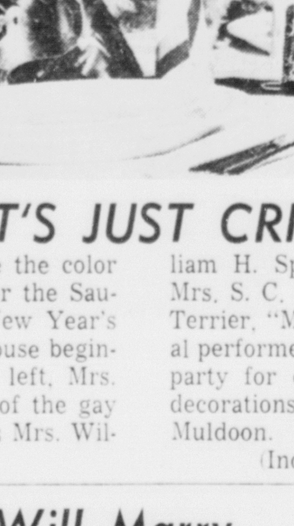
Cheryl Hoots Will Marry Carroll Cook II In June

The Richard Howard Hoots of San Francisco are announcing the engagement of their daughter, Cheryl Catherine, to Carroll Cook II of Sacramento. The bride-elect's parents were former residents of San Rafael.

Cheryl was graduated from Mira Loma High School and attends American River College in Sacramento. She is the sister of Mesdames Lee Adams of Sacramento, Ken Leusing of Texas and Deborah Hoots of Sacramento. She is the granddaughter of Mrs. Howard Hoots of San Rafael and Thomas Keleher of San Francisco.

The future bridegroom is the son of Mr. and Mrs. Carroll B. Cook Jr. of Sacramento. Robert Cook of Sacramento is his brother. He was graduated from American River College and attends Chico State College.

A June wedding is planned.



CHERYL HOOTS

Tam Centre Club Will Hear Songs

Songs from the American Theatre will be sung by Mrs. Valerie McMullen of San Rafael at the Tamalpais Centre Woman's Club in Kentfield on January 5. She will be accompanied by Kathy von Seggern. Mrs. McMullen has done professional work in musical comedy and summer stock.

Mrs. A. M. Komora will preside at the 11 a.m., board meeting, and the 1 p.m. business meeting.

Following the 2 p.m. musical program, tea will be served. Mrs. C. Gerald Fiscus, chairman, will be assisted by Mesdames E. Dewart Lewis, Fred Richelieu, Russell Scott and Miss Ray Olinger. Mrs. Marguerite Bates and Mrs. Barclay Renshaw will pour.

Rustic Look Coming

If you think 1967 zipped by too fast, hold on. At the Boys' and Young Men's Apparel Manufacturers Association they're already up to fall of 1968! Here's what they say about the 1968 fashion colors: Earthy browns, burnished golds, mountain greens, woodland russets. The reasons for these colors: Boys and young men will wear the country look next fall. They'll wear it in the city, for sports, at school, for leisure. And, oh yes. Presumably in the country, too.

COOK'S TOUR

Rise In Food Prices To Go To Middlemen, Not Farmers

WASHINGTON (UPI)—Housewives can expect a two to three per cent rise in supermarket food prices in 1968. The cost of eating out probably will show a similar increase.

The chief culprit: higher processing and marketing costs.

Some farm costs may go up as a result of production cutbacks. But the farmer's share of the consumer food dollar actually may decline as marketing charges jump faster than farm prices.

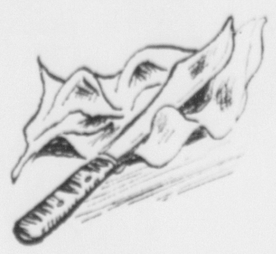
TOTAL FOOD spending will rise, of course. But income is growing too and the average consumer probably will spend about the same percentage of his income for food in 1968 as he did this year.

Retail food prices edged up one per cent this year, mostly because of higher restaurant checks. That was in sharp contrast with 1966 when food prices went up a whopping five per cent, prompting some housewives to boycott their local supermarkets.

Consumers spent about $96.5 billion for food in 1967, an increase of nearly four per cent over 1966. Consumer income was up about seven per cent, however. This means that about 17.7 per cent of the American's average budget went for food compared with 18.3 per cent the year before.

AGRICULTURE officials said the percentage should remain at about this level in 1968 despite the expected climb in retail food prices.

On the basis of current production estimates, housewives can expect to pay more next year for meat, eggs and fruit. Prices are likely to be lower for fats and oils—and for potatoes at least during the early part of the year.



ALTHOUGH conceding that higher farm prices may play some part in rising grocery price tags, agriculture officials said the chief cause is spiraling labor and other costs in the food processing and marketing fields. Increasing consumer demand is another factor.

These officials also contend the farmer is entitled to more money for his crops and livestock, particularly in view of the fact that farm prices have declined in 12 of the last 15 months while food prices continued to rise.

Based on current production outlooks and the trend of wholesale and retail prices, here's how the food price situation looks for 1968:

MEAT AND POULTRY: Beef prices should show the most significant gain because producers are not expected to increase their herds substantially. Pork prices should show a slight rise. Poultry prices probably will not change much, but egg prices should be up. One thing which could depress meat prices would be for producers to expand their flocks excessively because of current low feed prices. Both government and farm leaders are urging farmers not to go overboard on production and thereby force down prices.

FRUITS: Both citrus and non-citrus fruit prices should be higher. Non-citrus supplies are much smaller than a year ago due to this year's reduced crop. Higher prices are likely for such items as canned peaches, pears and fruit cocktail as well as for fresh fruit.

CEREAL AND BAKERY PRODUCTS: Although grain prices will remain relatively low well into 1968, some prices may firm up later. Officials explained that prices on these products are affected much more by processing and marketing costs than by the price of grain.

VEGETABLES: Prices are expected to remain at about current levels as production of most vegetables remains fairly steady. A big potato crop, however, should mean lower potato prices during the first half of the year.

DAIRY PRODUCTS: Relatively little change is expected although government actions to reduce dairy surpluses and boost dairy farmers' incomes could lead to some retail price boosts.

OTHER FOODS: Retail prices for fats and oils, such as margarine, shortening, salad dressing and peanut butter, will decline because of big supplies. Little change is expected for either coffee or sugar. Some soft drinks and instant coffee prices may increase because of higher processing costs.

Cataracts Villain May Be Drugs

Common sleeping tablets apparently can cause cataracts in the eyes of children when taken by their mothers during pregnancy.

Two Sydney, Australia, doctors have formed this hypothesis to account for formerly inexplicable cataracts in children.

Dr. R. E. Hertzberg and Dr. J. D. Harley, began their investigations in 1964 on 59 children who had cataracts which were inexplicable. The investigation showed the cataracts could be due to genetic factors, nutrition, infections, and exposure to drugs.

Dr. Hertzberg said that in some cases cataracts could have been avoided by a more judicious use of drugs during pregnancy, for example, in the case of barbiturates or sleeping tablets.

Pre-Teen Years May Be Harder On The Parents Than Children

By DAVID NYDICK
UPI Education Specialist

The pre-teen years are often considered quite difficult. This is probably more true for the parents than for the youngsters. What are these children like? Are they really unmanageable?

Bob's mother suggested that they go to the movies together on Saturday. She was completely shocked when he said that he preferred to go swimming with his friends.

Ed told his father that he wanted to go hiking with the Boy Scout troop instead of on a fishing trip with the family. His father was surprised since they always seemed to have so much fun on these trips.

Leslie's room was always messy and she didn't seem to care about her looks. She preferred wearing dungarees to dresses. Her parents were distressed at her becoming such a tomboy.

THESE ARE TYPICAL reactions of pre-teen children. They want to be with their peers. They seem to rebel against the family. They appear to intentionally reject authority just to prove that it can be done.

These actions and attitudes are certainly difficult for parents to accept. After all, up to this point the child has been almost completely dependent upon his parents. He has enjoyed spending time with them. He has shown only minor signs of independence. Now the change seems to be quite dramatic.

THE NATURAL REACTION of many parents is to block this development. They will either exert more authority or perhaps extend themselves to show their love and affection. The child reacts by becoming more intent on proving his independence. He becomes stubborn and more rebellious.

As parents you should realize that this is part of growing up. If you can remember, you too went through this stage of development. Learn to accept the child for what he is. This doesn't mean to drop all standards. It does mean to administer authority with understanding. Demand standards which this age child can maintain.

Allow the child to experiment. He can learn a great deal by trial and error. His curiosity, restlessness, loud behavior, and daring should be guided into safe and satisfying activities. He wants to join clubs, organizations, etc. He may even organize a two-man club. He is seeking status and recognition with his peers.

These pre-teen years are surely trying times for parents.

YOUR BEST APPROACH is to recognize that most of this behavior is perfectly normal. Although the child seems to resent your love and attention, he needs it as much as ever. You can show it by your understanding of his needs at this time. There is no need to permit him to become disrespectful or extremely demanding. Use good judgment. He should have the time and opportunity to pursue his private activities. If this is arranged, he is more likely to show some cooperation with the family.

Although difficult, these can be very rewarding years. Your guidance at this time can avoid serious trouble in the future. If you view this period as normal, you will find much satisfaction in observing your child's development.

Facts Of Quality In Buying Eggs

When you go to the market to buy eggs keep in mind the facts of quality.

U.S. consumer grades for eggs are: Grade AA (or Fresh Fancy); Grade A; Grade B.

Grade refers to the interior quality of the egg and to the condition and appearance of the shell.

The higher quality eggs (AA or Fresh Fancy and A) have a large proportion of thick white which stands up well around a firm, high yolk. These eggs are ideal for all purposes, and are especially good for frying and poaching where appearance is important.

B quality eggs may have a thinner white which spreads out more. They are good for general cooking and baking where appearance is not important.

The most common sizes are Extra Large, Large and Medium.

REMEMBER — Size and quality are not related—they are entirely different.

For example, large eggs may be of high or low quality; high quality eggs may be of any size.

HAPPY NEW YEAR!

"Dear MUTTS OF MARIN— Happy New Year to the best friend a mutt or mouser ever had. Your grooming service has shaped-up all of us, your fashions for felines and Fidos are devine and your down-to-earth attitude about pet care in general has helped many a puppy and kitten survive a fumbling master. Thanks a heap. Love, Lisa"

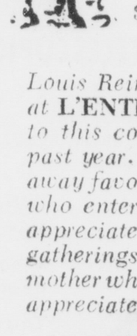
There is a dandy sale going on now at **THE HOUR GLASS** *with substantial reductions on most everything in the store. "Most everything" in this case includes frothy, frilly lingerie (at sale prices to please an after-Christmas wallet) and lovely robes in hostess styles and the more practical cook-breakfast-type. If Santa was shy about shopping for intimate feminine apparel, now is your chance to stock-up at low prices.*

INN MARIN (formerly Cherish Inn) will be starting the new year with a new name, new owners and an entirely new menu. Chef Jim "Scotty" Davidson, has devised a continental menu with carefully chosen additions appearing regularly. (He has also banished all frozen food from his kitchen.) Host Allan Johnstone will continue the popular Wednesday Fashion-Luncheons, also the excellent banquet facilities. (**INN MARIN** will be closed New Year's Day.)

'Tis the traditional "bubbly season" and **VILLAGE LIQUORS** *rises to the occasion like bubbles in their superb champagnes. You'll find an excellent selection here of imported and domestic champagnes, including a number of gift boxes with appropriate glasses enclosed with the wine. Should you be in a bit of a muddle between Brut and Sec, just ask Dan, he'll be glad to advise you.*

My curiosity has been aroused by **CAPRICORN BOOKS'** statement that they will have big news in January. No, I don't know what it is either but, knowing this book store as I do, you can bet I'll keep dropping in next month to see "what's up." Of course, **CAPRICORN BOOKS** carries all the latest best sellers but, don't overlook their extensive paper back collection that includes everything from light novels to serious tomes.

Every year I vow I'll take advantage of an offer like this and, this year I **really intend to do it.** *Said offer is* **IDEAL STATIONERS'** *half-price sale of Christmas cards, gift wrap and tags. What better time than now, actually, while we're still in the holiday spirit . . . and think how grateful our post-Santa bank accounts will be!*



KUBLAI KHAN will be open New Year's Eve and New Year's Day offering a special menu to their many friends. They will have a complete turkey dinner for $3.85 and the complete steak and lobster dinner for $4.35. (Stanley Toy assures me his popular steak and lobster for $2.95 will still be available a la carte.)

Louis Reimers, Master Chef, **who** *rules the range at* **L'ENTREE** *has asked me to extend his thanks to this column's readers for their patronage this past year.* **L'ENTREE** *catering has become a runaway favorite with Marin hostesses . . . both those who entertain on a grand scale and others who appreciate superb hors d'oeuvres for intimate gatherings. The perfect festive note for New Year's celebrations is found at **ROJEAN'S CARD & PARTY SHOP** in the form of clever, coordinated paper coasters, napkins, etc. Choose from a funny clock design or a tiddly pink elephant.

The **HICK'RY PIT** *suggests you might make Resolution #1 to take the family out for dinner more often. And, I suggest that this informal, family restaurant is the perfect place to break in Junior's "eating out manners." They feature a menu to satisfy any palate and the excellent service knows how to feed hungry kids fast, before they have a chance to get cranky. Resolution #2 might well be to sample the* **HICK'RY PIT** *barbecued spareribs if you have missed this treat. These spareribs are lean and meaty and the sauce is seasoned "just right." The* **HICK'RY PIT** *will be open on New Year's Day from 11 to 8.*

My curiosity has been aroused by **CAPRICORN BOOKS'** statement that they will have big news in January. No, I don't know what it is either but, knowing this book store as I do, you can bet I'll keep dropping in next month to see "what's up." Of course, **CAPRICORN BOOKS** carries all the latest best sellers but, don't overlook their extensive paper back collection that includes everything from light novels to serious tomes.

Every year I vow I'll take advantage of an offer like this and, this year I really intend to do it. Said offer is **IDEAL STATIONERS'** *half-price sale of Christmas cards, gift wrap and tags. What better time than now, actually, while we're still in the holiday spirit . . . and think how grateful our post-Santa bank accounts will be!*

KUBLAI KHAN will be open New Year's Eve and New Year's Day offering a special menu to their many friends. They will have a complete turkey dinner for $3.85 and the complete steak and lobster dinner for $4.35. (Stanley Toy assures me his popular steak and lobster for $2.95 will still be available a la carte.)

Louis Reimers, Master Chef, who rules the range at **L'ENTREE** *has asked me to extend his thanks to this column's readers for their patronage this past year.* **L'ENTREE** *catering has become a runaway favorite with Marin hostesses . . . both those who entertain on a grand scale and others who appreciate superb hors d'oeuvres for intimate gatherings. And, any busy housewife or working mother who has taken home a* **L'ENTREE** *casserole appreciates this delicious convenience.*

The perfect festive note for New Year's celebrations is found at **ROJEAN'S CARD & PARTY SHOP** in the form of clever, coordinated paper coasters, napkins, etc. Choose from a funny clock design or a tiddly pink elephant.

The **HICK'RY PIT** *suggests you might make Resolution #1 to take the family out for dinner more often. And, I suggest that this informal, family restaurant is the perfect place to break in Junior's "eating out manners." They feature a menu to satisfy any palate and the excellent service knows how to feed hungry kids fast, before they have a chance to get cranky. Resolution #2 might well be to sample the* **HICK'RY PIT** *barbecued spareribs if you have missed this treat. These spareribs are lean and meaty and the sauce is seasoned "just right." The* **HICK'RY PIT** *will be open on New Year's Day from 11 to 8.*

A DOZEN YEARS LATE

Hub Policeman Receives Medal From Italy

Almost 12 years after flying on rescue missions to snowbound Sicilians, Patrolman Edwin Silvia of San Anselmo has a medal from the Italian government for his efforts.

"I almost forgot about it," said Silvia, one of 17 Americans to receive the Solidarity Star, third degree, which is awarded for peacetime heroism.

Silvia said he was first given the medal in Paris in May, 1956, by the Italian ambassador to France, but had to turn it in. "It was the first of its kind from Italy to U.S. troops," he said, "and after we got it an officer said we had to turn it in until Congress approved."

Congress took such action in October, 1966. The medal was mailed to Silvia's former hometown, Fall River, Mass., last June and then forwarded to him by his mother this week.

Silvia was an airman first class with the 317 Troop Carrier Wing, stationed near Munich, Germany, when Sicily was hit by blizzards in the winter of 1956 and people and cattle were starving.

Italian planes couldn't handle the job, so U.S. planes were called in, he said. "We had C-119 flying box cars, and we flew out of Rome."

Flying in mountainous territory in stormy weather, operating strictly by instrument flying, three planes from the Troop Carrier Wing dropped bundles.

"We had to fly low level in bad weather and everytime we'd see people, we'd drop bundles of food and clothing," Silvia, a flight engineer said. "We were 50 to 75 feet off the deck."

He flew three missions in two days, and his plane kept circling until it was emptied he said. "We hit stranded areas, little villages and farmland."

Silvia has been with the San Anselmo Police Department since 1962 when he completed 10 years with the Air Force. He was discharged at Hamilton Air Force Base as a staff sergeant.

The Italian medal was the second he received for the Sicily rescue mission. He was awarded the U.S. Distinguished Flying Cross for his work.

The other 16 Americans to receive the Italian medal were crew members from the wing who participated in the flights, Silvia said.

Murder Inmate At Quentin Indicted For Razor Death

A San Quentin Prison inmate, in jail for the 1965 murder of a cellmate, was indicted by the Marin County Grand Jury yesterday in the razor death of another convict in San Quentin's psychiatric ward Nov. 6.

The grand jury charged Leo Estrada Robles, 22, with first degree murder and assault by a life on another inmate, both death penalty offenses. He is to be arraigned in Superior Court Tuesday.

Forrest W. Smith, 42, a forger and burglar, was found with his jugular vein slashed Nov. 6 in the San Quentin psychiatric ward, where he was sent after an attack of epilepsy.

District Atty. Bruce B. Bales claimed yesterday that Robles struck Forrest over the head with some heavy weights, then slashed his throat with a razor blade embedded in a tooth brush.

Robles, now confined at the State Medical Facility at Vacaville, had been in the ward for 43 days at the time.

The Salinas Valley man is serving time for the first degree murder of Willard Flynn, his cellmate at the Santa Clara County Jail in August 1965.

Robles hanged Flynn by a bedsheet the night of Aug. 25, 1965, while awaiting trial for assault with intent to murder on a man who picked him up while he was hitchhiking, an offense he was also convicted for.

Bales said Robles, in that case, slowly inserted a knife into the man's chest, just after Robles escaped from a Monterey County Prison road camp, where he was confined for drunkeness.

Juvenile Court Gets Marijuana Suspect

Jean Rene Roditgou, 19, of 45 Spring Road, Lagunitas, was certified to Juvenile Court yesterday to face a charge of carrying marijuana Dec. 11, when the California Highway Patrol arrested him on Highway 101.

The CHP said Roditgou was a passenger in a car stopped in the northbound lanes near the Richardson Bay Bridge. The patrolman allegedly found a small quantity of marijuana on him.

$325,000 Project At Novato Hospital

A $325,000 addition to Novato General Hospital, which will double its capacity, is planned for completion in about 10 months, it was announced today by hospital directors.

The present hospital has 30 beds and the new wing will add 27 more, Siemens said.

In addition, there will be a new emergency department. It will have a different entrance and capacity to handle three emergency cases at the same time, he said. The present emergency room, which was designed for an operating room, can handle only one person. It will be converted to a second operating room, doubling that capacity, Siemens said.

The laboratory and kitchen facilities will also be enlarged.

Construction should start in three or four months, with completion of the new addition about six months after that, Dr. Siemens reported.

Crocker-Citizens Bank will finance the new addition, and Rockrise and Watson of San Francisco is the architect. The general contractor has not been selected, Dr. Siemens said.

The hospital opened in 1961.

Plans for the addition were announced by Dr. Siemens in January 1965, but financing has held up construction, he said.

No Action Yet On Pay Policy

The Novato Fire District Board last night asked for pay figures from other fire districts before considering increases in salaries, according to Fire Chief George Cavallero.

The chief also is to get fringe benefit data to compare with Novato's.

The board reviewed nine letters from architects seeking to design the new fire station and drill tower for the Atherton Avenue site. It reduced the number to four and will interview them at a later date, the chief said.

Airport Aide Interviews Completed

An attendant, or assistant manager, for the Marin County Airport in Novato will be picked by the first of next week, airport manager Francis E. Torr announced today.

Eighteen candidates for the job were interviewed yesterday at the Civic Center by an oral board consisting of Timothy Jackson, administrative analyst; William Bernard, Sonoma County airport manager and Mario Balestrieri, assistant director of public works.

Torr said he and Public Works Director Donald R. Frost will pick the airport attendant from the top five. "We hope to have him on the job from the first of the year," said Torr.

Pay is $510 to $619 per month. The airport attendant will help Torr with the daily operations of the airport. A half-time attendant has been authorized by the board of supervisors, but this position will not be filled until activity at the airport increases.

Martinelli Now Reports Sheep Slain By Dogs

Leroy Martinelli, the Point Reyes Station rancher who has been shooting eagles that attack his sheep, lost four lambs and an ewe to dogs of a neighboring rancher yesterday.

Martinelli said the owner of the two Labrador-hound dogs he discovered attacking his sheep had agreed to pay for the lost stock. He declined to identify the dogs' owner.

Martinelli has shot two golden eagles so far and has permission from the U.S. Fish and Wildlife Service to shoot a third.

He said the stock killed by the dogs yesterday was grazing about three quarters of a mile from the area where the attacks by eagles occurred.

He said there was no doubt that the killing was done by eagles in the one place, and by dogs at the other. The two dogs were in the midst of his sheep when he surprised them yesterday morning, Martinelli said, and he followed them to the home of a neighboring rancher.

Clothes Hint Bridge Leap

A San Francisco windowwasher removed his clothes then apparently jumped to his death at 2:30 p.m. yesterday from the Golden Gate Bridge.

He has been identified by the California Highway Patrol as Harry Candy, in his early 20s, from Staten Island, N.Y. He had been living in a San Francisco hotel.

Two witnesses reported that, while walking north on the bridge sidewalk, they had been approached by a man who appeared to be "very nervous," with glazed eyes, and making unintelligible gestures. He asked them for "a smoke." They walked on.

A few minutes later, patrolmen found Candy's clothes, with his wallet and other effects, stacked by the bridge railing, south of midspan, searched the waters under the serched the waters under the bridge, but found no body.

Plea Of Innocent To Child Beating

Robert William Corteau, 48, of 535 Eldridge Avenue, Novato, pleaded innocent in Marin Municipal Court yesterday to a misdemeanor charge of child beating. Jury trial was set for April 11.

Corteau was cited by Novato police for allegedly whipping his 9-year-old daughter with a belt Dec. 3. She reportedly had bruises on her legs, body and face.

TODAY'S EDITORIAL

School Guides Confuse Study Of Marijuana

Judging from their remarks in public and private, Marin's youth are considerably confused about marijuana.

Judging from the growing record of arrests, an increasing number of them are experimenting with the "loco weed" — in part, no doubt, because they are confused and want to "find out for themselves."

And judging from the study guides published by the Marin County schools office for use in instructing the youngsters, there is plenty of reason for their confusion.

THE COUNTY SCHOOLS office last summer put on a "crash program" to try to make sure that Marin's schools taught about drug dangers. It produced "Drug Instructional Use Guides" for seventh and eighth grades and for high schools.

The seventh-eighth grade guide treats marijuana quite quickly, in two pages. It informs the teacher (who is to inform the pupils) that most drug addicts "received their first start by smoking marijuana." It says marijuana use brings on hallucinations, delirium, and restless sleep, and declares: "Death may follow respiratory failure for some individuals."

THE GUIDE FOR HIGH SCHOOLS, however, is another matter.

It opens with a historical resume of the hemp derivatives — of which marijuana and hashish are best known— which includes this: "In 1845 a surprisingly accurate description of the effects of hashish was producted by Dr. J. Moreau of Tours, France. His recognition of the relationship between hashish excess and insanity anticipated the results of modern psychological research."

The guide, however, fails to report any such research. Instead, it turns immediately to a claim that "the folklore of marijuana as a 'killer drug'" arose from the efforts of Harry J. Anslinger when he was head of the Federal Bureau of Narcotics.

On page 7, the guide says marijuana use confuses feelings of right and wrong and may cause crimes, and that users "usually have major personality defects and seek escape." On page 8 it says use results in hallucinations and delirium and "chronic exposure produces brain lesions," and on page 9 that drug dependence by marijuana users "is definitely established."

BUT ON PAGES 11, 12 AND 13, the guide does an about-face. It then says marijuana does not lead to mental deterioration, does not cause delinquency, does not lead to use of heroin, that no death attributed to marijuana has ever been established, that it is not used for escape, that overuse merely produces sound sleep, and that it has no anti-social effects.

All these claims are based on "The Marijuana Papers," edited by David Solomon, published this year to resurrect findings of a committee appointed by Mayor Fiorello LaGuardia of New York in the 1930s — a favorite source book of marijuana advocates.

The study guide then notes briefly on page 14 that the American Medical Association branded this book "unscientific, uncritical" and harmful, and advised law enforcement officials to "continue to regard marijuana as a menace." This brief nod is the guide's only recognition of the profession that certainly knows the most about drugs.

WITH SUCH A HODGE-PODGE from which to teach, it is little wonder if teachers confuse rather than enlighten pupils about marijuana.

We suggest the county schools office either put somebody to work to do some genuine research and produce a new study guide, or leave the job to somebody else. The present guide seems more likely to add to the problem than to alleviate it.

The Great Horned Owl

His name is "great" because he is the largest, fiercest and longest-lived of all owls. Many great horned owls live over half a century and one lived in a zoo for 68 years. Ranging in habitation from the Straits of Magellan through the tropical rain forests of South and Central America to the woods of far northern Canada and Alaska, he also makes his home in Marin.

He is called "horned" because of the tufts of feathers which give the appearance of horns. In common with other owls, he has extra neck vertebrae which enable him to turn his head in a 270-degree arc.

If you hear an owl with a call consisting of five deep, monotonous hoots, you can be pretty sure you are hearing Mr. Big Eyes himself.

THREE MINUTES A DAY

HOUSEWIFE UNTANGLES TRAFFIC SNARL

A massive traffic jam on an English highway was skillfully dissolved by a 60-year-old woman.

Distracted from her knitting by the furious honking of horns, she gazed at the tie-up outside her home. She phoned three police stations, but none could spare a man for traffic duty.

So she stepped out into the road and began signaling, first to one car, then to another, for two hours.

"I just waved my arms about," she said, "and things began to move. Some of the lines were a mile long, and the motorists who had been waiting ages thanked me as they passed."

Leadership happens when a person does the intelligent thing at the right moment to meet some urgent human need. Leaders are not born — they are made (or rather they take steps to make themselves, with God's help).

Each of us has distinctive qualities, few or many, that require conscientious development. Discover them, nurture them and you will be ready when your big moment comes.

"Every good endowment and every perfect gift is from above, coming down from the Father."

Recompense Rancher; Don't Kill Eagles

Editor, Independent-Journal:

Which is more valuable to America — a couple of roast legs of lamb in some restaurant freezer, or the knowledge that, a few miles from a great city, some of the last golden eagles alive still soar the blue?

By the time this is in print (if ever) the final chapter may have been written already in the criminally stupid story of the Point Reyes sheep-and-eagle "war" — with the blessing of the U. S. Fish and Wildlife "Service," whose agent could think of nothing better than to issue an immediate permit to a rancher to wipe out the entire remaining eagle population of the area (three birds) because, though binooculars, eagles a mile and a half away were seen eating on the carcass of a lamb.

Not only was this the first and only such report in two years; but I have seen no statement that the rancher even claimed to have seen an eagle actually kill one lamb.

Before writing this, I put in a couple of phone calls Friday night in the hope of starting some action to hold off Leroy Martinelli's shotgun, by paying him, if necessary, for any eagle-slain lambs, until some decent common sense might be brought to bear in this situation.

I don't know whether an eagle killed a lamb or not. I don't know whether Martinelli knows, either. But I do know Loren Parcher, the U. S. agent from Sacramento who so speedily issued the eagle-slaughter ukase, couldn't know. And, even if he could and did, he never should have taken it on himself to issue that clearance. I still boil when I re-read, on Friday's I-J Page One, under the picture of a shot eagle, the rancher's words that Parcher was "real cooperative . . . took one look through the field glasses and handed me the permit. He was surprised at the huge size of one of the eagles." The more glorious the specimen the quicker it must be destroyed; as too, too often, in the history of wildlife.

I spent boyhood with a gun in my hand in the Alaskan Yukon and, half a century ago, spent some years as a predatory animal hunter (gray wolves mostly) for the U. S. Biological Survey, which later became this same Fish and Wildlife Service. That was on the Montana stock range.

There were millions of sheep on those prairies and, in summer, in the high mountains — and thousands of golden eagles with tremendous wings and talons. Yet I never heard of a lamb being killed by an eagle; except that I did hear (but never knew directly) that eagles had been known to pick new-born bighorn sheep off a narrow ledge in the peaks. . .

However, even suppose there may be absolute proof that, under what may be somewhat abnormal life conditions in the area, once every couple of winters a domestic lamb or two (in full health?) may be turned into dinner by one of the last surviving families of this greatest American eagle; still, isn't there some way America can afford to recompense a poor rancher for this great loss in sacred money? Personally, I would be glad to contribute to a standing fund for such purposes. How about it?

AFFAIRS OF STATE

Once-Hot Oath Issue Ended By Court Ruling

By HENRY C. MacARTHUR

SACRAMENTO (CNS) — Another tempest in a teapot has gone with a 6-1 decision of the California Supreme Court that the so-called loyalty oath, approved by the people in 1952 as part of the California Constitution, is unconstitutional.

The loyalty oath was a real, hot issue in politics 15 years ago, and every candidate for office was required at one time or another to state his views concerning it.

Privately, most politicians felt that, while the idea behind the legislation had a lot of merit, the oath would do little if anything toward accomplishing its purpose.

THE OATH required all persons accepting employment with the state to swear or affirm that they "not advocate, nor am I a member of any party or organization that now advocates the overthrow of the government of the United States, or of the state of California, by force or violence or other unlawful means." It continued by requiring the prospective employee to swear he hadn't been a member of such an organization for the previous five years.

The oath was an attempt to keep members of subversive organizations, such as the Communist Party, out of state government.

Its weakness lay in the fact that if a Communist or member of any other subversive organization wanted to get into state government, the loyalty oath would have no effect on detering him, as he would take it anyhow.

Proponents of the oath met this argument with the statement that if an individual was found to have taken the oath, and later shown to be a Communist, he could be prosecuted for swearing falsely. So far, no one ever has been caught and prosecuted, indicating the threat to the state, if any, was minimal.

THE COURT found that persons who join an organization, but do not participate in its unlawful activities, pose no threat to the security of the state and nation, and in addition, that the oath is invalid because it violates rights granted the people by the first amendment to the constitution.

However, in a dissenting opinion, Justice Marshall McComb held the California constitutional provision for taking the oath should be upheld. The justice contended that the court should not disregard the law as laid down by the citizens of California, who with a majority vote, put the oath in the constitution.

Thus, the opinion does little more than bring home again the fact that the state supreme court puts itself above and beyond the will of the people.

When Marshall Plan Aid Saved France

By CARLETON KENT

WASHINGTON — Maybe, as this weary year draws to a close, it is time to consider a new Bundles for Britain program, to come to the aid of the western world's number one loser in 1967.

What a sorry period it has been for the British! They were forced to devalue the pound; and at year's end this drastic move not only had failed to gain the U. K. membership in the European Common Market, but wasn't succeeding in its prime purpose of attracting foreign currency.

Old Blighty was plagued by waves of strikes. Its security-intelligence system was further humiliated by the patronizing revelations of master spy Kim Philby. A nation of beef-eaters has had to endure a hoof-and-mouth epidemic.

BUT THE WINTER of John Bull's discontent is not as grim as what France went through 20 years earlier — in 1947, the year the Marshall Plan was conceived. Except that the French, with their genius for farce, occasionally lightened the gloom with a funny lining.

It was a year when two governments fell. One of three French premiers, Paul Ramadier, won approval of a "save the franc" budget after an all-night debate punctured by howls of "to the gallows" from Communist mobs as cabinet members entered the National Assembly.

It was a great year, 1947, for Communist action around the National Assembly. In March the parliament was disrupted for three straight days with demonstrations and fist fights over charges that the Indo-Chinese revolt the French army was trying to cope with was, of all things, fomented by Communists.

At one point the Communist deputies, nearly a third of the assembly, stormed out when accused of supporting France's enemies (Ho Chi Minh), but then stormed back in again to resume hurling insults.

France suffered a bad drought, which brought on bread rationing in a country accustomed to buying freshly baked bread twice a day. Then the price of bread was doubled. Seventy per cent of French grain for bread came from the United States.

Periodically the nation was semi-paralyzed by strikes. One unit of strikers was a regiment of Vietnamese in the French army.

PROSPECTS for La Belle France never looked lower. Yet in December, 1947, the conservative, Republican-led 80th U. S. Congress approved $597 million in "stop-gap" aid, most of it for France, Italy, and Austria.

It was an earnest of the Marshall Plan funds to come, from 1949 to 1952 — $15 billion in all, and $3.5 billion of it for France, all but six per cent of it in outright grants.

It was fortunate for France that it never seriously occurred to Washington to say that she didn't qualify for help because her economy was in poor shape — as Paris told London a generation later.

In those days only the Communists were against the U. S. decision to help reconstruct Europe. And a case could be made for the contention that had it not been for the Marshall Plan there wouldn't have been much of France left for De Gaulle to rise to power in over a decade later.

In 1497 even General de Gaulle agreed that American aid was essential to the reconstruction of Europe, although he added that it should be extended through "a treaty, not a bargain."

The American viewpoint then was that the "bargain" was a simple one: the gift of dollars would quickly stabilize Europe. The Communists were alone in calling the Marshall Plan "Yankee imperialism" in 1947. De Gaulle only came to that position later.

Prisoner Talks Linked To Pause In Bombing

By PAUL SCOTT

WASHINGTON — Hanoi is using captured U. S. pilots as bait to try to get the U. S. to halt its stepped-up bombing of North Vietnam.

The North Vietnamese are offering to open talks on an exchange of prisoners if the U. S. will suspend its air attacks during the negotiations.

The surprise Communist feeler, which carries no assurance that any of the more than 400 U.S. prisoners will be released, was made to Ambassador-at-Large W. Averell Harriman during his recent talks with Romanian Communist Party leader, Nicolae Ceausescu.

Hanoi's proposal was the Communists' answer to one last May by the U. S. to exchange captured North Vietnamese sailors for American airmen.

The sailors involved were rescued from the Tonkin Gulf after three North Vietnamese navy torpedo boats were sunk by planes and warships of the Seventh U. S. Fleet. Nineteen Communist sailors, including officers, were taken prisoner.

So far, U. S. officials have neither accepted nor rejected Hanoi's offer.

LATEST U. S. intelligence reports from Saigon indicate U. S. bombing is beginning to disrupt North Vietnam's economy. The intensified air attacks have so damaged Hanoi's transportation facilities that food and fuel shortages are beginning to occur in major cities.

A continuation of the raids at the present level, according to a CIA estimate, should within the next three months completely disrupt North Vietnam's entire transportation system.

OTHER U. S. PRISONERS — Dictator Fidel Castro is flatly refusing to negotiate the release of at least 20 Americans being held as "political prisoners" in Cuba, according to a State Department memorandum to the House judiciary subcommittee on immigration.

Despite two years of persistent efforts by the Swiss — who represent the U. S. in Havana — these Americans, two of them women, are still being held. Several of them, jailed since the Bay of Pigs fiasco, don't even have charges filed against them. One, accused of being a CIA agent, was murdered in prison recently.

Some of these prisoners reportedly are incarcerated in the worst cells of Cuba's dungeon-like La Cabana prison and Principe prison in Havana, and on the Isle of Pines.

FREEING THE OPPRESSED — Since 1964, the West German government has ransomed more than 1,000 persons from Communist East Germany.

Minimum price paid for each person in this unpublicized program is $10,000. For well-known figures — doctors, professors and others — Bonn has paid up to $25,000.

At first, the prisoners were ransomed partly for butter, citrus fruits, and other commodities. For the past three years, however, the exchange has been strictly for cash.

SERVING ALL OF MARIN COUNTY

18 EDITORIAL PAGE San Rafael, Calif. Thursday, Dec. 28, 1967

TODAY'S EDITORIAL

School Guides Confuse Study Of Marijuana

Judging from their remarks in public and private, Marin's youth are considerably confused about marijuana.

Judging from the growing record of arrests, an increasing number of them are experimenting with the "loco weed" — in part, no doubt, because they are confused and want to "find out for themselves."

And judging from the study guides published by the Marin County schools office for use in instructing the youngsters, there is plenty of reason for their confusion.

THE COUNTY SCHOOLS office last summer put on a "crash program" to try to make sure that Marin's schools taught about drug dangers. It produced "Drug Instructional Use Guides" for seventh and eighth grades and for high schools.

The seventh-eighth grade guide treats marijuana quite quickly, in two pages. It informs the teacher (who is to inform the pupils) that most drug addicts "received their first start by smoking marijuana." It says marijuana use brings on hallucinations, delirium, and restless sleep, and declares: "Death may follow respiratory failure for some individuals."

THE GUIDE FOR HIGH SCHOOLS, however, is another matter.

It opens with a historical resume of the hemp derivatives — of which marijuana and hashish are best known— which includes this: "In 1845 a surprisingly accurate description of the effects of hashish was producted by Dr. J. Moreau of Tours, France. His recognition of the relationship between hashish excess and insanity anticipated the results of modern psychological research."

The guide, however, fails to report any such research. Instead, it turns immediately to a claim that "the folklore of marijuana as a 'killer drug' " arose from the efforts of Harry J. Anslinger when he was head of the Federal Bureau of Narcotics.

On page 7, the guide says marijuana use confuses feelings of right and wrong and may cause crimes, and that users "usually have major personality defects and seek escape." On page 8 it says use results in hallucinations and delirium and "chronic exposure produces brain lesions," and on page 9 that drug dependence by marijuana users "is definitely established."

BUT ON PAGES 11, 12 AND 13, the guide does an about-face. It then says marijuana does not lead to mental deterioration, does not cause delinquency, does not lead to use of heroin, that no death attributed to marijuana has ever been established, that it is not used for escape, that overuse merely produces sound sleep, and that it has no anti-social effects.

All these claims are based on "The Marijuana Papers," edited by David Solomon, published this year to resurrect findings of a committee appointed by Mayor Fiorello LaGuardia of New York in the 1930s — a favorite source book of marijuana advocates.

The study guide then notes briefly on page 14 that the American Medical Association branded this book "unscientific, uncritical" and harmful, and advised law enforcement officials to "continue to regard marijuana as a menace." This brief nod is the guide's only recognition of the profession that certainly knows the most about drugs.

WITH SUCH A HODGE-PODGE from which to teach, it is little wonder if teachers confuse rather than enlighten pupils about marijuana.

We suggest the county schools office either put somebody to work to do some genuine research and produce a new study guide, or leave the job to somebody else. The present guide seems more likely to add to the problem than to alleviate it.

The Great Horned Owl

His name is "great" because he is the largest, fiercest and longest-lived of all owls. Many great horned owls live over half a century and one lived in a zoo for 68 years. Ranging in habitation from the Straits of Magellan through the tropical rain forests of South and Central America to the woods of far northern Canada and Alaska, he also makes his home in Marin.

He is called "horned" because of the tufts of feathers which give the appearance of horns. In common with other owls, he has extra neck vertebrae which enable him to turn his head in a 270-degree arc.

If you hear an owl with a call consisting of five deep, monotonous hoots, you can be pretty sure you are hearing Mr. Big Eyes himself.

THREE MINUTES A DAY

HOUSEWIFE UNTANGLES TRAFFIC SNARL

A massive traffic jam on an English highway was skillfully dissolved by a 60-year-old woman.

Distracted from her knitting by the furious honking of horns, she gazed at the tie-up outside her home. She phoned three police stations, but none could spare a man for traffic duty.

So she stepped out into the road and began signaling, first to one car, then to another, for two hours.

"I just waved my arms about," she said, "and things began to move. Some of the lines were a mile long, and the motorists who had been waiting ages thanked me as they passed."

Leadership happens when a person does the intelligent thing at the right moment to meet some urgent human need. Leaders are not born — they are made (or rather they take steps to make themselves, with God's help).

Each of us has distinctive qualities, few or many, that require conscientious development. Discover them, nurture them and you will be ready when your big moment comes.

"Every good endowment and every perfect gift is from above, coming down from the Father."

Neighboring Housewives Unsure About Filled-Land Park Plan

What do East Corte Madera housewives think of having a lush 250-acre park in their back yards?

Quite a few of them don't, actually. Don't think about it, I mean. A surprising number reached by telephone weren't aware or were only vaguely aware at this early stage of the suggestion by Pierre W. Joske, county director of recreation and parks, that the park — with golf course, marina and beach frontage — could be had on marshlands north of San Clemente Creek.

For those who have considered it, a main objection seems to be one Joske has well anticipated: It would be a fill-in project and any way you cut it, that means unpleasant odors for a period of time.

JOSKE, who has already presented the project to Corte Madera town fathers and is engaged in a methodical presentation to homeowners associations and others in the area, has not ignored the smell factor. But refuse dumping sites don't have to be obnoxious, he added. Much of the odor will be carried out east over the bay.

Too, an active dirt-topping program to minimize the remaining odor can be employed.

Mrs. Herber C. Leney of 318 Golden Hind Passage, which would be on the southern edge of the park, isn't convinced by this. "I think most of the people in the area are opposed to the park because of the odor and appearance," said she. "And as far as a park is concerned, it will be something like 15 to 20 years (before it's completed). Many of us might not be here to reap the benefits."

Mrs. Leney conceded land values might increase on completion of such a park, but added, "I think they might decrease, too, while it's being built."

She said perhaps the park should be in some more isolated place like in West Marin. But admitted this would not be a central location, one of Joske's hopes.

Joske has said if central Marin alone conducts the dumping, the fill-in would be completed in 17 years. If South Marin joins in, he added, the fill-in should be finished in 11 years, with the first 60 acres finished in about four years.

MRS. WILLIAM L. Ferrerro of 1 Baja Court liked the park idea and no street is more fronting of the proposed park than hers. "Basically, my husband and I are enthusiastic," said she. She admitted this includes the possibility that a park would hike property values, but added, "I supppose it would increase taxes, too."

Mrs. Ferrerro reckoned another advantage might be the opening of another access road to her area. Her family now must travel onto Paradise Drive from Highway 101, then onto Harbor Drive, Yolo Street and Channel Drive before reaching Baja Court. Joske's sketch of the project shows a tentative extension of Tamalpais Drive and yet another access road toward the northern end of the park.

As to the odor, Mrs. Ferrerro said, "For a short time, I could stand it . . . as far as the park, per se, I'm thrilled to death because I have young children."

For one thing, she said, the marshlands now are often "gluey" with mud, and a park might eliminate that for hiking children.

A neighbor slightly to the south, Mrs. Leonard E. Swipes of 48 Echo Avenue, also thinks she could tolerate a little fill-in odor if it results in a nice park.

"I would prefer this (a park) to any airport or heliport or other things that have been discussed for going in there," she said.

Pleas Differ By Operators Of Studio

One operator of a photographic studio in San Rafael pleaded guilty and the other innocent yesterday in court to charges resulting from operation of the studio when it was located in Santa Rosa.

Pacific Studios, at 1203 Third Street, San Rafael, was operated in Santa Rosa by Philip G. Williams, 40, of Sacramento, and Ronald R. Lopez, 31, of Oakland. They were arrested Dec. 15 in San Rafael.

Lopez pleaded guilty in Sonoma County Municipal Court yesterday to a charge of ignoring a subpoena issued by a deputy labor commissioner who was questioning him about operation of the studio in San Rafael and Santa Rosa.

He is scheduled for a probation hearing Jan. 24.

Williams pleaded innocent to eight counts of issuing bad checks to employees and to a charge of selling portraits over the telphone with misleading information.

He is scheduled for jury trial Jan. 30 in the Sonoma court.

City Workers Get Time Off

The New Year will start a little earlier for most of the city employees in Mill Valley, Fairfax and Corte Madera.

These will be the favored few who will clear up their desks about noon Friday for the holiday. But a skeleton crew will remain behind in the offices of all three communities to man the phone and answer queries.

As for employees in the remaining eight cities . . . it will be work as usual until the normal quitting time. This goes for county employees at the Civic Center, too.

Here's The Easy Way For LBJ: Just Announce He's Not Running

WASHINGTON — President Johnson indicated the other evening in his fireside chat that he's going to run hard in 1968 to recoup his popularity, which with every public opinion poll seems to be going down.

A large staff is already preparing for his campaign and the president has urged anyone who has a good idea to speak up.

THE OTHER DAY, one of the president's trusted political advisers came up with the most revolutionary plan to date.

"Mr. President," he said, "I've been studying the polls and they seem to be taking on a pattern."

"You're damn right, and the pattern's against me."

"But wait! The two leading candidates for the presidency in the political polls are Sen. Robert Kennedy and Gov. Nelson Rockefeller. The question we must address ourselves to is why?"

"Ah'll tell you why. Cause Ah'm doing all the work, and they're doing all the griping."

"PERHAPS SO. But the scientific reason is that both men have formally announced that they will not be presidential candidates in 1968."

"If you'll notice this graph, it shows that as soon as the American people hear a candidate is going to run for office, his popularity goes down; but as soon as a candidate announces that he doesn't want to run for office, his popularity soars."

"What are you driving at?"

"Mr. President, I think you should announce in your State of the Union speech that you will not run again for the presidency in 1968."

"You must be out of your cotton-pickin' mind," the president said.

"Think before you speak. When you announce this on nationwide television, your popularity will reach new heights. You'll lead every poll in the country. There will be demonstrations in the streets, people will tear their clothes and wail. They'll be screaming in front of the White House, 'Johnson! Johnson! Johnson!' Schools will close, factory workers will leave their jobs, students who are lying down in front of draft boards will sit up. The country will be in a frenzy."

"Ah must admit Ah like the picture you paint. But will it work?"

"IT WORKED FOR President Nasser," the adviser said.

"Ah knew the whole thing had a familiar ring to it. But it's risky. After all, the United States is not Egypt."

"That's not the point, Mr. President. As soon as you announce that you're not going to be a candidate in 1968, Bobby Kennedy will announce that he is a candidate. And as soon as he announces it, his popularity will start slipping while yours will be going up. There will be Dump Kennedy movements all over the country, and everyone will be begging you to accept a draft."

"Ah reckon it makes sense, and Ah think Ah might buy it. But Ah've got one problem."

"What's that, sir?"

"How do Ah break the news to Hubert?"

Neighboring Housewives Unsure About Filled-Land Park Plan

What do East Corte Madera housewives think of having a lush 250-acre park in their back yards?

Quite a few of them don't, actually. Don't think about it, I mean. A surprising number reached by telephone weren't aware or were only vaguely aware at this early stage of the suggestion by Pierre W. Joske, county director of recreation and parks, that the park — with golf course, marina and beach frontage — could be had on marshlands north of San Clemente Creek.

For those who have considered it, a main objection seems to be one Joske has well anticipated: It would be a fill-in project and any way you cut it, that means unpleasant odors for a period of time.

JOSKE, who has already presented the project to Corte Madera town fathers and is engaged in a methodical presentation to homeowners associations and others in the area, has not ignored the smell factor. But refuse dumping sites don't have to be obnoxious, he added. Much of the odor will be carried out east over the bay.

Too, an active dirt-topping program to minimize the remaining odor can be employed.

Mrs. Herber C. Leney of 318 Golden Hind Passage, which would be on the southern edge of the park, isn't convinced by this. "I think most of the people in the area are opposed to the park because of the odor and appearance," said she. "And as far as a park is concerned, it will be something like 15 to 20 years (before it's completed). Many of us might not be here to reap the benefits."

Mrs. Leney conceded land values might increase on completion of such a park, but added, "I think they might decrease, too, while it's being built."

She said perhaps the park should be in some more isolated place like in West Marin. But admitted this would not be a central location, one of Joske's hopes.

Joske has said if central Marin alone conducts the dumping, the fill-in would be completed in 17 years. If South Marin joins in, he added, the fill-in should be finished in 11 years, with the first 60 acres finished in about four years.

MRS. WILLIAM L. Ferrerro of 1 Baja Court liked the park idea and no street is more fronting of the proposed park than hers. "Basically, my husband and I are enthusiastic," said she. Today is Thursday, Dec. 28, the 362nd day of 1967 with three to follow.

The moon is between its last quarter and new phase. The morning stars are Venus and Jupiter. The evening stars are Mars and Saturn.

On this day in history:

In 1869, members of the Knights of Labor observed the first Labor Day in American history.

In 1869, chewing gum was patented by William Semple of Mount Vernon, Ohio.

In 1945, Congress officially recognized the "Pledge of Allegiance" to the flag.

In 1966, Red China touched off its fifth atomic device.

A thought for the day—British Professor John Tyndall once said, "It is as fatal as it is cowardly to blink facts because they are not to our taste."

TIME AND TIDE

Department of Commerce, United States Coast Geodetic Survey. Times and heights of tides at San Francisco (Golden Gate):

The column of heights gives the elevation in feet of each tide above or below the plane of Coast Survey chart soundings. The depths are always additive to the chart depths unless preceded by a minus sign (-), when the numbers are subtracted from the depth given in the chart. Light-face type indicates a.m. times; **bold-face type** indicates p.m. times.

CLUB LEAD

When West led the 10 of clubs South took the trouble to look for a reason. South felt sure that East held the king of clubs since West wouldn't go out of his way to pick a dangerous lead when he surely had an acceptable "passive" lead in diamonds.

South also felt confident that West had the ace of spades. Otherwise West would have had a more attractive spade lead.

Warned that the cards were probably in unfavorable position declarer stepped up with the ace of clubs, ruffed a club, took the top diamonds and ruffed another club. South continued by ruffing a diamond in dummy, ruffed dummy's last club with the king of hearts, cashed the ace of hearts and led his last diamond.

DISCARDS SPADE

South had already taken the first eight tricks, and West could not gain by ruffing in with the queen of hearts. Dummy would discard a spade and then take two more tricks with the jack and 10 of trumps.

When West, perforce, discarded the eight of spades, declarer ruffed in dummy with the 10 of hearts and returned the jack of hearts from dummy.

GOOD HEART

West could take the queen of hearts, and then his five of hearts was also good. But West had to lead away from the ace of spades, and South's king of spades thus scored the game and rubber.

Pigeons Said Health Hazard

ST. LOUIS (UPI)—Your town bothered by pigeons? Dr. Val Jonsson, deputy health commissioner of St. Louis, thinks persons who feed pigeons are foolish. It's a health hazard, he says.

Jonsson during his free time collects pigeon-droppings for health tests. He has been able to isolate what he describes as a dangerous fungus which causes "crypto," or croptococcosis, an infection involving lungs and central nervous system. He says there is another disease spread in the air by pigeons—histoplasmosis, sometimes passed off as summer flu.

Today is Thursday, Dec. 28, the 362nd day of 1967 with three to follow.

The moon is between its last quarter and new phase. The morning stars are Venus and Jupiter. The evening stars are Mars and Saturn.

On this day in history:

In 1869, members of the Knights of Labor observed the first Labor Day in American history.

In 1869, chewing gum was patented by William Semple of Mount Vernon, Ohio.

In 1945, Congress officially recognized the "Pledge of Allegiance" to the flag.

In 1966, Red China touched off its fifth atomic device.

A thought for the day—British Professor John Tyndall once said, "It is as fatal as it is cowardly to blink facts because they are not to our taste."

TIME AND TIDE

Department of Commerce, United States Coast Geodetic Survey. Times and heights of tides at San Francisco (Golden Gate):

The column of heights gives the elevation in feet of each tide above or below the plane of Coast Survey chart soundings. The depths are always additive to the chart depths unless preceded by a minus sign (-), when the numbers are subtracted from the depth given in the chart. Light-face type indicates a.m. times; **bold-face type** indicates p.m. times.

Credit Opponent With Good Sence If Unbid Suit Is Not First Lead

You usually lead an unbid suit when you have no bid from your partner to guide you. Credit your opponents with the same good sense, and if an opponent fails to lead an unbid suit look for a good reason.

CLUB LEAD

When West led the 10 of clubs South took the trouble to look for a reason. South felt sure that East held the king of clubs since West wouldn't go out of his way to pick a dangerous lead when he surely had an acceptable "passive" lead in diamonds.

South also felt confident that West had the ace of spades. Otherwise West would have had a more attractive spade lead.

Warned that the cards were probably in unfavorable position declarer stepped up with the ace of clubs, ruffed a club, took the top diamonds and ruffed another club. South continued by ruffing a diamond in dummy, ruffed dummy's last club with the king of hearts, cashed the ace of hearts and led his last diamond.

DISCARDS SPADE

South had already taken the first eight tricks, and West could not gain by ruffing in with the queen of hearts. Dummy would discard a spade and then take two more tricks with the jack and 10 of trumps.

When West, perforce, discarded the eight of spades, declarer ruffed in dummy with the 10 of hearts and returned the jack of hearts from dummy.

GOOD HEART

West could take the queen of hearts, and then his five of hearts was also good. But West had to lead away from the ace of spades, and South's king of spades thus scored the game and rubber.

60—Sonoma County HOMES—LAND—RANCHES

Petaluma

LUXURY LIVING BEGINS AT EAST PARK

35 miles & 35 minutes from San Francisco

$19,950 to $24,950

Now, wondrous, picturesque Southern Sonoma County can be your home for less than $20,000.

"It's true! . . . and it's less than 45 minutes from most places in Marin County and San Francisco — exactly 35 miles from THE SAN FRANCISCO TOLL PLAZA."

What kind of homes are these? Well, they'd sell for $28,000 in Marin County. They're loaded with items such as full Westinghouse electric kitchens with dishwasher, range, oven, hood, fan & light . . . food waste disposer, too. Master bedroom suites with private baths, formal living rooms & separate family rooms, 220 wired laundry areas, ceiling-height wardrobe closets, perimeter heating, two car garages.

These are level lots, with NO BONDS OR ASSESSMENTS. Shopping centers are close at hand. Your children attend Petaluma schools, and there's the wonderful world of recreation for the asking. Fishing, hunting, sailing, hiking: Everything . . . almost at your door.

No Down GI . . . From $950 Down FHA

DIRECTIONS: Take Hwy. 101 to Petaluma's Washington St. exit, right on Washington 2 blocks to EAST PARK HOMES (at orange & white flags). OPEN 6 DAYS A WEEK 10-5. (CLOSED TUESDAY) 707-763-4244.

LUXURY LIVING BEGINS AT EAST PARK

35 miles & 35 minutes from San Francisco

$19,950 to $24,950

Now, wondrous, picturesque Southern Sonoma County can be your home for less than $20,000.

"It's true! . . . and it's less than 45 minutes from most places in Marin County and San Francisco — exactly 35 miles from THE SAN FRANCISCO TOLL PLAZA."

What kind of homes are these? Well, they'd sell for $28,000 in Marin County. They're loaded with items such as full Westinghouse electric kitchens with dishwasher, range, oven, hood, fan & light . . . food waste disposer, too. Master bedroom suites with private baths, formal living rooms & separate family rooms, 220 wired laundry areas, ceiling-height wardrobe closets, perimeter heating, two car garages.

These are level lots, with NO BONDS OR ASSESSMENTS. Shopping centers are close at hand. Your children attend Petaluma schools, and there's the wonderful world of recreation for the asking. Fishing, hunting, sailing, hiking: Everything . . . almost at your door.

No Down GI . . . From $950 Down FHA

DIRECTIONS: Take Hwy. 101 to Petaluma's Washington St. exit, right on Washington 2 blocks to EAST PARK HOMES (at orange & white flags). OPEN 6 DAYS A WEEK 10-5. (CLOSED TUESDAY) 707-763-4244.

CREAMPUFF '67 BUICK SKYLARK GS 400 2-DR. HARDTOP $3100

Local couple trades their one-year old Buick Skylark Gran Sport 400 2-Dr. hardtop every year as soon as the new Buicks hit the street. This year was no exception so we are offering the closest-to-new '67 Buick in the Bay Area.

This spotless Skylark has only 7,000 miles. Artic white with black vinyl top and black bucket seats with console. Automatic, radio, heater, ww tires, chrome wheels, and all the Skylark GS 400 extras.

Sold new for over $4400 and we will sell for only $3100 and continue the original GM factory guarantee which is 50,000 miles or 5 years.

TO LEWIS J. WORKMAN:

Upon reading the declaration of David M. Bridges and good cause appearing therefor:

It is hereby ordered that you, Lewis J. Workman, appear at the Courtroom of Department 16 of the above-entitled Court at City Hall, 400 Van Ness Avenue, in the City and County of San Francisco, on December 15, 1967, at 9:30 a.m. of said day, then and there to show cause, if any you have, why an order should not be made adjudging you to be in contempt and punished therefor for your refusal to obey the subpoena duces tecum issued out of and by the Clerk of the above-entitled Court and served on you on April 17, 1967, commanding you to attend the taking of your deposition, as continued to November 2, 1967.

You are further ordered to show cause at said time and place why you should not pay to plaintiffs reasonable expenses and attorneys' fees incurred by said plaintiffs in obtaining the order adjudging you in contempt as set forth herein and in the declaration of David M. Bridges filed herein in support of this order to show cause.

IT IS FURTHER ORDERED that the service of this order to show cause and a copy of the said declaration of David M. Bridges be made on said Lewis J. Workman at least five days before the said date and time set for this hearing for order to show cause.

HOW TO KEEP WELL

By DR. THEODORE R. VAN DELLEN

Human Growth Hormone Has No Effect On African Pigmy Size

VAN DELLEN

A human growth hormone (HGH) is manufactured by the pituitary gland deep in the skull. An inadequate amount may doom the individual to dwarfism. Too much may result in giantism. The relationship between this hormone and growth brings up a question about the African pygmy.

Is he tiny because he lacks HGH or is his short stature a hereditary trait?

PHYSICIANS from Johns Hopkins University school of medicine visited a pygmy colony along the border of the Republim of the Congo. Tests were conducted on 22 of these Africans. It was found that these people had no deficiency of HGH. The researchers concluded that pygmies inherited genes that made their tissues resistant to the action of the growth hormone.

Pygmies are among the oldest inhabitants of Africa and are racially distinct from their neighbors, the Bantu Negro. In addition to their lighter skin and hair which has a reddish tinge, many other anthropometric differences are noted. Physically, these people are perfectly formed, in contrast to other types of dwarfs.

HGH increases height and promotes growth in all children, but only so long as the body is capable of growing.

MAXIMUM height is reached at age 6 to 18 in girls, and 18 to 20 in boys, because at this time the growth centers are closed. X-rays of the bones will reveal whether further growth activity can be anicipated.

The major drawback to pure HGH is its limited supply. Human cadavers are the only source and one gland yields enough material to treat one pituitary dwort for about a week. At the present time, we have no substitutes for HGH.

ANIMAL pituitary extracts are similar, but cannot stimulate growth.

(Dr. Van Dellen will answer questions on medical topics if stamped, self-addressed envelope accompanies request to the I-J.)

BLACKHEADS

S. N. writes: I am 9 years old and my mother nags me about the blackheads on my nose. Our family doctor says that it is nothing. Who is right?

REPLY

Both are right. Blackheads are not serious but you should clean your face thoroughly and frequently. Washing removes the oils and clears plugged oil glands, keeping blackheads to a minimum. Certain foods may aggravate the condition. Meanwhile get plenty of sleep and outdoor activity.

NECK SAG

E. H. writes: After losing 40 pounds, on a reducing diet, I have wattles on my neck. The skin on my body is not too flabby. Is surgery the only way to get rid of the hanging flesh on the neck?

REPLY

With time, some shrinkage will occur; but surgery is the only effective way to eliminate the folds.

CORNEAL ULCERS

A reader writes: What can I do about ulcers of the eye? I have one on the left eye which is very sore.

REPLY

Corneal ulcers are too serious a condition to be handled via newspaper medicine. These lesions require the expert care of an ophthalmologist to promote healing and prevent scar formation.

VEINS IN HANDS

Mr. E. writes: What causes prominent veins in the hands of a 19-year-old man?

REPLY

This situation is not uncommon in men who are thin; especially those who have done manual labor or engage in athletics.

Ax Hacking Death Suspect Booked; Condition Critical

LOS ANGELES (AP)—Daniel W. Shepherd, taken into custody after his younger brother was hacked to death with an ax, was in the prison ward of General Hospital today.

Shepherd, 40, was hospitalized in a coma and in critical condition yesterday after Imperial County sheriff's deputies said they stopped his car near Westmoreland and found the bloody body of his brother, Gordon Raymond Shepherd, 34.

Shepherd was booked on suspicion of murder.

The two brothers lived together in Baldwin Park.

Doctors said the older brother had taken an overdose of drugs before his apprehension and fell unconscious when tackled by deputies as he fled from the car. An empty drug bottle was reportedly found in the car.

Daniel Shepherd, listed by police as unemployed, was brought in critical condition to Los Angeles. Doctors said early today his condition had improved.

Police said the body of Gordon Shepherd, a pharmacist, was found clad only in a T-shirt and wrapped in a blanket. They said a bloody ax was found in the car trunk.

The brothers' father, Los Angeles pharmacist Ernest Shepherd, reported them missing early yesterday after finding blood and other signs of a fight in the bungalow the two shared behind their parents' house.

The car was spotted in Imperial County, south of the Salton Sea, by border patrolmen who had received a statewide all-points bulletin.

Police at Baldwin Park, 20 miles east of Los Angeles, said bloodstains on the victim's bedroom wall indicated someone had stood over the body and struck it with an ax.

The father said the brothers had watched television Tuesday evening in their parents' home.

Plea Of Guilty To Cell Damages

Wallace Blocker Jr., 22, of Richmond, pleaded guilty in Marin Municipal Court yesterday to a misdemeanor charge of damaging the Sausalito police department's holding cell Sept. 30.

Charges of reckless driving and resisting policemen that day were dismissed at the request of the district attorney's office.

Blocker is to appear in court Jan. 12 for sentencing.

Freedom Asked For Coppolino

LAKELAND, Fla. (UPI)—A motion to overturn the second degree murder conviction of Dr. Carl Coppolino was filed with the Second District Court of Appeals here yesterday.

Criminal lawyer F. Lee Bailey filed the eight-point appeal brief on grounds ranging from denial of a speedy trial to improper introduction of testimony.

Coppolino is serving a life sentence in Raiford prison after being convicted May 4 of the injection poisoning of his first wife, Carmella, at their Longboat Key home near Sarasota.

Human Growth Hormone Has No Effect On African Pigmy Size

VAN DELLEN

A human growth hormone (HGH) is manufactured by the pituitary gland deep in the skull. An inadequate amount may doom the individual to dwarfism. Too much may result in giantism. The relationship between this hormone and growth brings up a question about the African pygmy.

Is he tiny because he lacks HGH or is his short stature a hereditary trait?

PHYSICIANS from Johns Hopkins University school of medicine visited a pygmy colony along the border of the Republim of the Congo. Tests were conducted on 22 of these Africans. It was found that these people had no deficiency of HGH. The researchers concluded that pygmies inherited genes that made their tissues resistant to the action of the growth hormone.

Pygmies are among the oldest inhabitants of Africa and are racially distinct from their neighbors, the Bantu Negro. In addition to their lighter skin and hair which has a reddish tinge, many other anthropometric differences are noted. Physically, these people are perfectly formed, in contrast to other types of dwarfs.

HGH increases height and promotes growth in all children, but only so long as the body is capable of growing.

MAXIMUM height is reached at age 6 to 18 in girls, and 18 to 20 in boys, because at this time the growth centers are closed. X-rays of the bones will reveal whether further growth activity can be anicipated.

The major drawback to pure HGH is its limited supply. Human cadavers are the only source and one gland yields enough material to treat one pituitary dwarf for about a week. At the present time, we have no substitutes for HGH.

ANIMAL pituitary extracts are similar, but cannot stimulate growth.

BLACKHEADS

S. N. writes: I am 9 years old and my mother nags me about the blackheads on my nose. Our family doctor says that it is nothing. Who is right?

REPLY

Both are right. Blackheads are not serious but you should clean your face thoroughly and frequently. Washing removes the oils and clears plugged oil glands, keeping blackheads to a minimum. Certain foods may aggravate the condition. Meanwhile get plenty of sleep and outdoor activity.

NECK SAG

E. H. writes: After losing 40 pounds, on a reducing diet, I have wattles on my neck. The skin on my body is not too flabby. Is surgery the only way to get rid of the hanging flesh on the neck?

REPLY

With time, some shrinkage will occur; but surgery is the only effective way to eliminate the folds.

CORNEAL ULCERS

A reader writes: What can I do about ulcers of the eye? I have one on the left eye which is very sore.

REPLY

Corneal ulcers are too serious a condition to be handled via newspaper medicine. These lesions require the expert care of an ophthalmologist to promote healing and prevent scar formation.

VEINS IN HANDS

Mr. E. writes: What causes prominent veins in the hands of a 19-year-old man?

REPLY

This situation is not uncommon in men who are thin; especially those who have done manual labor or engage in athletics.

Ax Hacking Death Suspect Booked; Condition Critical

LOS ANGELES (AP)—Daniel W. Shepherd, taken into custody after his younger brother was hacked to death with an ax, was in the prison ward of General Hospital today.

Shepherd, 40, was hospitalized in a coma and in critical condition yesterday after Imperial County sheriff's deputies said they stopped his car near Westmoreland and found the bloody body of his brother, Gordon Raymond Shepherd, 34.

Shepherd was booked on suspicion of murder.

The two brothers lived together in Baldwin Park.

Doctors said the older brother had taken an overdose of drugs before his apprehension and fell unconscious when tackled by deputies as he fled from the car. An empty drug bottle was reportedly found in the car.

Daniel Shepherd, listed by police as unemployed, was brought in critical condition to Los Angeles. Doctors said early today his condition had improved.

Police said the body of Gordon Shepherd, a pharmacist, was found clad only in a T-shirt and wrapped in a blanket. They said a bloody ax was found in the car trunk.

The brothers' father, Los Angeles pharmacist Ernest Shepherd, reported them missing early yesterday after finding blood and other signs of a fight in the bungalow the two shared behind their parents' house.

The car was spotted in Imperial County, south of the Salton Sea, by border patrolmen who had received a statewide all-points bulletin.

Police at Baldwin Park, 20 miles east of Los Angeles, said bloodstains on the victim's bedroom wall indicated someone had stood over the body and struck it with an ax.

The father said the brothers had watched television Tuesday evening in their parents' home.

Plea Of Guilty To Cell Damages

Wallace Blocker Jr., 22, of Richmond, pleaded guilty in Marin Municipal Court yesterday to a misdemeanor charge of damaging the Sausalito police department's holding cell Sept. 30.

Charges of reckless driving and resisting policemen that day were dismissed at the request of the district attorney's office.

Blocker is to appear in court Jan. 12 for sentencing.

Freedom Asked For Coppolino

LAKELAND, Fla. (UPI)—A motion to overturn the second degree murder conviction of Dr. Carl Coppolino was filed with the Second District Court of Appeals here yesterday.

Criminal lawyer F. Lee Bailey filed the eight-point appeal brief on grounds ranging from denial of a speedy trial to improper introduction of testimony.

Coppolino is serving a life sentence in Raiford prison after being convicted May 4 of the injection poisoning of his first wife, Carmella, at their Longboat Key home near Sarasota.

WINTER CARNIVAL

Take one part rodeo, one part ski match, a dash of jousting and mix it all with high spirits and cold feet. The result is Steamboat Springs' winter carnival which each year attracts hundreds to the Colorado resort town.

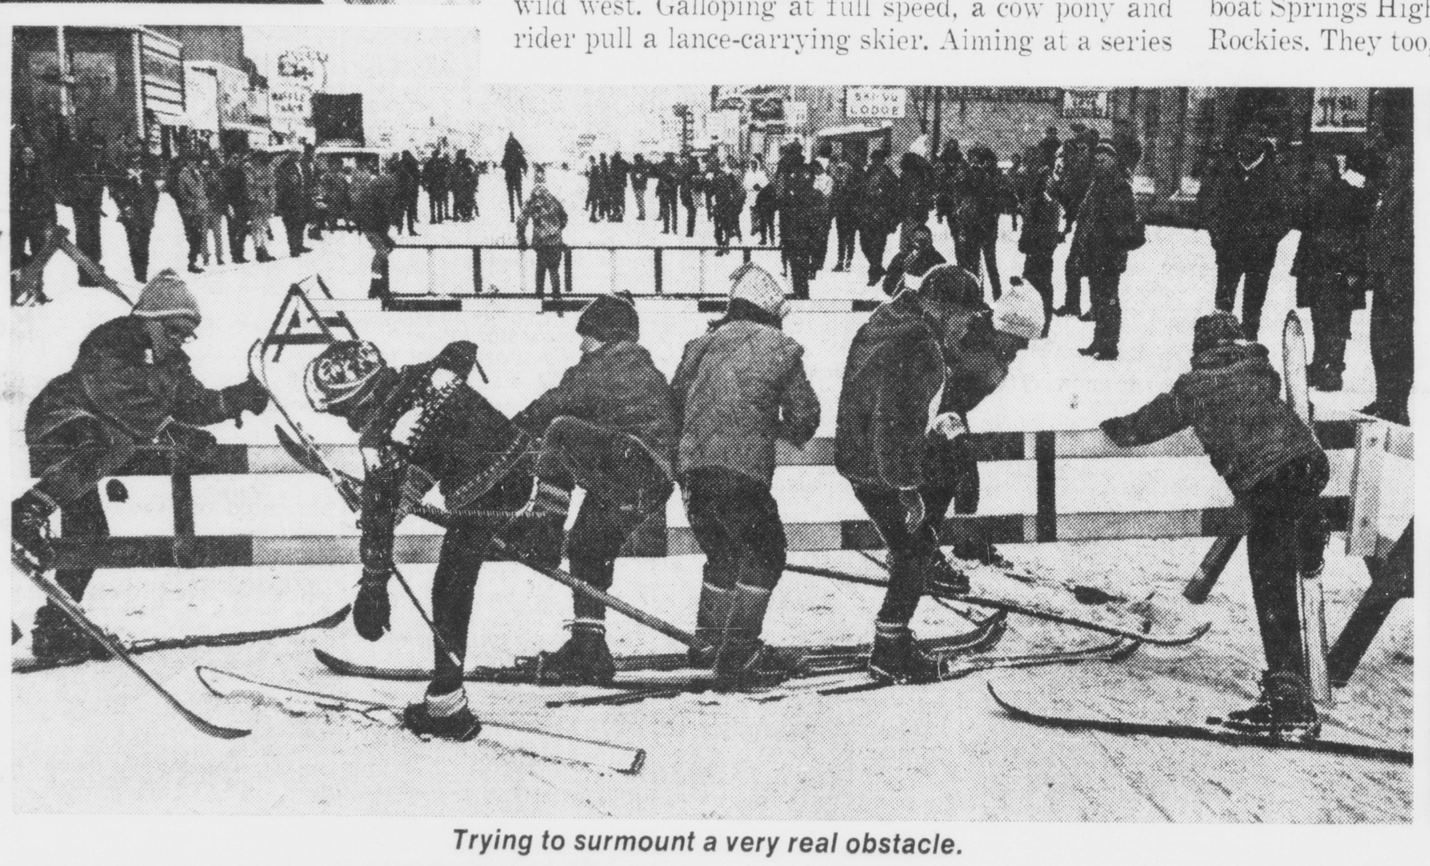
Almost every event is held on skis. There are three-legged, two-legged and even one-legged races for skiers wounded in action.

The most exciting matches combine skiing with the wild west. Galloping at full speed, a cow pony and rider pull a lance-carrying skier. Aiming at a series of five rings, he tries to spear them all in the quickest possible time. Horsedrawn ski races and horsedrawn ski jumping are other contests not for the faint hearted.

During the carnival, boat lovers play water polo in the natural hot springs which gave the town its name. Very hardy souls take off in their "Ski-Doos", a steerable soapbox on skis, racing down a bumpy course to the finish.

And every now and then music played by the Steamboat Springs High School Band resounds through the Rockies. They too, of course, are on skis.

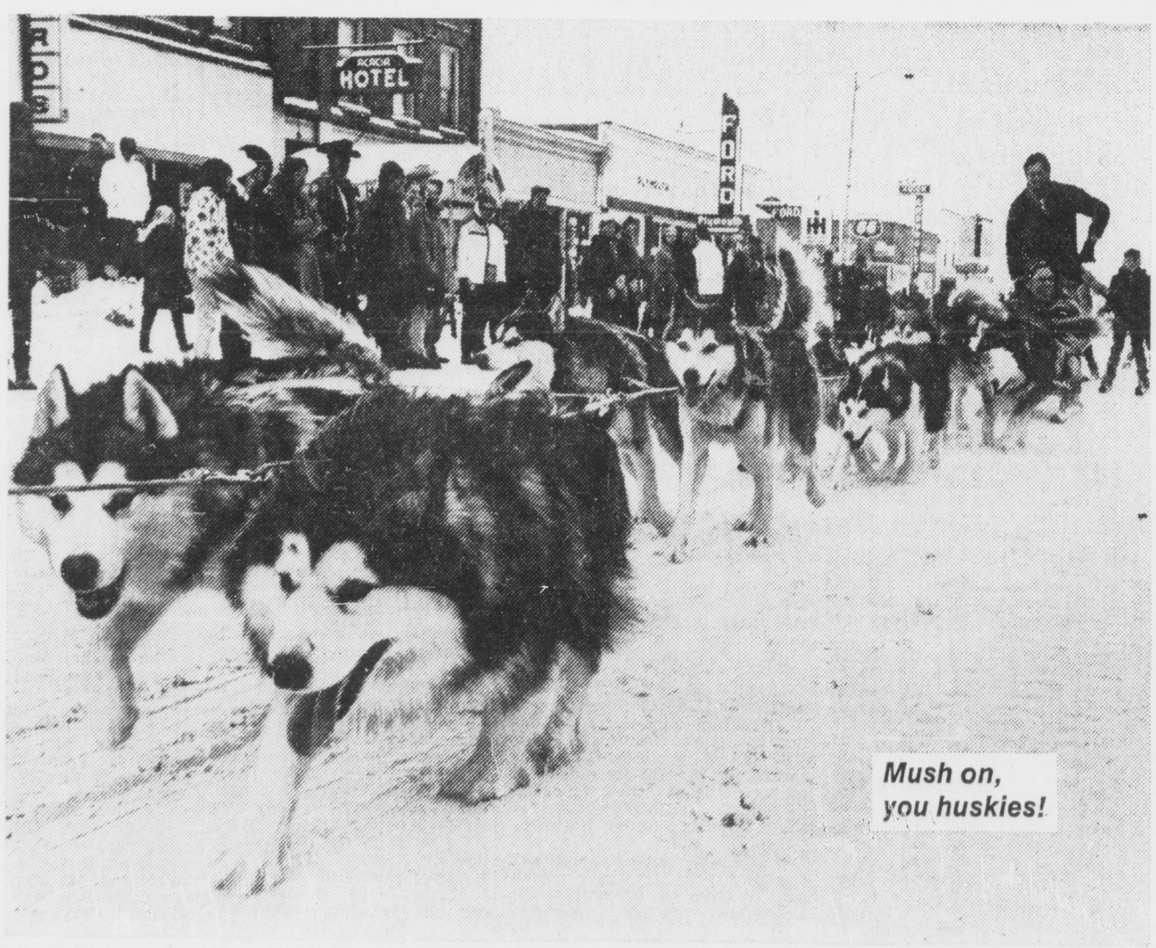
Hurdling is harder on skis.



Trying to surmount a very real obstacle.

Skiing to beat the band.

Skidding on "Ski-Doos."



Mush on, you huskies!

Riding in style.

Thieves Butcher A Nativity Lamb

SAN FRANCISCO (UPI)—Thieves stole and butchered a sheep being used in a Christmas nativity scene in Golden Gate Park.

The carcass of the 150-pound animal, killed "in a very professional job of butchering" was found yesterday near a reservoir in another part of the city, according to police.

The sheep was missing from the park nativity scene presented by the Intra-Church Lutheran Council and the City Park Department.

$100,000 Cashed Yearly In Stolen Welfare Checks

SAN FRANCISCO (UPI) — About $100,000 worth of stolen welfare checks are cashed each year in San Francisco, the city controller's office has revealed.

Jack Lunch, chief clerk, said yesterday 78 checks worth $8,395 were forged in December, about average for any given month. Officials noted that city, state and federal aid amounts to more than $50 million a year in San Francisco.

A recipient who fails to receive his check is issued a duplicate after signing stop payment forms on the missing one. The loss, said Lynch, is absorbed by stores and businesses which cash the stolen checks, even if they have cleared the bank.

One Killed In Munitions Blaze

GOODYEAR, Ariz. (AP) — Fire flashed through a plant making munitions, killing one person and burning another seriously, in one of two fires in the nation yesterday in munitions plants.

One man was killed and 15 injured in a fire and explosion at a Hanover, Mass., plant that manufactures antipersonnel mines for use in Vietnam.

The fire at this Phoenix suburb occurred in a small building housing a mortar shell assembly room, about 30 feet from the main plant of Unidynamics, Inc. The building remained intact.

Bee Attack Fatal To 17-Year-Old

FREMONT (AP) — A swarm of bees disturbed by a tractor stung to death Dennis M. Kelsey, 17, of Castro Valley yesterday.

Kelsey was helping clear a field when the bees attacked and he suffered the fatal reaction to their stings, the Alameda County coroner's office said.

TELEVISION REVIEW

CBS Puts Tight Rein On Winters

By RICK DU BROW

HOLLYWOOD (UPI)—Jonathan Winters was never better on television than when Jack Paar just sat down with him, and talked with him, and let him wing out with his personal brand of zaniness. Generally regarded as a natural comic genius, Winters needs shrewd harnessing of his wild talents, and this is what Paar provided so well.

One reason is that Paar, in addition to being a brilliant editor of material and show business people, obviously cared about Winters personally. Now Winters has his own one-hour variety series on CBS-TV—it bowed in last night — and since the chief interest in him by the people who presented him is that he is a bankroll, the personal factor is missing.

Under the circumstances, however — the circumstances being that CBS-TV hopes he has the same success as the Smothers Brothers as a midseason replacement—his premiere was passable, considering it was mostly more of the same variety format one gets elsewhere, in fact everywhere.

The new Winters series replaces the ill-fated western with John Mills, "Dundee and the Culhane," and the time slot is one that could easily be captured by a hot show. For the competition is NBC-TV's "Run For Your Life," which is doing poorly in the ratings, and ABC-TV's Wednesday night movie series, which may be the most vlunerable motion picture on the networks for opposing shows.

You could tell right away Wednesday night that CBS-TV was out to put as tight a rein on Winters as possible, and make him very respectable, with only a little room left over for zaniness. I mean, when a program begins with—"And now, the star of our show," you know it's not exactly the way Winters might have chosen to begin it himself.

Nevertheless, there was a final skit that took a healthy, farcical approach to racial matters. Taking off on the movie "In the Heat of the Night," with Winters playing the Rod Steiger role as a small town sheriff, and Ivan Dixon spoofing the Sidney Poitier part of a suave big town police officer, there was a refreshing lack of the usual pussyfooting politeness one finds between white and Negro in video comedy.

Winters was also good—better than his lines—in another sketch, as a strait-laced fellow who is appalled to find his wife wearing a mini-skirt. And, in order to help the ratings on his premiere, Red Skelton turned up for some pantomime. Barbara Eden also joined the premiere show.

$100,000 Cashed Yearly In Stolen Welfare Checks

SAN FRANCISCO (UPI) — About $100,000 worth of stolen welfare checks are cashed each year in San Francisco, the city controller's office has revealed.

Jack Lunch, chief clerk, said yesterday 78 checks worth $8,395 were forged in December, about average for any given month. Officials noted that city, state and federal aid amounts to more than $50 million a year in San Francisco.

A recipient who fails to receive his check is issued a duplicate after signing stop payment forms on the missing one. The loss, said Lynch, is absorbed by stores and businesses which cash the stolen checks, even if they have cleared the bank.

One Killed In Munitions Blaze

GOODYEAR, Ariz. (AP) — Fire flashed through a plant making munitions, killing one person and burning another seriously, in one of two fires in the nation yesterday in munitions plants.

One man was killed and 15 injured in a fire and explosion at a Hanover, Mass., plant that manufactures antipersonnel mines for use in Vietnam.

The fire at this Phoenix suburb occurred in a small building housing a mortar shell assembly room, about 30 feet from the main plant of Unidynamics, Inc. The building remained intact.

Bee Attack Fatal To 17-Year-Old

FREMONT (AP) — A swarm of bees disturbed by a tractor stung to death Dennis M. Kelsey, 17, of Castro Valley yesterday.

Kelsey was helping clear a field when the bees attacked and he suffered the fatal reaction to their stings, the Alameda County coroner's office said.

TELEVISION REVIEW

CBS Puts Tight Rein On Winters

By RICK DU BROW

HOLLYWOOD (UPI)—Jonathan Winters was never better on television than when Jack Paar just sat down with him, and talked with him, and let him wing out with his personal brand of zaniness. Generally regarded as a natural comic genius, Winters needs shrewd harnessing of his wild talents, and this is what Paar provided so well.

One reason is that Paar, in addition to being a brilliant editor of material and show business people, obviously cared about Winters personally. Now Winters has his own one-hour variety series on CBS-TV—it bowed in last night — and since the chief interest in him by the people who presented him is that he is a bankroll, the personal factor is missing.

Under the circumstances, however — the circumstances being that CBS-TV hopes he has the same success as the Smothers Brothers as a midseason replacement—his premiere was passable, considering it was mostly more of the same variety format one gets elsewhere, in fact everywhere.

The new Winters series replaces the ill-fated western with John Mills, "Dundee and the Culhane," and the time slot is one that could easily be captured by a hot show. For the competition is NBC-TV's "Run For Your Life," which is doing poorly in the ratings, and ABC-TV's Wednesday night movie series, which may be the most vlunerable motion picture on the networks for opposing shows.

You could tell right away Wednesday night that CBS-TV was out to put as tight a rein on Winters as possible, and make him very respectable, with only a little room left over for zaniness. I mean, when a program begins with—"And now, the star of our show," you know it's not exactly the way Winters might have chosen to begin it himself.

Nevertheless, there was a final skit that took a healthy, farcical approach to racial matters. Taking off on the movie "In the Heat of the Night," with Winters playing the Rod Steiger role as a small town sheriff, and Ivan Dixon spoofing the Sidney Poitier part of a suave big town police officer, there was a refreshing lack of the usual pussyfooting politeness one finds between white and Negro in video comedy.

Winters was also good—better than his lines—in another sketch, as a strait-laced fellow who is appalled to find his wife wearing a mini-skirt. And, in order to help the ratings on his premiere, Red Skelton turned up for some pantomime. Barbara Eden also joined the premiere show.

BREAKAWAY SIGN POSTS

California Division of Highways is experimenting with new breakaway signs and light poles, designed to give motorists who hit them a better chance of survival. The sign posts (circled and in inset) are sawed almost through and then spliced with brittle iron plates that will withstand wind gusts but not sudden blows. The posts are designed to pull out of the ground when struck (bottom circle). The state says 273 persons died last year when their cars hit fixed objects alongside state freeways. (AP Wirephoto)

Mixed Reaction After Miami Police Warning

MIAMI (UPI)—Civil Rights organizations have sharply criticized Miami Police chief Walter Headley, who ordered special squads armed with shotguns and dogs to go after young Negro hoodlums in the slums.

"This is war," Headley declared Tuesday in announcing a new effort to put down a recent surge of violent crime in the city.

Florida's field secretary for the National Association for the Advancement of Colored People, Marvin Davies, retorted:

"This man has no place in a position of public trust. If necessary, we will get a lawsuit to keep him from enforcing this type of arbitrary action."

In Miami, opinions varied.

"This idea is a good one, on hoodlums," said James Matthews, lawyer and former assistant U.S. attorney. "But I think a lot of stress is being put on law and order and too little on law and justice, which is the real way of attacking our problem."

Headley's get-tough policy, reminiscent of that of Birmingham's Eugene (Bull) Connor several years ago, prompted this comment from a Negro merchant in the trouble area:

"I'm afraid every time I open my door. I've cut down my hours because I'm afraid to go out of my house at night."

The merchant, who asked his name not be used, said young Negroes with guns are terrorizing "decent citizens" in the central Negro district.

Others said they feared Headley's action would stir bitterness against the Miami police department.

"It wouldn't take much to touch off an insurrection," said Neal Adams, a merchant and member of several county boards. He said Headley's statements reveal a "nineteenth century mentality."

Mrs. Althie Range, a Negro member of the Miami City Commission, said she didn't think the policy was aimed at a particular group of people.

"If these murders have occurred in the Negro area," she said, "then this is the area where the policy needs to be enforced at this time."

Bread, Milk Diet For Joan Baez

PLEASANTON (UPI)—Pacifist folksinger Joan Baez, her 54-year-old mother and more than 50 other women inmates at the Santa Rita prison farm have been placed on a diet of bread and milk following a sit-down demonstration in the prison dining room.

All the women are serving sentences for activities in last week's antiwar demonstrations at the Oakland induction center. Sheriff Frank Madigan said the women were carried back to their quarters.

A woman inmate who took part in the sit-down and was released on bail yesterday said the affair was staged to demand an explanation for the suspension of mail, commissary and visiting privileges. She said 60 women took part.

Extradition Fight Likely In JFK Plot Controversy

LOS ANGELES (AP)—Sandy-haired Edgar Eugene Bradley, free on his own recognizance, sought an extradition hearing today to avoid a Louisiana trial in connection with the Kennedy assassination.

The final decision on whether the North Hollywood public relations man will be extradited apparently will lie with Gov. Ronald Reagan.

As his lawyer pledged to fight extradition "every inch of the way," Bradley surrendered yesterday on a fugitive complaint based on a warrant accusing him of conspiring to assassinate President John F. Kennedy.

The surrender came six days after New Orleans Dist. Atty. James Garrison ordered the warrant sent to Los Angeles.

"Believe me, I don't have a thing to hide," said Bradley as he arrived with 20 friends in the office of Sheriff Peter J. Pitchess.

Bradley was arraigned promptly in Municipal Court and released on his own recognizance. The hearing was continued to Jan. 29.

Chicago Politico Wounded; 5,000 More Police Urged

CHICAGO (UPI)—His voice quaking and growing louder, Mayor Richard J. Daley yesterday made an impassioned plea for more police protection after an alderman was shot and wounded in the street.

As he made his emotional address before the city council police worked to learn the identity of the two men who shot alderman Leon M. Despres as he walked one mile from his fifth ward office to his South Side home Tuesday night.

MORE POLICE

Daley told the council he would ask its help to hire 5,000 more policemen, if necessary—including 700 additonal policemen already budgeted—to put an end to "this violence."

In his audience, which gave him a standing ovation when he finished, was Alderman Joseph P. Burke, who shouted and sounded a siren Tuesday night to scare off would-be robbers at his home on the South Side, about two miles from where Despres was wounded.

Despres, who viewed a parade of suspects from his hospital bed yesterday, was listed today in excellent condition following surgery on the right leg fractured by two bullets. Despres said he could not positively identify any of the suspects.

FOLLOWED BY GUNMEN

He told police he was shot by two Negroes who followed him along the street, shouted "look out, nigger," shot him and left him lying in the street crying for help. Despres, a white civil rights activist, said the two men probably were trying to rob him.

Daley denounced the "age of spreading hatred and violence," and added "There is no excuse for violence anywhere . . . if it is necessary to put on 5,000 more policemen, I'll ask for your authority."

"This shooting shows our problem with crime and violence," Daley said.

Daley also expanded his speech to include a denunciation of announced plans to demonstrate at the Democratic National Convention at the International Amphitheatre next August.

"No one is going to take over the city, now or . . . at any other time. They won't take over the convention or any street."

He said, "We will permit them to act as American citizens and in no other way."

Philip Hecht, 21, reported to police he was robbed by two men fitting the description given by Despres about 15 minutes before the shooting. Hecht said the robbers got $40.

JIM GILMARTIN

Lengthy Rebuttal By Pop Warner Coach

MERRY CHRISTMAS — HAPPY NEW YEAR:

Will you prove my friends wrong?

They believe you lack the gumption to print, in your column, this reply to your Dec. 12 attack on the Terra Linda Junior Trojans' Hawaiian trip.

For seven years I've been head coach of the Terra Linda Junior Trojans. When one of my boys clips or commits a personal foul, the referees lower the boom with penalties. If the infraction is blatant, I give the boy "hell"!

The same holds true for a sports columnist who steps beyond the bounds of fair comment, slants or prints untrue facts. Your attack of December 12th, requires raising some "hell."

Jim, you have been caught clipping, piling on and grabbing the face mask! Your article had at least 13 important but erroneous statements. Space does not permit me to cover each infraction, but feel free to call for particulars!

The responsible Junior Trojan officials are hurt by, and incensed at, your accusations. Lawyers call it "libel"! However, a true sportsman, football or journalist, will admit error and try to recover the fumble.

Penalty time! You mince no words and accuse our Terra Linda officials of a crime when you refer to a "call for a District Attorney's investigation into disbursement of the nearly $10,000 funds raised to finance the trip."

Our club has the toughest "Scottish" treasurer in the entire league. Mrs. Ellen Casey, a certified public accountant (and among those you indict) runs a "tight ship" as volunteer guardian of the exchequer. Her books and records for the ($9,000 plus) Hawaiian fund and its use are honest, accurate and proper. By the way, you accused us of collecting about $1,000 more than we did.

'Every Cent Accounted For'

I'm sure the D.A. won't mind the couple of bucks spent for tips to porters and cabbies for which we have no receipts. Otherwise, every cent is accounted for and wisely spent.

We invite you, the District Attorney, the I-J Accountant, and the purported (but unknown) irate citizen quoted by you, to audit this fund on one condition. You will not tell the District Attorney I have shot down some local "crow" for you and this unknown irate citizen to eat after this investigation is completed.

These same accused Junior Trojan officials (criminals?) have been spending the past several weeks of cold winter nights peddling Christmas trees in Terra Linda to raise funds for operating the Marin Boys Club to which our Junior Trojans belong.

From Aug. 13 to Dec. 2, we six coaches have taught boys from Terra Linda, Santa Venetia and Marinwood the fundamentals and complexities of football.

In the first month, we spent about six days per week with some 60 boys who tried out for the team. For the next two months, we devoted our weekends plus three days per week for practice and league play. This, without counting frequent coaches' meetings. Terra Linda Junior Trojans won the Marin County championship without losing a game. All this work was done without receiving or expecting any material reward, including the Hawaiian trip.

Jim, what would these boys think of their coaches, parents and officials if we would dare involve ourselves in your insinuated hanky-panky?

You accuse us of throwing money ($60) away on adults. We received $15 per day (total of four days) for meal allowances. For years, on our other bowl trips, this amount has been traditional. As former football players, most of us are pretty good chowhounds and you would not deprive us of a few relaxing cocktails, would you now?

'We Compared Local Prices'

Your article charged us with paying "higher costs to a Honolulu firm" for travel arrangements than those quoted locally. Not so, Jim, for we have too many Irishmen turned temporary Scotsmen on our club!

Before going, we compared "local" prices and nobody but nobody could beat the deal made for travel arrangements. The average cost charged to the fund for the entire Hawaiian trip, (travel, lodging, food and drink included) was less than $200 per person.

Out of our own pocket, my wife and I paid for staying over a few more days on this happy island. In addition, and perhaps hypnotized by local beauty, one of our bachelor coaches stayed over at his own expense. At last report he had yet to return. Why your sour grapes?

Journalism, just as coaching, requires intelligent scouting, demands intelligent investigation before publication. Otherwise you play poorly and seldom win. I submit you failed to check with those directly involved before launching your attack.

Your opinion to the contrary, the trip was of tremendous value to our kids. If the hundreds of voluntary contributors didn't believe the Hawaiian trip was important for the boys, we would never have had such a quick and tremendous response. By the way, this was not an exclusive Terra Linda project, but involved the communities of Santa Venetia, Marinwood and San Rafael Meadows.

On arrival, young hula dancers greeted us. On Friday the boys met the teachers and attended the classes of the opposing Kaneohe Ram team members.

During the four days our boys lived in the homes of their opponents (without any expense); those Hawaiian parents were grand hosts; and during spare time the boys were treated to "individualized" activities.

You ought to see the unrehearsed movies of this entire trip, interview enough boys, parents and

Raiders' Game Plan: Straight Football

OAKLAND (AP) — Straight football — no fumbles or interceptions allowed — is the way the Oakland Raiders will play it against the Houston Oilers Sunday in the chips-down fight for the American Football League crown.

That's the way Coach John Rauch sees it, and his eyesight so far has encouraged the oddsmakers to give the Californians a 10½-point advantage over the Texans.

The scribes and the team like to think the Raiders come complete with instant adjustments to odd defenses, should the Oilers decide to try it.

Raider quarterback Daryle Lamonica agrees with Rauch's "straight" strategy. Said the AFL's most valuable player:

"We must play hard-nosed football. Executions, not gimmicks, is the way to win. But we have to minimize our mistakes — no fumbles or interceptions."

Rauch, hedged a speck on that, announcing, "We'll have a few wrinkles in our defense that the Oilers didn't see in our game in Houston (which the Raiders won 19-7)."

It's anticipated that all 40 Raiders will be ready to play Sunday, including Rodger Bird who twisted a knee against Buffalo, and Howie Williams and Bill Miller. The flu kayoed valuable swingman Jim Harvey at practice Tuesday, but the Ole Miss heavyweight (250) figures he'll be healthy at crisis time.

Injury Triggers Change

BOSTON (AP) — Jim Lonborg, the Boston Red Sox' Cy Young Award winner as the American League's top pitcher in 1967, today faced a long recuperation period to mend his left knee as baseball brass mapped plans to curb players' off-season activities which pose danger.

Lonborg, 6-foot-5 right-hander injured while skiing on the slopes of Lake Tahoe on the California-Nevada line last weekend, underwent surgery for two torn ligaments in the knee yesterday.

OPERATION

Dr. John McGillicuddy, assisted by Red Sox physician Dr. Thomas Tierney, performed the 2 hour, 10-minute operation at Santa Maria Hospital.

McGillicuddy said the surgery was more difficult than anticipated because a second torn ligament was found. Otherwise, he said, the surgery went as expected and everything is satisfactory.

The doctor said that Lonborg will be hospitalized about a week and will have to wear a cast for six weeks before starting special exercises. The Red Sox hope he will be on hand when batterymen report for spring training Feb. 24 at Winter Haven, Fla.

CONTRACT

Lonborg, who hurled 22 regular season victories and added two more triumphs against St. Louis in the World Series, signed a 1968 contract calling for an estimated $50,000 earlier this month.

Although Red Sox General Manager Dick O'Connell did not ban skiing when signing his pitching ace, he predicted Lonborg's injury "will trigger some changes in the baseball contract."

"Right now, there's nothing to stop a player from engaging in off-season activities, like skiing, that endanger his health," O'Connell said. "We've got to put in a clause."

MAY COST

In addition to missing many personal appearances this winter, Lonborg also faces the loss of salary if he is unable to pitch when the American League season starts. O'Connell said that if Lonborg is not ready he will be placed on the restricted list of players injured in extracurricular activities. A player on the list does not get paid.

Lonborg said he still thinks skiing is a delightful pleasure, but said: "I'll admit, before I do it again I'll talk it over with my boss."

Marin Tars Lose Tourney Opener In Santa Monica

I-J Special Report

SANTA MONICA—If College of Marin's basketball team had any false hopes for a shot at the Santa Monica Tournament title, they went out the window in a welter of fouls yesterday.

The Tars were to play the loser of the Chaffey-Long Beach contest at three o'clock this afternoon, after dropping an 86-78 opening round decision to Pierce Junior College.

It was a courageous, uphill battle for the Tars, who trailed 53-36 at the half, cut the margin to four points in the final minute, only to lose going away.

FOULS

Before the whole thing was over, four Tars had fouled out, including most of the COM height — Tom Stetson went in the final period along with Keith Kornelis and Tom Herrnberger, all of them busy trying to guard 6-8 center Bob Lynn, who scored 19 points.

Dan O'Brien fouled out midway in the third period.

The first half told the big story, when the Tars were whistled down for 20 fouls, with Pierce cashing in on 21 free throws.

MARGIN

The final foul margin was 29 for Marin, 18 for Pierce.

The Tars outscored Pierce from the field, 33-29, but lost at the charity line, 28-12.

College of Marin had another balanced scoring attack, led by Kornelis with 18, Stetson with 13, Andre Horn with 11 and Russ Smith with 12.

Raiders Picked By Oddsmakers

STATELINE, Nev. (AP)—The Oakland Raiders were listed as 10½ point favorites to defeat the Houston Oilers Sunday for the American Football League championship when Harrah's-Tahoe posted odds yesterday.

Green Bay is a 7½ point choice over Dallas for the National League championship game at Green Bay.

The West is a 3½ point favorite over the East in the Shrine game at San Francisco Saturday and Southern California a 14½ point choice over Indiana in Monday's Rose Bowl at Pasadena.

Australians Close Out 'Cup' Play

BRISBANE, Australia (AP) — The Davis Cup was handed over to Australia today for the 15th time since the end of World War II in a center court ceremony, with the tennis teams of Australia and Spain lined up near by.

This year's challenge ended as a 4-1 victory for Australia

Spain got its only point when Manuel Santana beat John Newcombe 7-5, 6-4, 6-2 today. Aussie Roy Emerson took the second of the final two singles, 6-1, 6-1, 2-6, 6-4 over Manuel Orantes.

Australia had already successfully retained the Cup before today's matches began by winning Tuesday's two singles and yesterday's doubles for an insurmountable 3-0 lead.

Emerson, who has played in every Davis Cup challenge since 1959, said the Spaniards were "excellent sportsmen and difficult to play against."

"I know they are going to do well next year in the Davis Cup," he said.

Newcombe said there is "a certain amount of truth" in reports that Emerson, Tony Roche and he were playing in their last Davis Cup but added, "It would take a terrific amount of money to replace the feeling you get playing in the Davis Cup for your country."

The three Australian stars reportedly are going to turn professional.

HIGH SCHOOL BASKETBALL

Tam Wins Tourney Game

Pat Schafer's free throws in the final 20 seconds broke a tie and led the Tamalpais High School Indians to a 56-53 victory over Piedmont Hills last night in the opening round of the John F. Kennedy Basketball Tournament at Piedmont Hills.

In other games on the Marin County high School front last night, the Novato Hornets defeated John O'Connell, 46-32; Redwood's Giants lost to DeAnza, 66-58; The Alumni beat Terra Linda's varsity, 52-49; and the Alumni downed San Rafael, 58-52.

Tam's dramatic victory sends the Indians into the Kennedy Tourney semi-finals tonight against Buchser High of Saratoga at 7 o'clock.

Schafer's clutch charity tosses gave him 19 points for the night. He and Don Mackin sparked a third quarter rally in which the Indians pulled away to a seemingly safe 44-33 lead. However, Pleasant Hills roared back to tie the Indians at 45-45 in the final quarter and it was nip and tuck down to the wire.

Chief architects of Novato's victory were Steve McNally who scored 17 points and Bob Tait who grabbed 15 rebounds.

Honor For Allen

ST. LOUIS (AP) — The Sporting News has named Los Angeles Rams Coach George Allen Coach of the Year in the National Football League.

McGuire Not Surprised By Firing

NEW YORK (AP) — The sudden firing of Dick McGuire came as no surprise to the coach of the slump-ridden New York Knicks.

"I knew it was coming," McGuire said yesterday after he had been fired as coach and replaced by chief scout Red Holzman. "When a team is losing, changes have to be made."

AFTER LOSS

McGuire, 41, was fired moments after the Knicks dropped a 114-105 decision to Philadelphia. It was their fourth straight loss and ninth in 12 games.

"The team improved under Dick last year," said Knick President Ned Irish, "and we expected it to be even better this season. We have been disappointed."

McGuire took the Knicks into the playoffs last season for the first time since 1959.

NO IMPROVEMENTS

They were expected to be greatly improved this year with the addition of high-priced rookies Bill Bradley and Walt Frazier. Instead, they have slipped to a 15-23 mark and fifth place in the six-team Eastern Division of the National Basketball Association.

"The decision was made Wednesday to make the change," Irish said. "Holzman was the logical man to consider. He has the background and knows the personnel."

Holzman, a former Knick and Detroit star and later a coach for Detroit and St. Louis, said he doesn't plan any drastic changes immediately.

"Everyone works a little differently from the next fellow," he said. "We'll experiment a little and see what happens. Maybe we'll hit something that works."

He has been a scout for the Knicks for 8½ years and knows all the players well.

McGuire will take over Holzman's scouting duties at least for the remainder of his one-year contract.

JIM GILMARTIN

Lengthy Rebuttal By Pop Warner Coach

MERRY CHRISTMAS — HAPPY NEW YEAR:

Will you prove my friends wrong?

They believe you lack the gumption to print, in your column, this reply to your Dec. 12 attack on the Terra Linda Junior Trojans' Hawaiian trip.

For seven years I've been head coach of the Terra Linda Junior Trojans. When one of my boys clips or commits a personal foul, the referees lower the boom with penalties. If the infraction is blatant, I give the boy "hell"!

The same holds true for a sports columnist who steps beyond the bounds of fair comment, slants or prints untrue facts. Your attack of December 12th, requires raising some "hell."

Jim, you have been caught clipping, piling on and grabbing the face mask! Your article had at least 13 important but erroneous statements. Space does not permit me to cover each infraction, but feel free to call for particulars!

The responsible Junior Trojan officials are hurt by, and incensed at, your accusations. Lawyers call it "libel"! However, a true sportsman, football or journalist, will admit error and try to recover the fumble.

Penalty time! You mince no words and accuse our Terra Linda officials of a crime when you refer to a "call for a District Attorney's investigation into disbursement of the nearly $10,000 funds raised to finance the trip."

Our club has the toughest "Scottish" treasurer in the entire league. Mrs. Ellen Casey, a certified public accountant (and among those you indict) runs a "tight ship" as volunteer guardian of the exchequer. Her books and records for the ($9,000 plus) Hawaiian fund and its use are honest, accurate and proper. By the way, you accused us of collecting about $1,000 more than we did.

'Every Cent Accounted For'

I'm sure the D.A. won't mind the couple of bucks spent for tips to porters and cabbies for which we have no receipts. Otherwise, every cent is accounted for and wisely spent.

We invite you, the District Attorney, the I-J Accountant, and the purported (but unknown) irate citizen quoted by you, to audit this fund on one condition. You will not tell the District Attorney I have shot down some local "crow" for you and this unknown irate citizen to eat after this investigation is completed.

These same accused Junior Trojan officials (criminals?) have been spending the past several weeks of cold winter nights peddling Christmas trees in Terra Linda to raise funds for operating the Marin Boys Club to which our Junior Trojans belong.

From Aug. 13 to Dec. 2, we six coaches have taught boys from Terra Linda, Santa Venetia and Marinwood the fundamentals and complexities of football.

In the first month, we spent about six days per week with some 60 boys who tried out for the team. For the next two months, we devoted our weekends plus three days per week for practice and league play. This, without counting frequent coaches' meetings. Terra Linda Junior Trojans won the Marin County championship without losing a game. All this work was done without receiving or expecting any material reward, including the Hawaiian trip.

Jim, what would these boys think of their coaches, parents and officials if we would dare involve ourselves in your insinuated hanky-panky?

You accuse us of throwing money ($60) away on adults. We received $15 per day (total of four days) for meal allowances. For years, on our other bowl trips, this amount has been traditional. As former football players, most of us are pretty good chowhounds and you would not deprive us of a few relaxing cocktails, would you now?

'We Compared Local Prices'

Your article charged us with paying "higher costs to a Honolulu firm" for travel arrangements than those quoted locally. Not so, Jim, for we have too many Irishmen turned temporary Scotsmen on our club!

Before going, we compared "local" prices and nobody but nobody could beat the deal made for travel arrangements. The average cost charged to the fund for the entire Hawaiian trip, (travel, lodging, food and drink included) was less than $200 per person.

Out of our own pocket, my wife and I paid for staying over a few more days on this happy island. In addition, and perhaps hypnotized by local beauty, one of our bachelor coaches stayed over at his own expense. At last report he had yet to return. Why your sour grapes?

Journalism, just as coaching, requires intelligent scouting, demands intelligent investigation before publication. Otherwise you play poorly and seldom win. I submit you failed to check with those directly involved before launching your attack.

Your opinion to the contrary, the trip was of tremendous value to our kids. If the hundreds of voluntary contributors didn't believe the Hawaiian trip was important for the boys, we would never have had such a quick and tremendous response. By the way, this was not an exclusive Terra Linda project, but involved the communities of Santa Venetia, Marinwood and San Rafael Meadows.

On arrival, young hula dancers greeted us. On Friday the boys met the teachers and attended the classes of the opposing Kaneohe Ram team members.

During the four days our boys lived in the homes of their opponents (without any expense); those Hawaiian parents were grand hosts; and during spare time the boys were treated to "individualized" activities.

You ought to see the unrehearsed movies of this entire trip, interview enough boys, parents and

Raiders' Game Plan: Straight Football

OAKLAND (AP) — Straight football — no fumbles or interceptions allowed — is the way the Oakland Raiders will play it against the Houston Oilers Sunday in the chips-down fight for the American Football League crown.

That's the way Coach John Rauch sees it, and his eyesight so far has encouraged the oddsmakers to give the Californians a 10½-point advantage over the Texans.

The scribes and the team like to think the Raiders come complete with instant adjustments to odd defenses, should the Oilers decide to try it.

Raider quarterback Daryle Lamonica agrees with Rauch's "straight" strategy. Said the AFL's most valuable player:

"We must play hard-nosed football. Executions, not gimmicks, is the way to win. But we have to minimize our mistakes — no fumbles or interceptions."

Rauch, hedged a speck on that, announcing, "We'll have a few wrinkles in our defense that the Oilers didn't see in our game in Houston (which the Raiders won 19-7)."

It's anticipated that all 40 Raiders will be ready to play Sunday, including Rodger Bird who twisted a knee against Buffalo, and Howie Williams and Bill Miller. The flu kayoed valuable swingman Jim Harvey at practice Tuesday, but the Ole Miss heavyweight (250) figures he'll be healthy at crisis time.

Out Houston way, the word from Coach Wally Lemm is that ball control is the way to whip the Raiders.

Warriors Face Royals Tonight

CLEVELAND, Ohio (AP) — San Francisco Warriors, tough and confident after their 117-104 win against the Boston Celtics, face the Cincinnati Royals tonight.

The Warriors shook the Celts behind the five quick field goals of Jeff Mullins Tuesday night in National Basketball Association play. Rudy LaRusso followed up with four more.

The Ohioans belted the Los Angeles Lakers 132-127 last day night, led by Oscar Robertson's four field goals in the last three and a half minutes of play.

McGuire Not Surprised By Firing

NEW YORK (AP) — The sudden firing of Dick McGuire came as no surprise to the coach of the slump-ridden New York Knicks.

"I knew it was coming," McGuire said yesterday after he had been fired as coach and replaced by chief scout Red Holzman. "When a team is losing, changes have to be made."

AFTER LOSS

McGuire, 41, was fired moments after the Knicks dropped a 114-105 decision to Philadelphia. It was their fourth straight loss and ninth in 12 games.

"The team improved under Dick last year," said Knick President Ned Irish, "and we expected it to be even better this season. We have been disappointed."

McGuire took the Knicks into the playoffs last season for the first time since 1959.

NO IMPROVEMENTS

They were expected to be greatly improved this year with the addition of high-priced rookies Bill Bradley and Walt Frazier. Instead, they have slipped to a 15-23 mark and fifth place in the six-team Eastern Division of the National Basketball Association.

"The decision was made Wednesday to make the change," Irish said. "Holzman was the logical man to consider. He has the background and knows the personnel."

Holzman, a former Knick and Detroit star and later a coach for Detroit and St. Louis, said he doesn't plan any drastic changes immediately.

"Everyone works a little differently from the next fellow," he said. "We'll experiment a little and see what happens. Maybe we'll hit something that works."

He has been a scout for the Knicks for 8½ years and knows all the players well.

McGuire will take over Holzman's scouting duties at least for the remainder of his one-year contract.

Marin Tars Lose Tourney Opener In Santa Monica

I-J Special Report

SANTA MONICA—If College of Marin's basketball team had any false hopes for a shot at the Santa Monica Tournament title, they went out the window in a welter of fouls yesterday.

The Tars were to play the loser of the Chaffey-Long Beach contest at three o'clock this afternoon, after dropping an 86-78 opening round decision to Pierce Junior College.

It was a courageous, uphill battle for the Tars, who trailed 53-36 at the half, cut the margin to four points in the final minute, only to lose going away.

FOULS

Before the whole thing was over, four Tars had fouled out, including most of the COM height — Tom Stetson went in the final period along with Keith Kornelis and Tom Herrnberger, all of them busy trying to guard 6-8 center Bob Lynn, who scored 19 points.

Dan O'Brien fouled out midway in the third period.

The first half told the big story, when the Tars were whistled down for 20 fouls, with Pierce cashing in on 21 free throws.

MARGIN

The final foul margin was 29 for Marin, 18 for Pierce.

The Tars outscored Pierce from the field, 33-29, but lost at the charity line, 28-12.

College of Marin had another balanced scoring attack, led by Kornelis with 18, Stetson with 13, Andre Horn with 11 and Russ Smith with 12.

Dear John: Watch Out For Those USC Trojans

All right, Ramona, it's that time of the year again. Take an open letter to John Pont, coach of Indiana. Ready?

Slug it "Dear John."

"John, at absolutely no cost to you or the university, I am going to forward the following scouting report on the SC Trojans.

"In the first place, John, while I realize you have to show up for the game, I think I should tell you the only time you're going to be even money is on the coin toss. From then on, it's all uphill.

"FRANK HOWARD of Clemson put his finger squarely on the trouble a year ago when he took a receipt for a 30-0 loss from the Trojans and opined openly that the trouble with playing SC was 'They have tackles that can run like halfbacks.'

"For the benefit of your defensive line and secondary, O. J. Simpson is a rather nice-looking young man with sort of gray-green eyes and a full set of teeth. No one is quite sure what his number is — it's either 32 or 23. The only way you can ever find out is if he falls asleep in uniform.

"YOUR TEAM WON'T get to see much of him, John, but I'll see if I can get them an autographed photograph.

"You get one break, John: They only give him the ball about 30 times a game: so, with a little luck, you can keep the score under 100. He could score four touchdowns against the Packers with the gout; so don't feel too bad if he looks like he came with the end zone.

"A bookie up in Las Vegas says he's an out price to score more points than your whole team but just remember this was the town that made the Red Sox 100-to-1. I mean, they're not going broke up there giving away money but they've been wrong. They had Japan at 2-to-1 on the morning line, you may recall.

"JOHN, WE'VE had Big Ten coaches who spirited their teams into town and hustled them over to a monastery as if L.A. was full of pygmies with blow guns. But, let the kids have a little fun, John — you know, Disneyland, the beach at Mailbu. Get Hoagy Carmichael to play the piano for them. I guess we all know he pounded out 'Stardust' in a class where the prof thought he was taking notes back at Bloomington. I think the head of the department was the one who said, 'Carmichael, how do you ever expect to get anywhere scrawling silly little notes all day?'

"The Trojans got a kid named 'Roy Yany' who can look in second-story windows in his bare feet, John. The last time anything this big walked into view, it clanked and there was a mad scientist chasing it. Fortunately, he's harmless. I mean to say, he doesn't EAT people. He just passes out a few blood clots.

"BY THE WAY, John, the best thing that can happen to your team is coagulation. I mean to say, if you have any hemophilia on the squad, your team is going to look like a Bloody Mary by the half.

"You'll like Tim Rossovich. He always helps your quarterback to his feet. Of course, by the third quarter, he may need a shovel to do that. But, what the hell, John — it's just a game, eh?

"Now, I understand you're from Yale, John. In that case, this game will be a revelation to you. I mean, in the first place, it's not TOUCH, John. Your guys better expect to be knocked down. In fact, it's just as well if they expect to be knocked out.

"THE TROJANS got this real accurate passer, Steve Sogge. I mean, he's not like the Harvards, John. He throws OVERHAND.

"I don't want to raise your hopes prematurely but the one thing that bores the Trojans is rushing the passer. Your passer can stand there for a week if he wants, looking for a receiver. But the Trojans got a guy named 'Pat Cashman' who may catch more of your passes than you guys do.

"LISTEN, JOHN, that funny thing you will notice in the Rose Bowl will be sunlight. And I know your boys are in the habit of coming to the field early so they can kick the cows off but that won't be necessary here. Also, you won't need those homing pigeons for your scouts in the press-box. They got telephones out here. And you won't get on any party line and have to wait like you do back in Bloomington. In fact, you don't even have to crank the phones first, John.

"Well, good luck to you, John. Have your team practice running back kickoffs because that's probably the thing they're going to do the most of New Year's Day. And, when the bus shows up at the Huntington, don't ask the driver what he did with the horses. And tell the guys not to cook in their rooms and they won't need kerosene to read at night. And be sure and sweep up the hay when they take their shoes off at night. Don't go hunting up any Bessie Love movies and don't ask the parade marshal, Everett Dirksen, if he's run into Mrs. Coolidge lately.

"OK, now, let's hear it, John! 'Oh, the moon is shining bright along the Wabash! From the fields there comes a scent . . . tra la la!'"

BOWLING TIPS

By MARION LADEWIG

Sometimes bowlers are unaware of the value of keeping your throwing arm in close to your body at all times. This prevents the ball from looping to either side and results in a more powerful ball when it reaches the pins. This is not a difficult habit to develop, but it is one that is easy to neglect in the excitement of a good match.

Kent Skov starred for Redwood with 23 points and 18 rebounds.

PREP BASKETBALL PROSPECTS

Marin Catholic Will Be A Dark Horse

By GARY TISCHLER

(First of a series on Marin County Athletic League basketball prospects.)

If anyone were to look for a dark horse in a Marin County Athletic League basketball race that is full of dark horses, he could take a gander at Marin Catholic's Wildcats.

The 'Cats,' at this stage of the season are 3-6, sporting the worst defense in the league. They have little tradition, winning-wise, in the league. They have a new coach.

Still, they're different.

The new coach is Larry Fulton, a winning football and basketball mentor at San Rafael Military Academy before coming to Marin Catholic.

And the 3-6 record is deceptive. It has been compiled against some of the best competition in the Bay Area, including Fremont, St. Elizabeth's, Poly of San Francisco and Salesian, a team that whipped both Drake and Terra Linda handily.

The Wildcats won that one, 68-60.

"Our biggest problem right now is defense," Fulton, a young, athletic-looking man said. "We've got to start thinking in terms of playing it (defense) for a whole game, every minute."

Offense shouldn't be a problem, although the 'Cats to date have been shooting only 25 per cent from the field.

"I don't know how we've scored as much as we have," Fulton said, "with that kind of percentage. But I know we can shoot. That's still the name of the game — scoring."

Potentially, Fulton has the nucleus of a fine squad. Three of the starting Wildcats are proven scorers and returning starters.

There is little (5-9) Harry Matsinger, a freckle-faced senior who looks like Mickey Rooney of the Thirties, only smaller and who is hovering around the 20-point mark, scoring-wise. Rick Garms, who can throw in free-throws all night, is the other guard and is also hitting in double figures.

And there is Ches Bornia, a dark-haired 6-3 center, on whom a lot will depend.

Bornia is going through a frigid shooting period, but is still hitting in double figures while hauling down 15 rebounds a game on the average. His height is not domineering, but his jumping ability more than make up for it. And if his shooting comes around, he could be the class of the league.

Six-foot-four Stacey Schaefer has helped on defense and rebounding, while Mark Carbone, although not much of a scoring threat, will give the 'Cats much-needed help in the defensive, pressing departments.

"I think we could be a contender," Fulton said. "We'll be running a lot. We'll be quicker than last year. But it will be a league full of contenders. Tam has to be favored but I wouldn't count anybody out.

"Including the Wildcats."

The FISHIN' FOOL

By RALPH STEVENS
I-J Fish and Game Writer

Calm Days Came, Now Rain Needed To Raise The Rivers

STEVENS

Well, we wished largely for the weather to stay calm and rainless. We had our wish, and as a result, oodles of steelies were taken in a multitude of coastal and inland streams.

Now we are hoping for rain. Rain to raise the rivers and allow the spawning urge of the fish milling around the mouths of most streams to be satisfied

A spawned steelhead is a different post spawner than some other species, in particular the salmon.

THE STEELHEAD returning to the sea are frequently the worse for wear — ragged tails and fins — but even such specimens are palatable.

At one time, many years ago, I walked along the beach on the Gualala River a few days after the close of the season. I saw the carcasses, of at least a dozen steelhead rotting in the sun, discarded by some ignorant anglers who believed a spawned steelhead is the same as a spawned salmon — usually unfit to be served at the dinner table. Thank goodness that treatment is no longer so prevalant today.

BUT, TO put the steelhead prospects aside and report on local angling for striped bass, sturgeon and flounders, here is the score as judged by reports received and verified.

The majority of action with stripers has been in the San Pablo Bay where some mighty fine catches have been recorded. An estimated 150 bass were unloaded at the Rodeo Marina over Saturday and Sunday. Not a preponderance of limit catches, but very few boats returned wtihout one to three fish. The largest bass recorded was the 36-pounder caught by Andrew Molica, who also registered limits for himself and two friends. Probably most of the bass were taken near the buoys and most of them were of very good size. Live bullheads was the preferred bait for bass and sturgeon boated over the weekend.

BILL MICKLEY and two buddies from Hayward took four sturgeon on the west side of the ship channel.

Reports from the back country spots indicate a slight slackening off, although some nice individual catches were reported. Sturgeon fishing in the Delta region continues fair to good depending on the area fished.

IT IS THE consensus of waterfowlers that fewer ducks have populated the usual flyways; most clubs are lamenting the "Blue Bird Weather."

The Department of Fish and Game boys are saying that duck and goose hunting is better now than at any time except the first weekend. The prediction is panning out on the public shooting on the waterfowl management areas. In particular, the Gray Lodge area is touted as being near prime condition. Not much time left to bag your limits, so, if the weather changes from "clear and calm" to "wind and rain," you may do yourself a lot of good.

Quentin Cagers Win In Tourney

San Quentin inmates defeated Ken's Studio, 79-60, last night in San Rafael Recreation Department's A Division basketball action at San Quentin.

Keith Fraser led the losers with 18 points.

In C Division, Marin City defeated the Harding Gophers 71-59 behind Ronald Kennedy's 14 points and 12 each by Art Ford and Rich Hamilton. Bill Raither led Harding with 20 points, followed by Jim Treabess with 19.

Las Gallinas Ace

Warren Smith of San Rafael used a three-iron to score a hole-in-one on the 165-yard fifth hole at the Las Gallinas course last week. Witnesses were Bert Farbar, Norman Brown and Hank Mullowney.

LENGTHY LETTER

Pop Warner Grid Coach Defends Trip To Hawaii

Continued from page 29

coaches involved before blasting away.

Six other Terra Linda parents went over to Hawaii at their own expense to keep an "eye" on things. The Hawaiian mothers of the boys on the Kaneohe Rams team sent individual orchids back to their counterparts in Marin County. The Kaneohe players sang and played the guitar while we waited to board the plane for California.

The boys had tours of the island, a luau, a picnic with swimming and surfing on a Hawaiian beach. They had fun! But they also went to Hawaii to prepare for, play and win a football game, which they did. This trip was an unforgettable adventure for these young lads, who, for the most part, will never have this chance again.

If a kids' championship bowl game is athletically meaningless, as you contend, what is the meaning to college bowl games? Or national little-league playoffs?

Before leaving for Hawaii, we asked and received permission of local school authorities to play "hookey" for a few days. One teacher particularly approved because, "the boys would learn more from the trip than one month's worth of school"! Little did our athletes suspect that on their return, they would be asked to write a composition on their experiences.

For the past umpteen years, all permission to hold our post season Pop Warner games was obtained from a chief muk-a-muk, Bill Gilmore, vice president of the statewide Pop Warner organization. The invitation to play in Hawaii was unsolicited and accepted by the Junior Trojans only after receiving the prior express approval of Vice-President Gilmore.

Somewhere along the line, unbeknownst to our Terra Linda coaching staff, officials, and the board of directors of the Marin Boys Club (who approved the trip), there was a purported change in the state rules requiring some form of approval from Steve Spelman, another lesser muk-a-muk, i.e. district commissioner, in the state organization.

Unfortunately, no one from the state organization, including my good friend Steve Spelman, whom you quote exclusively in your article, ever bothered to send any coach in Marin County, including myself, or the Marin County Boys' Club, any copies of these so-called regulations and the purported change of authority in the state muk-a-muk system!

Be that as it may, Spelman subsequently approved our trip along with several other "junkets"! Jim, if there is to be a commotion in the upcoming Fresno meeting as you report, it should be to strengthen the lines of communication from both the national and state level back down to us poor Marin orphans and dumb coaches.

Otherwise, Pop Warner will surely flip in his final resting place if the national and state organizations fail to understand what we here in Marin have learned through 15 years experience with our county program.

Pop Warner football in Marin County is coached by ex-college and professional football players (I have an ex-49er on my coaching staff). The boys learn sound football fundamentals, and the importance of physical and mental conditioning.

You, of all people, should see an important indirect benefit of the trip.

In our fund raising promotion, the Marin Pop Warner football program received public relations benefits from Bay Area-wide television, radio and newspaper coverage (including the I-J). The publicity focused the public's attention on our existence. We had hoped, thereby, to increase interest in organized football for the 10-13 age level. How do you value this?

This year nearly 400 boys signed up and tried out for the six teams in Marin County. Unfortunately, rules permitted us to carry only 40 boys per team. The Marin Boys Club is considering expansion to make the football program available to more boys. For most kids, our league will provide the only opportunity for them to ever play organized contact football.

For the other boys who go on to play high school football, the two or three years in Pop Warner program gives them sound fundamentals in football and a head start. For example, the 1967 Frosh co-champions, Drake and Terra Linda High, each had about eight first stringers up from the ranks of our league.

I'm sorry we didn't invite you on the Hawaiian trip, as your clipping and fumble might never have occurred! Instead, be our dinner guest in Terra Linda any time to meet some real champions, boys, coaches, officials and parents alike.

Aloha,

For a man who says "Space does not permit me to cover each infraction," Mr. Finnegan did a pretty fair job of taking up a lot of space.

Also, I loved that line, "Lawyers call it libel!" I presume Mr. Finnegan is going to sue me and the I-J for libel. At least I hope so. In fact, I defy him to sue us for libel.

Two Deaths Mar 49er Holidays

MOUNTAIN VIEW (AP) — The son of the San Francisco 49ers' line coach was killed and and a minor stockholder died within a few hours yesterday.

Richard James Voris, Jr., 20, son of the coach, was killed in a head-on automobile collision on the Mountain View-Alviso road.

Young Voris, of Mountain View, was a student at nearby Foothill College.

James Ginella, 69, who purchased a five per cent interest in the 49ers when the team was organized, died from a heart attack in San Francisco. He was also a limited partner in the San Francisco Warriors National Basketball League team.

Ginella's oldest son, James, Jr., married Grace Morabito, daughter of the late Tony Morabito, founder of the 49ers.

BECOME A MANUFACTURER OF PICKUP TRUCK CAMPERS

America's No. 1 seller needs local company in this area to assemble and market its line of 20 models.

Winnebago Industries, Inc., America's largest builder of recreation vehicles has a unique package plan which enables a local company to assemble and market pickup truck compers and pickup covers in its market area.

Winnebago's tested, proven models (we sold 36% of all pickup truck covers in America last year) are provided to the local company on an unassembled "package plan." Local builder needs only a minimum of tools and facilities to assemble and market finished units—under his own brand name and at his own price.

Package plan permits volume delivery in Winnebago's own transports to beat excessive delivery costs. Local builder gets advantage of Winnebago's tremendous purchasing power for lower materials costs. As a result local builder's retail price is lower than most wholesale prices from other manufacturers! Winnebago's engineers will assist in setting up production. Winnebago's area representatives will help you in establishing sub-dealers throughout area.

Share in one of the nation's fastest growing industries! Each year one million pickup trucks are sold—30% or more are good prospects for camper covers. This is a largely untapped market! Applicant to own factory in this area should have had previous business experience. Will require minimum of $10,000 working capital to start plus suitable facilities. We have assemblers working with us who have built a $500,000 business in less than two years!

Dear John: Watch Out For Those USC Trojans

All right, Ramona, it's that time of the year again. Take an open letter to John Pont, coach of Indiana. Ready?

Slug it "Dear John."

"John, at absolutely no cost to you or the university, I am going to forward the following scouting report on the SC Trojans.

"In the first place, John, while I realize you have to show up for the game, I think I should tell you the only time you're going to be even money is on the coin toss. From then on, it's all uphill.

"FRANK HOWARD of Clemson put his finger squarely on the trouble a year ago when he took a receipt for a 30-0 loss from the Trojans and opined openly that the trouble with playing SC was 'They have tackles that can run like halfbacks.'

"For the benefit of your defensive line and secondary, O. J. Simpson is a rather nice-looking young man with sort of gray-green eyes and a full set of teeth. No one is quite sure what his number is — it's either 32 or 23. The only way you can ever find out is if he falls asleep in uniform.

"YOUR TEAM WON'T get to see much of him, John, but I'll see if I can get them an autographed photograph.

"You get one break, John: They only give him the ball about 30 times a game: so, with a little luck, you can keep the score under 100. He could score four touchdowns against the Packers with the gout; so don't feel too bad if he looks like he came with the end zone.

"A bookie up in Las Vegas says he's an out price to score more points than your whole team but just remember this was the town that made the Red Sox 100-to-1. I mean, they're not going broke up there giving away money but they've been wrong. They had Japan at 2-to-1 on the morning line, you may recall.

"JOHN, WE'VE had Big Ten coaches who spirited their teams into town and hustled them over to a monastery as if L.A. was full of pygmies with blow guns. But, let the kids have a little fun, John — you know, Disneyland, the beach at Mailbu. Get Hoagy Carmichael to play the piano for them. I guess we all know he pounded out 'Stardust' in a class where the prof thought he was taking notes back at Bloomington. I think the head of the department was the one who said, 'Carmichael, how do you ever expect to get anywhere scrawling silly little notes all day?'

"The Trojans got a kid named 'Roy Yany' who can look in second-story windows in his bare feet, John. The last time anything this big walked into view, it clanked and there was a mad scientist chasing it. Fortunately, he's harmless. I mean to say, he doesn't EAT people. He just passes out a few blood clots.

"BY THE WAY, John, the best thing that can happen to your team is coagulation. I mean to say, if you have any hemophilia on the squad, your team is going to look like a Bloody Mary by the half.

"You'll like Tim Rossovich. He always helps your quarterback to his feet. Of course, by the third quarter, he may need a shovel to do that. But, what the hell, John — it's just a game, eh?

"Now, I understand you're from Yale, John. In that case, this game will be a revelation to you. I mean, in the first place, it's not TOUCH, John. Your guys better expect to be knocked down. In fact, it's just as well if they expect to be knocked out.

"THE TROJANS got this real accurate passer, Steve Sogge. I mean, he's not like the Harvards, John. He throws OVERHAND.

"I don't want to raise your hopes prematurely but the one thing that bores the Trojans is rushing the passer. Your passer can stand there for a week if he wants, looking for a receiver. But the Trojans got a guy named 'Pat Cashman' who may catch more of your passes than you guys do.

"LISTEN, JOHN, that funny thing you will notice in the Rose Bowl will be sunlight. And I know your boys are in the habit of coming to the field early so they can kick the cows off but that won't be necessary here. Also, you won't need those homing pigeons for your scouts in the press-box. They got telephones out here. And you won't get on any party line and have to wait like you do back in Bloomington. In fact, you don't even have to crank the phones first, John.

"Well, good luck to you, John. Have your team practice running back kickoffs because that's probably the thing they're going to do the most of New Year's Day. And, when the bus shows up at the Huntington, don't ask the driver what he did with the horses. And tell the guys not to cook in their rooms and they won't need kerosene to read at night. And be sure and sweep up the hay when they take their shoes off at night. Don't go hunting up any Bessie Love movies and don't ask the parade marshal, Everett Dirksen, if he's run into Mrs. Coolidge lately.

"OK, now, let's hear it, John! 'Oh, the moon is shining bright along the Wabash! From the fields there comes a scent . . . tra la la!'"

BOWLING TIPS

By MARION LADEWIG

Sometimes bowlers are unaware of the value of keeping your throwing arm in close to your body at all times. This prevents the ball from looping to either side and results in a more powerful ball when it reaches the pins. This is not a difficult habit to develop, but it is one that is easy to neglect in the excitement of a good match.

Redwood High School's Class B basketball team saw its nine-game winning streak come to a halt last night as the Little Giants bowed to DeAnza High, 62-54.

Kent Skov starred for Redwood with 23 points and 18 rebounds.

PREP BASKETBALL PROSPECTS

Marin Catholic Will Be A Dark Horse

By GARY TISCHLER

(First of a series on Marin County Athletic League basketball prospects.)

If anyone were to look for a dark horse in a Marin County Athletic League basketball race that is full of dark horses, he could take a gander at Marin Catholic's Wildcats.

The 'Cats,' at this stage of the season are 3-6, sporting the worst defense in the league. They have little tradition, winning-wise, in the league. They have a new coach.

Still, they're different.

The new coach is Larry Fulton, a winning football and basketball mentor at San Rafael Military Academy before coming to Marin Catholic.

And the 3-6 record is deceptive. It has been compiled against some of the best competition in the Bay Area, including Fremont, St. Elizabeth's, Poly of San Francisco and Salesian, a team that whipped both Drake and Terra Linda handily.

The Wildcats won that one, 68-60.

"Our biggest problem right now is defense," Fulton, a young, athletic-looking man said. "We've got to start thinking in terms of playing it (defense) for a whole game, every minute."

Offense shouldn't be a problem, although the 'Cats to date have been shooting only 25 per cent from the field.

"I don't know how we've scored as much as we have," Fulton said, "with that kind of percentage. But I know we can shoot. That's still the name of the game — scoring."

Potentially, Fulton has the nucleus of a fine squad. Three of the starting Wildcats are proven scorers and returning starters.

There is little (5-9) Harry Matsinger, a freckle-faced senior who looks like Mickey Rooney of the Thirties, only smaller and who is hovering around the 20-point mark, scoring-wise. Rick Garms, who can throw in free-throws all night, is the other guard and is also hitting in double figures.

And there is Ches Bornia, a dark-haired 6-3 center, on whom a lot will depend.

Bornia is going through a frigid shooting period, but is still hitting in double figures while hauling down 15 rebounds a game on the average. His height is not domineering, but his jumping ability more than make up for it. And if his shooting comes around, he could be the class of the league.

Six-foot-four Stacey Schaefer has helped on defense and rebounding, while Mark Carbone, although not much of a scoring threat, will give the 'Cats much-needed help in the defensive, pressing departments.

"I think we could be a contender," Fulton said. "We'll be running a lot. We'll be quicker than last year. But it will be a league full of contenders. Tam has to be favored but I wouldn't count anybody out.

"Including the Wildcats."

The FISHIN' FOOL

By RALPH STEVENS
I-J Fish and Game Writer

Calm Days Came, Now Rain Needed To Raise The Rivers

STEVENS

Well, we wished largely for the weather to stay calm and rainless. We had our wish, and as a result, oodles of steelies were taken in a multitude of coastal and inland streams.

Now we are hoping for rain. Rain to raise the rivers and allow the spawning urge of the fish milling around the mouths of most streams to be satisfied

A spawned steelhead is a different post spawner than some other species, in particular the salmon.

THE STEELHEAD returning to the sea are frequently the worse for wear — ragged tails and fins — but even such specimens are palatable.

At one time, many years ago, I walked along the beach on the Gualala River a few days after the close of the season. I saw the carcasses, of at least a dozen steelhead rotting in the sun, discarded by some ignorant anglers who believed a spawned steelhead is the same as a spawned salmon — usually unfit to be served at the dinner table. Thank goodness that treatment is no longer so prevalant today.

BUT, TO put the steelhead prospects aside and report on local angling for striped bass, sturgeon and flounders, here is the score as judged by reports received and verified.

The majority of action with stripers has been in the San Pablo Bay where some mighty fine catches have been recorded. An estimated 150 bass were unloaded at the Rodeo Marina over Saturday and Sunday. Not a preponderance of limit catches, but very few boats returned wtihout one to three fish. The largest bass recorded was the 36-pounder caught by Andrew Molica, who also registered limits for himself and two friends. Probably most of the bass were taken near the buoys and most of them were of very good size. Live bullheads was the preferred bait for bass and sturgeon boated over the weekend.

BILL MICKLEY and two buddies from Hayward took four sturgeon on the west side of the ship channel.

Reports from the back country spots indicate a slight slackening off, although some nice individual catches were reported. Sturgeon fishing in the Delta region continues fair to good depending on the area fished.

IT IS THE consensus of waterfowlers that fewer ducks have populated the usual flyways; most clubs are lamenting the "Blue Bird Weather."

The Department of Fish and Game boys are saying that duck and goose hunting is better now than at any time except the first weekend. The prediction is panning out on the public shooting on the waterfowl management areas. In particular, the Gray Lodge area is touted as being near prime condition. Not much time left to bag your limits, so, if the weather changes from "clear and calm" to "wind and rain," you may do yourself a lot of good.

Quentin Cagers Win In Tourney

San Quentin inmates defeated Ken's Studio, 79-60, last night in San Rafael Recreation Department's A Division basketball action at San Quentin.

Keith Fraser led the losers with 18 points.

In C Division, Marin City defeated the Harding Gophers 71-59 behind Ronald Kennedy's 14 points and 12 each by Art Ford and Rich Hamilton. Bill Raither led Harding with 20 points, followed by Jim Treabess with 19.

Las Gallinas Ace

Warren Smith of San Rafael used a three-iron to score a hole-in-one on the 165-yard fifth hole at the Las Gallinas course last week. Witnesses were Bert Farbar, Norman Brown and Hank Mullowney.

LENGTHY LETTER

Pop Warner Grid Coach Defends Trip To Hawaii

Continued from page 29

coaches involved before blasting away.

Six other Terra Linda parents went over to Hawaii at their own expense to keep an "eye" on things. The Hawaiian mothers of the boys on the Kaneohe Rams team sent individual orchids back to their counterparts in Marin County. The Kaneohe players sang and played the guitar while we waited to board the plane for California.

The boys had tours of the island, a luau, a picnic with swimming and surfing on a Hawaiian beach. They had fun! But they also went to Hawaii to prepare for, play and win a football game, which they did. This trip was an unforgettable adventure for these young lads, who, for the most part, will never have this chance again.

If a kids' championship bowl game is athletically meaningless, as you contend, what is the meaning to college bowl games? Or national little-league playoffs?

Before leaving for Hawaii, we asked and received permission of local school authorities to play "hookey" for a few days. One teacher particularly approved because, "the boys would learn more from the trip than one month's worth of school"! Little did our athletes suspect that on their return, they would be asked to write a composition on their experiences.

For the past umpteen years, all permission to hold our post season Pop Warner games was obtained from a chief muk-a-muk, Bill Gilmore, vice president of the statewide Pop Warner organization. The invitation to play in Hawaii was unsolicited and accepted by the Junior Trojans only after receiving the prior express approval of Vice-President Gilmore.

Somewhere along the line, unbeknownst to our Terra Linda coaching staff, officials, and the board of directors of the Marin Boys Club (who approved the trip), there was a purported change in the state rules requiring some form of approval from Steve Spelman, another lesser muk-a-muk, i.e. district commissioner, in the state organization.

Unfortunately, no one from the state organization, including my good friend Steve Spelman, whom you quote exclusively in your article, ever bothered to send any coach in Marin County, including myself, or the Marin County Boys' Club, any copies of these so-called regulations and the purported change of authority in the state muk-a-muk system!

Be that as it may, Spelman subsequently approved our trip along with several other "junkets"! Jim, if there is to be a commotion in the upcoming Fresno meeting as you report, it should be to strengthen the lines of communication from both the national and state level back down to us poor Marin orphans and dumb coaches.

Otherwise, Pop Warner will surely flip in his final resting place if the national and state organizations fail to understand what we here in Marin have learned through 15 years experience with our county program.

Pop Warner football in Marin County is coached by ex-college and professional football players (I have an ex-49er on my coaching staff). The boys learn sound football fundamentals, and the importance of physical and mental conditioning.

You, of all people, should see an important indirect benefit of the trip.

In our fund raising promotion, the Marin Pop Warner football program received public relations benefits from Bay Area-wide television, radio and newspaper coverage (including the I-J). The publicity focused the public's attention on our existence. We had hoped, thereby, to increase interest in organized football for the 10-13 age level. How do you value this?

This year nearly 400 boys signed up and tried out for the six teams in Marin County. Unfortunately, rules permitted us to carry only 40 boys per team. The Marin Boys Club is considering expansion to make the football program available to more boys. For most kids, our league will provide the only opportunity for them to ever play organized contact football.

For the other boys who go on to play high school football, the two or three years in Pop Warner program gives them sound fundamentals in football and a head start. For example, the 1967 Frosh co-champions, Drake and Terra Linda High, each had about eight first stringers up from the ranks of our league.

I'm sorry we didn't invite you on the Hawaiian trip, as your clipping and fumble might never have occurred! Instead, be our dinner guest in Terra Linda any time to meet some real champions, boys, coaches, officials and parents alike.

Aloha,
JIM FINNEGAN

BECOME A MANUFACTURER OF PICKUP TRUCK CAMPERS

America's No. 1 seller needs local company in this area to assemble and market its line of 20 models.

Winnebago Industries, Inc., America's largest builder of recreation vehicles has a unique package plan which enables a local company to assemble and market pickup truck campers and pickup covers in its market area.

Winnebago's tested, proven models (we sold 36% of all pickup truck covers in America last year) are provided to the local company on an unassembled "package plan." Local builder needs only a minimum of tools and facilities to assemble and market finished units—under his own brand name and at his own price.

Package plan permits volume delivery in Winnebago's own transports to beat excessive delivery costs. Local builder gets advantage of Winnebago's tremendous purchasing power for lower materials costs. As a result local builder's retail price is lower than most wholesale prices from other manufacturers! Winnebago's engineers will assist in setting up production. Winnebago's area representatives will help you in establishing sub-dealers throughout area.

Share in one of the nation's fastest growing industries! Each year one million pickup trucks are sold—30% or more are good prospects for camper covers. This is a largely untapped market! Applicant to own factory in this area should have had previous business experience. Will require minimum of $10,000 working capital to start plus suitable facilities. We have assemblers working with us who have built a $500,000 business in less than two years!

SUCCESSFUL INVESTING

Inflation Hedges Need Closer Look

By ROGER E. SPEAR

Q. We are retired and own Santa Fe Rwy.; Iowa Public Service; Columbia Gas, and Wellington Fund. Our investment in stocks now reflects a paper loss of around $2,800, yet the purpose of buying was to hedge against inflation. What has happened and what should we do? —L.S.

A. You bought good stocks, strong and safe as regards dividends, but they do not necessarily qualify as inflation hedges. You must first understand, if I may say so, that stocks are not necessarily a short-term hedge against dollar devaluation, because of market fluctuation. Issues which can move ahead faster in earnings and price than the dollar is depreciating should supply long-term protection over a period of five to 10 years. Your stocks have made little price progress for a long time, since they are not strongly situated for growth. Rails are not growth shares, few utilities have done well in recent years, pipeline issues have generally been out of favor and your mutual fund — which is strong and conservative — aims mainly at protection of principal rather than big asset buildup. I advise you to hold your Wellington and, if you can afford some drop in income, I would switch the others into Talon; Walgreen and Wm. H. Rorer, which seem well situated for price enhancement in the years ahead.

Q. I invested in National Securities Bond Series Mutual Fund. They have performed poorly and their value is below cost. What should I do? My objective is better than savings account income. — C.C.

A. You bought a fund which invests exclusively in bonds. With money rates rising sharply over the past year, bond prices have dropped to their lowest level since the 1920s. You can get out even now and I advise you to do so. For a nominal fee the management will switch your bond shares into its Stock Series.

NEARING COMPLETION

BUSINESS MIRROR

Time Again For Reality On Spending

By JOHN CUNNIFF

NEW YORK (AP) — For every American in these post-Christmas days the time has come to pay the bills, financial, moral, ethical. Anguish replaces merriment as reality raises its head in every house, the White House included.

This yearly recognition of human frailty, of matching early hopes against ultimate accomplishments, is usually accompanied by an agonizing confrontation with conscience, from which there is no release except in resolutions to do better. Nobody, not even a king or president, is excepted.

BUDGET WORK

President Lyndon Johnson undoubtedly is now undergoing this self-appraisal in preparation for his mid-January economic and budget messages, which involved problems of a magnitude unknown by ordinary men.

Looking back, Johnson will find that his assessment of national problems, as expressed in his economic message early this year, was quite accurate. But the problems quite often eluded the prescribed solutions.

On page 25 of the 1967 "Economic Report of the President" are 14 consecutive lines that show that the hopes even of the President of the United States, with all the resources at his command, sometimes sour in frustration.

"Neither the threat of inflation nor of recession is ever distant in a high level economy," Johnson stated. Since both threatened in 1967, this assessment was right on the mark.

HAD ANSWERS

What followed was a question that was then rhetorical and for which the President felt certain he had the answers. But, in terms of today's economic and social ills, a note of exasperation can be read into the question.

"How can we steer between these dangers," Johnson asked, "and—at the same time—supply the needs of national defense, strengthen our overseas payments, relieve the inequities of tight money and high interest rates, maintain the momentum of social progress, and provide growth of incomes . . ."

The same question can be asked today, for it remains the dominant one. The inability to travel between the dangers of inflation and recession without encountering the shoals has been one of the big problems of this administration.

But, one year ago when Johnson was marking out this route he was full of hope. "I am confident that we can find such a course," he said. "We will continue to coordinate the tools of monetary and fiscal policy . . ."

One needs read no further in that paragraph to realize that hope itself must have fallen upon the shoals. The inability to exercise fiscal policy, perhaps through indecision but mostly because a doubting Congress turned down a tax increase, was a failure for the administration.

ALL-TIME HIGHS

Interest rates are now at all-time highs. The economy hardly can be called balanced. And some economic analysts claim that more than a few of Johnson's financial problems have come from an absence of spending priorities.

To judge an administration solely on the basis of hopes it expressed a year earlier would be unfair. A president must set his hopes high, and the resolutions made by Johnson were mighty ones anyway.

Food Market To Open Again To Serve Loch Lomond Area

Residents of Loch Lomond, San Rafael, will have a food market open in the shopping center again about the middle of January.

The former Rakestraw's Loch Lomond Market at 688 Point San Pedro Road, closed for over a month, has been taken over by the **P and X Markets** chain headquartered and warehoused in San Lorenzo. A crew is now busily engaged in refurbishing the store and at this writing a grand opening is projected for Jan. 17.

This will be the company's 31st market — and its first in Marin. Other stores are located from Napa to San Jose — mostly in the East Bay. The Loch Lomond market will be a quality food operation with extensive stocks of merchandise in all departments, including beverages, meats and a delicatessen division. In charge will be **Victor Masington**, who has been with the company about 10 years or more — most recently as manager in Irvington. He is now relocating his home in Marin.

A NEW CORPORATION headquartered in Marin and involving several Marin residents as principals envisages a 640-acre recreational project in Sonoma County at the northwest corner of Highways 37 and 121, to be known as "Sears Point Park."

The name was chosen because the area, which is the main entrance to the Sonoma Valley, is known as Sears Point. The development, incorporated as **Sears Point Properties, Inc.**, will have as its principal attraction a major automobile racing facility. A use permit has been secured and work is scheduled to commence before the end of January. The racing circuit will be an asphalt road 40 feet wide and 2.8 miles long. Parking for 30,000 cars will be provided. The Sports Car Club of America has scheduled an international racing meet for next September and at least two other meets before then. First events are planned to be held late next spring.

Sine the use of the property as an automobile race circuit would not develop its full potential, there will also be a public skeet and trap shooting installation under franchise to the Winchester western division of Olin-Mathieson. Other outdoor recreational facilities are expected to be added, including a golf course. A 25-acre portion of the land will be set aside for motels, restaurants, shops and other services. Less than 5 per cent of the property will be covered with buildings and structures and those will follow an early California mission design.

Gordon Blumenfeld of Kentfield is president of the corporation and **James R. Coleman** of Kentfield is vice president. **Robert D. Marshall Jr.** of Point Reyes Station is Secreatry-treasurer. **John Gibbons** of Novato will be in charge of much of the on-site engineering and construction work. The company has its address at 880 Las Gallinas Avenue, San Rafael.

NEW VICE PRESIDENT in charge of manufacturing at **Synergistic Industries, Inc.**, the recently reorganized Zolene, Inc., is **Tom Donnelly**. Synergistic now has its headquarters and two plants in San Rafael, along with distribution facilities in Atlanta, and manufacturing and distributing facilities in Penndel, Pa. Before joining the firm Donnelly was in charge of Del Laboratories, a New York cosmetic manufacturer. He has been largely responsible for the launching of the new San Rafael plant at 25 Tiburon Street.

Stocks On Rise At End Of Trading

NEW YORK (AP)—The stock market closed on a rising trend in heavy trading today.

The averages erased early losses as a surge of buying developed late in the session.

The New York Stock Exchange ticker tape trailed by one minute in reporting floor transactions near the final bell.

The margin of declines among individual stocks over advances narrowed to a handful of issues.

Changes of key issues ranged from fractions to a point or so.

Some brokers said the Federal Reserve Board's raising by $550 million the reserves commercial banks must keep idle behind demand deposits put a crimp into what was the beginning of a strong year-end rally.

Declines among individual stocks outnumbered advances by about 120 issues.

Trading started at a fast clip and the New York Stock Exchange ticker tape soon fell three minutes behind in reporting floor transactions.

Weakness was displayed by steels, mail order-retails, aircrafts, utilities, tobaccos, building materials and drugs.

Rubbers, nonferrous metals and oils were mostly higher.

Prices declined on the American Stock Exchange.

SUCCESSFUL INVESTING

Inflation Hedges Need Closer Look

By ROGER E. SPEAR

Q. We are retired and own Santa Fe Rwy.; Iowa Public Service; Columbia Gas, and Wellington Fund. Our investment in stocks now reflects a paper loss of around $2,800, yet the purpose of buying was to hedge against inflation. What has happened and what should we do? —L.S.

A. You bought good stocks, strong and safe as regards dividends, but they do not necessarily qualify as inflation hedges. You must first understand, if I may say so, that stocks are not necessarily a short-term hedge against dollar devaluation, because of market fluctuation. Issues which can move ahead faster in earnings and price than the dollar is depreciating should supply long-term protection over a period of five to 10 years. Your stocks have made little price progress for a long time, since they are not strongly situated for growth. Rails are not growth shares, few utilities have done well in recent years, pipeline issues have generally been out of favor and your mutual fund — which is strong and conservative — aims mainly at protection of principal rather than big asset buildup. I advise you to hold your Wellington and, if you can afford some drop in income, I would switch the others into Talon; Walgreen and Wm. H. Rorer, which seem well situated for price enhancement in the years ahead.

Q. I invested in National Securities Bond Series Mutual Fund. They have performed poorly and their value is below cost. What should I do? My objective is better than savings account income. — C.C.

A. You bought a fund which invests exclusively in bonds. With money rates rising sharply over the past year, bond prices have dropped to their lowest level since the 1920s. You can get out even now and I advise you to do so. For a nominal fee the management will switch your bond shares into its Stock Series.

BUSINESS MIRROR

Time Again For Reality On Spending

By JOHN CUNNIFF

NEW YORK (AP) — For every American in these post-Christmas days the time has come to pay the bills, financial, moral, ethical. Anguish replaces merriment as reality raises its head in every house, the White House included.

This yearly recognition of human frailty, of matching early hopes against ultimate accomplishments, is usually accompanied by an agonizing confrontation with conscience, from which there is no release except in resolutions to do better. Nobody, not even a king or president, is excepted.

BUDGET WORK

President Lyndon Johnson undoubtedly is now undergoing this self-appraisal in preparation for his mid-January economic and budget messages, which involved problems of a magnitude unknown by ordinary men.

Looking back, Johnson will find that his assessment of national problems, as expressed in his economic message early this year, was quite accurate. But the problems quite often eluded the prescribed solutions.

On page 25 of the 1967 "Economic Report of the President" are 14 consecutive lines that show that the hopes even of the President of the United States, with all the resources at his command, sometimes sour in frustration.

"Neither the threat of inflation nor of recession is ever distant in a high level economy," Johnson stated. Since both threatened in 1967, this assessment was right on the mark.

HAD ANSWERS

What followed was a question that was then rhetorical and for which the President felt certain he had the answers. But, in terms of today's economic and social ills, a note of exasperation can be read into the question.

"How can we steer between these dangers," Johnson asked, "and—at the same time—supply the needs of national defense, strengthen our overseas payments, relieve the inequities of tight money and high interest rates, maintain the momentum of social progress, and provide growth of incomes . . ."

The same question can be asked today, for it remains the dominant one. The inability to travel between the dangers of inflation and recession without encountering the shoals has been one of the big problems of this administration.

But, one year ago when Johnson was marking out this route he was full of hope. "I am confident that we can find such a course," he said. "We will continue to coordinate the tools of monetary and fiscal policy . . ."

One needs read no further in that paragraph to realize that hope itself must have fallen upon the shoals. The inability to exercise fiscal policy, perhaps through indecision but mostly because a doubting Congress turned down a tax increase, was a failure for the administration.

ALL-TIME HIGHS

Interest rates are now at all-time highs. The economy hardly can be called balanced. And some economic analysts claim that more than a few of Johnson's financial problems have come from an absence of spending priorities.

To judge an administration solely on the basis of hopes it expressed a year earlier would be unfair. A president must set his hopes high, and the resolutions made by Johnson were mighty ones anyway.

OTHER PEOPLE'S BUSINESS

Food Market To Open Again To Serve Loch Lomond Area

Residents of Loch Lomond, San Rafael, will have a food market open in the shopping center again about the middle of January.

The former Rakestraw's Loch Lomond Market at 688 Point San Pedro Road, closed for over a month, has been taken over by the **P and X Markets** chain headquartered and warehoused in San Lorenzo. A crew is now busily engaged in refurbishing the store and at this writing a grand opening is projected for Jan. 17.

This will be the company's 31st market — and its first in Marin. Other stores are located from Napa to San Jose — mostly in the East Bay. The Loch Lomond market will be a quality food operation with extensive stocks of merchandise in all departments, including beverages, meats and a delicatessen division. In charge will be **Victor Masington**, who has been with the company about 10 years or more — most recently as manager in Irvington. He is now relocating his home in Marin.

A NEW CORPORATION headquartered in Marin and involving several Marin residents as principals envisages a 640-acre recreational project in Sonoma County at the northwest corner of Highways 37 and 121, to be known as "Sears Point Park."

The name was chosen because the area, which is the main entrance to the Sonoma Valley, is known as Sears Point. The development, incorporated as **Sears Point Properties, Inc.**, will have as its principal attraction a major automobile racing facility. A use permit has been secured and work is scheduled to commence before the end of January. The racing circuit will be an asphalt road 40 feet wide and 2.8 miles long. Parking for 30,000 cars will be provided. The Sports Car Club of America has scheduled an international racing meet for next September and at least two other meets before then. First events are planned to be held late next spring.

Sine the use of the property as an automobile race circuit would not develop its full potential, there will also be a public skeet and trap shooting installation under franchise to the Winchester western division of Olin-Mathieson. Other outdoor recreational facilities are expected to be added, including a golf course. A 25-acre portion of the land will be set aside for motels, restaurants, shops and other services. Less than 5 per cent of the property will be covered with buildings and structures and those will follow an early California mission design.

Gordon Blumenfeld of Kentfield is president of the corporation and **James R. Coleman** of Kentfield is vice president. **Robert D. Marshall Jr.** of Point Reyes Station is Secreatry-treasurer. **John Gibbons** of Novato will be in charge of much of the on-site engineering and construction work. The company has its address at 680 Las Gallinas Avenue, San Rafael.

NEW VICE PRESIDENT in charge of manufacturing at **Synergistic Industries, Inc.**, the recently reorganized Zolene, Inc., is **Tom Donnelly**. Synergistic now has its headquarters and two plants in San Rafael, along with distribution facilities in Atlanta, and manufacturing and distributing facilities in Penndel, Pa. Before joining the firm Donnelly was in charge of Del Laboratories, a New York cosmetic manufacturer. He has been largely responsible for the launching of the new San Rafael plant at 25 Tiburon Street.

Stocks On Rise At End Of Trading

NEW YORK (AP)—The stock market closed on a rising trend in heavy trading today.

The averages erased early losses as a surge of buying developed late in the session.

The New York Stock Exchange ticker tape trailed by one minute in reporting floor transactions near the final bell.

The margin of declines among individual stocks over advances narrowed to a handful of issues.

Changes of key issues ranged from fractions to a point or so.

Some brokers said the Federal Reserve Board's raising by $550 million the reserves commercial banks must keep idle behind demand deposits put a crimp into what was the beginning of a strong year-end rally.

Declines among individual stocks outnumbered advances by about 120 issues.

Trading started at a fast clip and the New York Stock Exchange ticker tape soon fell three minutes behind in reporting floor transactions.

Weakness was displayed by steels, mail order-retails, aircrafts, utilities, tobaccos, building materials and drugs.

Rubbers, nonferrous metals and oils were mostly higher.

Prices declined on the American Stock Exchange.

NEWLYWEDS—Bandleader Harry Janes and former showgirl Joan Boyd were honeymooning in Reno today, following their marriage yesterday. (AP Wirephoto)

Trumpeter Harry James, Ex-Showgirl Wed In Reno

RENO, Nev. (UPI) — Band leader Harry James, 51, and miniskirted former showgirl Joan Boyd, 27, honeymooned in this gambling resort today where James is appearing at a local club.

The couple, married yesterday in a private 20-minute ceremony, held a public reception at 2 a.m. today following a wedding party and private reception.

It was the third marriage for the trumpet-blowing James and the second for the redhaired bride whose first marriage was annuled in Los Angeles in 1962. James was divorced from actress Betty Grable in Las Vegas in 1965. He previously was married to singer Lois Tobin.

James gave his wife an affectionate kiss after the ceremony performed at the Park Wedding Chapel by the Rev. Elbert Ross. About a dozen close friends attended.

The bride wore a white satin miniskirt, carried a white satin ribbon and a white rose bouquet. James was dressed in a powder blue jacket, black slacks and a white turtleneck knit shirt.

Bridesmaid Lori Field of Las Vegas also wore a white miniskirt. Best man was Frank Monte, James' manager for 27 years.

Shelley Predicts Symphony Pact

SAN FRANCISCO (AP)—Mayor John F. Shelley predicts quick settlement of a strike that has delayed opening of the San Francisco Symphony season since Nov. 29.

He told the Board of Supervisors yesterday an agreement was so near that a planned investigation would be canceled.

Reports from negotiators indicated a contract might be worked out in time to begin concerts Jan. 3, five weeks late.

HOLLYWOOD'S 1967

Film Town Survives Year Of Death, Woes

By BOB THOMAS

HOLLYWOOD (AP) — The movie world underwent violent change during 1967, and it can look forward to more changes in the coming year.

Despite economic pressures, competition from abroad and attacks by censors, Hollywood manages to survive. And the film town still manages to produce news to stir the interest of newspaper readers around the globe. This year brought an unusually wide variety of happenings, ranging from personal tragedies to industry trends.

TOP STORIES

Here's how the top stories of 1967 appeared to this reporter:

1. Spencer Tracy dies. After years of ill health, he had been in the news with his return to films as co-star once again with Katherine Hepburn. Days after finishing his last scene, Tracy died, and many of his colleagues believed his passing marked the end of the most brilliant acting career in American films.

2. Jayne Mansfield killed. The would-be successor to Marilyn Monroe was no longer in demand for movies, but she had kept her career alive by persistent self-promotion. Her death on a Louisiana highway brought recollections of the remarkable number of sex symbols who have died young.

NUDITY INCREASES

3. The sex revolution in films. This was a year-long story, as the traditional moral attitudes were increasingly challenged by movies that dealt frankly with sex. More bare flesh was seen in major films during 1967 than in all previous years of movie history.

4. The Oscars. Always one of Hollywood's biggest news events, the 1966 Academy awards featured a second victory for Elizabeth Taylor, but not for her co-star of "Who's Afraid of Virginia Woolf?"—Richard Burton. His fellow Britisher, Paul Scofield, won for "A Man for All Seasons," which was also named the best picture.

5. Networks into films. The entrance of CBS and ABC into production of feature movies for theaters was considered by many observers to be the most important industry trend of 1967. The long-established film makers responded by asking the government to halt the move on antitrust grounds.

ELVIS MARRIES

6. Elvis marries. One of America's most famous and wealthy bachelors married Patricia Beaulieu for the movieland wedding of the year. And now the singer expects to be a father early next year.

7. Merger of Seven Arts and Warner Brothers. "The Last Tycoon," Jack L. Warner, stepped down as production boss at the studio that bears his name. He was replaced by young Kenneth Hyman, whose father, Eliot Hyman, founded Seven Arts.

8. Sinatras split. Hollywood's No. 1 newsmaker, Frank Sinatra, made the headlines with a surprise separation from his young wife, Mia Farrow.

9. Jennifer Jones' near-fatal plunge down a cliff. The Academy Award-winning actress' bizarre mishap seemed like a scene from one of her dramatic movies.

10. Connie Stevens' baby. The birth of a daughter to the blonde actress coincided with the announcement that she had been secretly wed to the child's father, Eddie Fisher.

COSTLY FAKE — Beverly Hills art dealer Frank Perls paid a Berlin art dealer $7,600 for this statuette, which he says later turned out to be a fake. The 14-inch bronze bears the name of Alberto Giacometti, Swiss-born pioneer in modern art. (AP Wirephoto)

Police Departments Willed $10,000 Each

SAN FRANCISCO AP) — Police departments of San Francisco, Fresno and New York were left $10,000 each in the will of Abbie Woodward Parker who died in 1963 at the age of 75.

The will disposing of the $2.6 million estate directed that the money be used by the police departments to improve their community and public relations.

Peace And Freedom Party Rebuffed In Ballot Suit

SAN FRANCISCO (UPI) — The Peace and Freedom Party failed yesterday in its attempt to get on the 1968 general election ballot through a court order.

The State Supreme Court denied a petition by the new left party asking that Secretary of State Frank Jordan be ordered to place the party on the ballot.

However, party workers are still attempting to get a place on the ballot by registering voters equaling 1 per cent of the statewide vote in the last gubernatorial election.

In their petition to the court party officials said they would not be able to register the necessary 66,059 voters by the Jan. 2, 1968 deadline.

On Tuesday, however, a party spokesman said 44,000 registrations had been obtained and the party was confident it would reach its goal.

The petition alleged that both the requirement of electoral support as a condition of qualifying for the ballot and the time limit set by election laws were "arbitrary, unreasonable, unfair and discriminatory."

It also objected to the failure of clerks to accept registrations from citizens not now 21 years old but who will be by next November.

In answering the petition, the state attorney general's office said the requirements are reasonable and necessary to keep the ballot from being "cluttered with a proliferation of microscopic parties which have no possibility of achieving elective office, whose presence on the ballot is an overwhelming expense, burden and source of confusion to the electors and often whose main purpose is only to obtain publicity for their cause."

State officials also pointed out that new parties, such as the Peace and Freedom Party, may still sponsor write-in campaigns.

Film On Ketch

"Yankee Sails Across Europe," a film about the voyage of the 50-foot ketch Yankee on European canals, will be shown at 7:15 p.m. Jan. 11 at a joint meeting of the San Anselmo and Corte Madera Lions clubs at the Corte Madera Recreation Center.

NEWLYWEDS—Bandleader Harry Janes and former showgirl Joan Boyd were honeymooning in Reno today, following their marriage yesterday. (AP Wirephoto)

Trumpeter Harry James, Ex-Showgirl Wed In Reno

RENO, Nev. (UPI) — Band leader Harry James, 51, and miniskirted former showgirl Joan Boyd, 27, honeymooned in this gambling resort today where James is appearing at a local club.

The couple, married yesterday in a private 20-minute ceremony, held a public reception at 2 a.m. today following a wedding party and private reception.

It was the third marriage for the trumpet-blowing James and the second for the redhaired bride whose first marriage was annuled in Los Angeles in 1962. James was divorced from actress Betty Grable in Las Vegas in 1965. He previously was married to singer Lois Tobin.

James gave his wife an affectionate kiss after the ceremony performed at the Park Wedding Chapel by the Rev. Elbert Ross. About a dozen close friends attended.

The bride wore a white satin miniskirt, carried a white satin ribbon and a white rose bouquet. James was dressed in a powder blue jacket, black slacks and a white turtleneck knit shirt.

Bridesmaid Lori Field of Las Vegas also wore a white miniskirt. Best man was Frank Monte, James' manager for 27 years.

Shelley Predicts Symphony Pact

SAN FRANCISCO (AP)—Mayor John F. Shelley predicts quick settlement of a strike that has delayed opening of the San Francisco Symphony season since Nov. 29.

He told the Board of Supervisors yesterday an agreement was so near that a planned investigation would be canceled.

Reports from negotiators indicated a contract might be worked out in time to begin concerts Jan. 3, five weeks late.

HOLLYWOOD'S 1967

Film Town Survives Year Of Death, Woes

By BOB THOMAS

HOLLYWOOD (AP) — The movie world underwent violent change during 1967, and it can look forward to more changes in the coming year.

Despite economic pressures, competition from abroad and attacks by censors, Hollywood manages to survive. And the film town still manages to produce news to stir the interest of newspaper readers around the globe. This year brought an unusually wide variety of happenings, ranging from personal tragedies to industry trends.

TOP STORIES

Here's how the top stories of 1967 appeared to this reporter:

1. Spencer Tracy dies. After years of ill health, he had been in the news with his return to films as co-star once again with Katherine Hepburn. Days after finishing his last scene, Tracy died, and many of his colleagues believed his passing marked the end of the most brilliant acting career in American films.

2. Jayne Mansfield killed. The would-be successor to Marilyn Monroe was no longer in demand for movies, but she had kept her career alive by persistent self-promotion. Her death on a Louisiana highway brought recollections of the remarkable number of sex symbols who have died young.

NUDITY INCREASES

3. The sex revolution in films. This was a year-long story, as the traditional moral attitudes were increasingly challenged by movies that dealt frankly with sex. More bare flesh was seen in major films during 1967 than in all previous years of movie history.

4. The Oscars. Always one of Hollywood's biggest news events, the 1966 Academy awards featured a second victory for Elizabeth Taylor, but not for her co-star of "Who's Afraid of Virginia Woolf?"—Richard Burton. His fellow Britisher, Paul Scofield, won for "A Man for All Seasons," which was also named the best picture.

5. Networks into films. The entrance of CBS and ABC into production of feature movies for theaters was considered by many observers to be the most important industry trend of 1967. The long-established film makers responded by asking the government to halt the move on antitrust grounds.

ELVIS MARRIES

6. Elvis marries. One of America's most famous and wealthy bachelors married Patricia Beaulieu for the movieland wedding of the year. And now the singer expects to be a father early next year.

7. Merger of Seven Arts and Warner Brothers. "The Last Tycoon," Jack L. Warner, stepped down as production boss at the studio that bears his name. He was replaced by young Kenneth Hyman, whose father, Eliot Hyman, founded Seven Arts.

8. Sinatras split. Hollywood's No. 1 newsmaker, Frank Sinatra, made the headlines with a surprise separation from his young wife, Mia Parrow.

9. Jennifer Jones' near-fatal plunge down a cliff. The Academy Award-winning actress' bizarre mishap seemed like a scene from one of her dramatic movies.

10. Connie Stevens' baby. The birth of a daughter to the blonde actress coincided with the announcement that she had been secretly wed to the child's father, Eddie Fisher.

COSTLY FAKE — Beverly Hills art dealer Frank Perls paid a Berlin art dealer $7,600 for this statuette, which he says later turned out to be a fake. The 14-inch bronze bears the name of Alberto Giacometti, Swiss-born pioneer in modern art. (AP Wirephoto)

Police Departments Willed $10,000 Each

SAN FRANCISCO AP) — Police departments of San Francisco, Fresno and New York were left $10,000 each in the will of Abbie Woodward Parker who died in 1963 at the age of 75.

The will disposing of the $2.6 million estate directed that the money be used by the police departments to improve their community and public relations.

Peace And Freedom Party Rebuffed In Ballot Suit

SAN FRANCISCO (UPI) — The Peace and Freedom Party failed yesterday in its attempt to get on the 1968 general election ballot through a court order.

The State Supreme Court denied a petition by the new left party asking that Secretary of State Frank Jordan be ordered to place the party on the ballot.

However, party workers are still attempting to get a place on the ballot by registering voters equaling 1 per cent of the statewide vote in the last gubernatorial election.

In their petition to the court party officials said they would not be able to register the necessary 66,059 voters by the Jan. 2, 1968 deadline.

On Tuesday, however, a party spokesman said 44,000 registrations had been obtained and the party was confident it would reach its goal.

The petition alleged that both the requirement of electoral support as a condition of qualifying for the ballot and the time limit set by election laws were "arbitrary, unreasonable, unfair and discriminatory."

It also objected to the failure of clerks to accept registrations from citizens not now 21 years old but who will be by next November.

In answering the petition, the state attorney general's office said the requirements are reasonable and necessary to keep the ballot from being "cluttered with a proliferation of microscopic parties which have no possibility of achieving elective office, whose presence on the ballot is an overwhelming expense, burden and source of confusion to the electors and often whose main purpose is only to obtain publicity for their cause."

State officials also pointed out that new parties, such as the Peace and Freedom Party, may still sponsor write-in campaigns.

Film On Ketch

"Yankee Sails Across Europe," a film about the voyage of the 50-foot ketch Yankee on European canals, will be shown at 7:15 p.m. Jan. 11 at a joint meeting of the San Anselmo and Corte Madera Lions clubs at the Corte Madera Recreation Center.
